

Image link for Horizon 856 tags

To link an images that lives in the DAMS to a Horizon record, use the value in the “Unique Asset Name” filed in the DAMS for that image. For example: OFEO-SG-PA684011

For Full size image \$u <http://ids.si.edu/ids/deliveryService?id=OFEO-SG-PA684011&max=1024>

For Thumbnail size image \$9 <http://ids.si.edu/ids/deliveryService?id=OFEO-SG-PA684011&max=150>

The 856 tag looks like this:

```
856    1    $3Image
        $2http
        $uhttp://ids.si.edu/ids/deliveryService?id=OFEO-SG-PA684011&max=1024
        $9http://ids.si.edu/ids/deliveryService?id=OFEO-SG-PA684011&max=150
        $zImage
```

Max= the size of the image.

For Thumbnails should be **max=150** always!

For average image, **max=1024**,

For maps, fine prints and newspaper clips, **max=2000**. (2000 is the max for IDS)

Trouble shooting ideas:

- Can't find "Unique Asset Name" field in the DAMS: Make sure your DAMS profile is set to display this field on your screen.
- The link does not display the image:
 1. Make sure the image in the DAMS is checked for "Public Access". (**Tip:** you can set up ingest profile to mark all images with "public access" status.)
 2. The images marked for "Public Access" need to wait overnight for IDS to have access to this image.
