Administrative Information

Acquisition Information

Xavier Gonzalez first loaned the Archives of American Art material for microfilming in 1968, most of which was included in the later 1999 gift. Gonzalez also donated a small amount of papers in 1971. Additional materials were donated by the George Arents Research Library at Syracuse University in 1984 and 1992, and by the estate of Ethel Edwards Gonzalez in 1999.

Separated Materials

The Archives of American Art also holds microfilm of material lent for microfilming on reels N68-113, N69-42, N69-43, and N70-53. Most of this material was included in subsequent gifts, but a comparison of the film and papers was not completed. Loaned materials not donated at a later date remain with the lender and are not described in the container listing of this finding aid.

Related Materials

Also found at the Archives of American Art are the papers of Xavier Gonzalez's wife, Ethel Edwards.

Available Formats

Portions of this collection are available on 35 mm microfilm reels N70-16 and 858 and 3814 at the Archives of American Art offices and through interlibrary loan. Researchers should note that the arrangement of the material described in the container inventory does not reflect the arrangement of the collection on microfilm.

Processing Information

The collection was processed and a finding aid prepared by Sarah Mundy in 2016 with funding from the Smithsonian Institution's Collections Care Pool Fund, using accelerated processing strategies implemented by the Archives to increase information about and access to more of our collections. For this collection, accelerated processing included arrangement to the series, subseries and folder levels, adhering to the creator's original arrangement as much as possible. Generally, folder contents were simply verified with the original folder titles, but items within folders were not arranged further. All materials were rehoused in archival folders and boxes for long-term stability, but staples and other fasteners have not all been removed.
