Administrative Information

Acquisition Information

The Walter Pach papers were acquired in several installments. After Pach's death his widow, Nikifora Pach, sold Pach's papers to Salander-O'Reilly Galleries. They were purchased by the Archives of American Art in 1988 with a grant from the Brown Foundation, Inc.

Eight family photographs, donated by Raymond Pach, son of Walter Pach, were received in 1990.

In 2012 Francis M. Naumann donated an additional 5.7 linear feet of material to the Archives of American Art.

Separated Materials

When the Archives of American Art acquired the Walter Pach Papers, some portion of his library was also received. The bulk of the library was transferred to the Smithsonian's American Art/Portrait Gallery Library where the items could be properly cataloged, cared for, and used.
Available Formats
The bulk of the collection was digitized in 2014 and is available on the Archives of American Art's website. Material which has not been scanned includes duplicates, blank pages of bound volumes, some business records and sensitive personal financial and medical records, negatives, and Series 10: Selections from Walter Pach's Library.

Processing Information
The 1988 accession of the Walter Pach papers was processed by Nancy Malloy and Catherine Stover and the bulk of the collection, with the exception of Walter Pach's library, was microfilmed in 1997. The microfilm was digitized in 2008 with funding provided by the Gladys Delmas Foundation.

In 2012 these papers were merged, fully processed, arranged and described with the 1990 and 2012 additions, by Stephanie Ashley, and the bulk of the collection was digitized in 2014 with funding provided by the Terra Foundation for American Art. Motion picture film reel was inspected and re-housed in 2017 with funding provided by the Smithsonian Collections Care and Preservation Fund.

Biographical Note
New York artist, critic, writer, art consultant, and curator, Walter Pach (1883-1958) was an influential promoter of modern art and was instrumental in organizing the landmark Armory Show in 1913.

Walter Pach was born in New York City, July 11, 1883. His father, Gotthelf Pach, was a prominent commercial photographer who, along with his family, ran the New York firm of Pach Brothers. The company did the bulk of the photographic work for the Metropolitan Museum of Art, and the young Pach often accompanied his father on museum assignments. In 1903, Pach graduated from the City College of New York with a degree in art. He also studied with Robert Henri at the New York School of Art and went abroad to paint with William Merritt Chase in the summers of 1903 and 1904.

In 1906 Pach presented his first art history lecture at the Westfield State Normal School in Westfield, Massachusetts.

In 1907, Pach went to France and as an artist and critic moved among the Parisian avant-garde and became part of the Gertrude and Leo Stein circle. Gertrude Stein's "Portrait of Walter Pach was painted
in 1908. Pach wrote extensively about modern art and through his numerous books, articles, and translations of European art texts, brought an emerging modernist viewpoint to the American public. In 1908 he wrote the first article published in America on Cézanne, and also wrote on such established artists as Claude Monet, whom he interviewed in 1908 for Scribner's Magazine.

Pach organized exhibitions of contemporary art for important New York City galleries of the period, as well as the landmark exhibition of 1913, "The International Exhibition of Modern Art," commonly known as the Armory Show. Along with painters Arthur B. Davies and Walt Kuhn, he brought together leading contemporary European and American artists. Pach served with Kuhn as administrator, publicist and gallery lecturer for the Armory Show Chicago for the run of the exhibition.

Pach helped to form major collections for John Quinn and Walter Arensberg. He was also instrumental in securing individual works of art for museums, such as a portrait for the Louvre Museum by American master Thomas Eakins, and Jacques-Louis David's Death of Socrates for the Metropolitan Museum of Art.

Pach married artist Magdalene Frohberg in February 1914, and their son Raymond was born at the end of that year. The Pachs lived primarily in New York, but spent time abroad from 1928 to 1932. Intermittently, they lived on the West Coast, where Pach taught at the University of California at Berkeley. In the 1920s he taught at the University of Mexico on a Shilling Fund grant, lecturing and writing on Native American art and developing a strong interest in Pre-Columbian art. He took an active interest in organizing exhibitions and raising money for a museum to be dedicated to the indigenous art of the Americas. In addition, he was a friend of José Clemente Orozco and Diego Rivera and helped organize the Mexican chapter of the Society of Independent Artists, the New York-based organization he founded in 1917 with Walter Arensberg and Marcel Duchamp.

While not well known today as a painter, Walter Pach devoted much of his creative effort to painting. He considered himself both an artist and a writer, even though friends like art historian Bernard Berenson urged him to devote all his time to writing. Among his writings are monographs on a wide range of subjects, social commentary on the art world, and a book on museum structures. Among his first publications were a series of brochures produced for the 1913 Armory Show, including Odilon Redon and, in the same year, A Sculptor's Architecture, a book about the work of Raymond Duchamp-Villon, a close friend whom he admired greatly. In 1923, Pach wrote Georges Seurat, a book later cited by art historian John Rewald as an important early text on the artist. Masters of Modern Art and the monograph Raymond Duchamp-Villon were published the following year, and in 1928 Pach's well-known indictment of opportunistic artists and corruption in the art world, Ananias, or The False Artist, created a stir in art circles. Pach considered Vincent Van Gogh to be a seminal figure in the development of modern art and was the first historian to lecture on him in America. In 1936, he published his well-received monograph, Vincent Van Gogh. His recollections of a life spent in art, Queer Thing, Painting appeared in 1938. Ingres was published in 1939, as well as Masterpieces of Art, written for the 1939 New York World's Fair, for which Pach was exhibition director. His Art Museum in America, published in 1948, called into question the relevance, responsibility, and future direction of the American art museum. He long championed the artists of Mexico and published an essay on Diego Rivera in 1951 for the National Museum of Fine Arts, Mexico, for its 50-year retrospective exhibition on the artist. The Classical Tradition in Modern Art, Pach's last book, was published posthumously in 1959.

Pach's fluency in French, German, and Spanish allowed him to understand and interpret new avant-garde ideas developing in Europe and to translate them for an English-speaking audience. His language skills also allowed him to communicate personally with many noted artists in Europe and Mexico and to mediate between gallery dealers and museum curators on their behalf. His correspondence with major figures in 20th-century art are a fascinating and important source of information, not only about the artists themselves but about the art world in general during the first half of this century.

2.1: Family Correspondence, 1883-1980

Found here are letters from Magda to Walter Pach and to his parents from Pach's son Raymond, who spent many years abroad pursuing an operatic career. Included are letters written when Raymond Pach was stationed in Europe at the end of World War II. Raymond Pach's correspondence also includes a 1945 letter from Jacques Villon and snapshots of the Pach family.

Correspondence with Pach's brother, Alfred Pach, and nephew, also named Alfred, includes letters relating to the family businesses of Pach Brothers Photographers, and The Print Galleries.

Correspondence of Pach's parents, Frances Wise and Gotthelf, include letters to Pach and other family members, and letters from Pach's school which provide insight into the mind and abilities of the school-age Pach.

Nikifora Pach's correspondence includes several letters to Pach and drafts of letters to various people written after Pach's death, some of which related to arrangements for events, including an exhibition and a lecture. Also found here is 1 film reel relating to "Youth Center 1" at the Hellenic Eastern Orthodox Church of New York.

The series has been scanned in entirety with the exception of the film reel. Use of archival audiovisual recording with no duplicate access copy requires advance notice.
2.2: General Correspondence, 1903-1969

This series documents Pach’s relationships with artists, writers, collectors, museums and other noted art-world figures throughout his life. Early letters record Pach’s role in the 1913 Armory Show and the fate of various artists during World War I. Among artists who corresponded with Pach are Arthur B. Davies, Marcel Duchamp, Raymond Duchamp-Villon, Henri Matisse, Claude Monet, Maurice Prendergast, Diego
Rivera, Morton Livingston Schamberg, John Sloan, and Alfred Stieglitz. There are also circa 100 letters from Pach's lifelong friend, Jacques Villon and letters from Thomas Eakins's widow Susan.

Pach's role in the development of the art collections of Walter Arensberg and John Quinn is documented in letters from Marcel Duchamp, Raymond Duchamp-Villon, Raoul Dufy, Jean Le Roy, Georges Roualt, and Frederic C. Torrey. Also of note are letters from Bryson Burroughs, curator of painting at the Metropolitan Museum of Art.

Letters from art historians, critics and writers such as Bernard Berenson, Van Wyck Brooks, Elie Faure and Leo Stein document their responses to Pach's writings on art, and provide insight into the flow of avant-garde ideas from Europe and their reception abroad. These letters also provide documentation of the European and American art markets in the early twentieth century by referencing responses to, and sales of, work by individual artists.

Folders are arranged alphabetically by name of correspondent or organization. They are housed in individual named files if there are four or more related items, and in a general files for the appropriate letter of the alphabet, if there are less than four.

This series has been scanned in its entirety.
