## Collection Overview

<b>Repository:</b>	Archives of American Gardens
<b>Title:</b>	Ken Druse garden photography collection
<b>Date:</b>	1978-2005
<b>Identifier:</b>	AAG.DRU
<b>Creator:</b>	Druse, Kenneth (Photographer)
<b>Extent:</b>	18.75 Cubic feet (15 boxes; Approximately 45,000 images: 35,000 transparencies + 10,000 35mm slides.)
<b>Language:</b>	English .
<b>Summary:</b>	The Ken Druse Garden Photography Collection contains approximately 45,000 film transparency and 35mm slide images, dating from 1978 to 2005, of gardens, garden features, and flora photographed by garden writer and photographer Ken Druse. The photographic images document numerous private and public gardens throughout the United States and a few in Canada. Many have appeared in Druse's own books and articles as well as those by other writers. Approximately half of the collection is arranged according to specific garden, the other half by garden feature. A small portion of the collection consists of slide lectures given by Druse. Some images are identified with general captions and dates. Images documenting specific gardens are sometimes accompanied by handwritten notes, garden descriptions, and articles. Annotations appearing on certain images indicate the publication in which they appeared. The collection includes 'outtakes' or bracketed images that give insight into Druse's photo shooting process.

---

## Administrative Information

### Immediate Source of Acquisition Note

Ken Druse donated his collection of garden transparencies and slides to the Archives of American Gardens in 2013.

### Preferred Citation Note

Smithsonian Institution, Archives of American Gardens, Ken Druse garden photography collection

### Restrictions

Access to original archival materials by appointment only. Researcher must submit request for appointment in writing. Certain items may be restricted and not available to researchers. Please direct reference inquiries to the Archives of American Gardens: [aag@si.edu](mailto:aag@si.edu).

### Conditions Governing Use Note

Archives of American Gardens encourages the use of its archival materials for non-commercial, educational and personal use under the fair use provision of U.S. copyright law. Use or copyright

restrictions may exist. It is incumbent upon the researcher to ascertain copyright status and assume responsibility for usage. All requests for duplication and use must be submitted in writing and approved by Archives of American Gardens. Please direct reference inquiries to the Archives of American Gardens: [aag@si.edu](mailto:aag@si.edu).

---

## Biographical Note

Ken Druse is a garden photographer and author of over a dozen books and numerous newspaper and magazine articles on garden-related topics. His images appear in his own books and articles as well as those by other writers. He received the Sarah Chapman Francis Medal for Literary Achievement from the Garden Club of America in 2004 for his garden writing. He highlights the work of numerous gardeners, garden designers, and horticulture experts on his website and podcast.

Druse's books include *Making More Plants: The Science, Art, and Joy of Propagation*; *Planthropology: The Myths, Mysteries, and Miracles of My Garden Favorites*; *The Collector's Garden: Designing with Extraordinary Plants*; and *The Passion for Gardening: Inspiration for a Lifetime*.

## Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

### Subjects:

- Gardens -- Canada
- Gardens -- United States

### Types of Materials:

- Articles
- Notes
- Slides (photographs)
- Transparencies -- 20th century

---

Landscape architect: Castleberg, Grant

Former owner: Tudor, W.P.  
Tudor, M.A.

Notes: 9 transparencies and 2 file folders.

The garden sits on a 2-acre property, overlooked by the home. Paths leading from the pool terrace lead down into the garden rooms, which features a rose garden, vegetables and fruit trees, and cutting gardens.

Persons associated with the garden include: W.P. and M.A. Tudor (former owners, 1987-2007); Grant Castleberg (landscape architect, n.d.).

## Colorado

CO025: [Denver -- Denver Botanic Gardens](#)

CO041: [Denver -- Eudora Street Garden](#)  
Former owner: Kelaidis, Panayoti  
Moore, Gwen M.

**Notes:** The folder includes worksheets and photocopies of articles.

Raised rock berms, gravel and stone troughs were the planting beds of this vanished garden on an urban street, with a small lawn in the center of the backyard. Seeds for the bulb, perennial and cactus species planted with succulents, ground cover plants and dwarf conifers were collected by the owner in the alpine and steppe regions of the world. Regions included the American west, Turkey, western Asia, the Mediterranean, South Africa, Mexico and South America. Each species would have been adapted to its own native microclimate, and was shown to thrive in a rock garden in Denver's elevated altitude and hot, dry climate. Steppe plants tend to have silver, gray, hairy, spiny, waxy or leathery foliage and often brilliantly colored flowers, in this atypical garden. Several thousand species were propagated and sold by the owners through their business, Rocky Mountain Rare Plants. Also, the owner developed the Rock Alpine Garden at The Denver Botanic Garden, and grew and tested about 6,000 species of plants.

Persons associated with the garden include Panayoti Kelaidis and Gwen M. Moore (former owners).

Eudora Street Garden related holdings consist of 1 folder (92 transparencies)

This property is featured in "He Gardens, Denver Blooms" by Susan Clotfelter, published in The Denver Post, July 21, 2009; "A Rare Plantsman: Panayoti Kelaidis" by Lauren Springer, published in Horticulture, May 1, 2007.

Garden Ogden, Lauren Springer

designer:

Notes:

The folder includes worksheets and photocopies of articles.

From 1988 to 1995 a corner lot in a semi-arid climate with two median strips inspired the term "hellstrip" for the narrow and challenging gardens between the sidewalk and the street. Inspired by the need for an aesthetic overhaul, the owner tore out all the lawns on the property, approximately one-quarter acre, and replaced the grass with perennials, bulbs, ornamental grasses, succulents, spruce and cactus that would thrive without watering once the plants were established. The patchwork design was inspired by other gardens in wetter climates, particularly Ireland where the owner had worked, achieving the effect without plentiful moisture. Plants that did not thrive were pulled out. The hellstrips were seven feet wide and approximately 70 feet long, nearly 500 square feet in total. There was a town ordinance limiting the height of anything on the strips - organic or otherwise. Several applications of weed killer were followed by digging out debris and grubbing out juniper and tree stumps.

Plant selection for the hellstrips included seed-grown plants and bulbs that were drought-tolerant, non-invasive and not too tall. Although originally from many different parts of the world, these plants shared similar growth habits: mounding rather than spreading. Self-sowing poppies and larkspur thrived in the pea gravel mulch that was used to prevent erosion and to shade the roots from the intense summer heat that reflected off the surrounding concrete sidewalks and street. Darker and hotter hues, including scarlet penstemon, bright yellow linum, orange California poppies and burgundy and yellow gaillardias glowed in the afternoon sun at the west end while pastel-toned dianthus, salvias and mauve penstemon were planted at the east end. Plants with evergreen foliage including iceplant extended the growing season. Some other favorite plants for the median strips included those with silver leaves such as dusty miller, catmint and herbs as well as many varieties of cactus and flat-leafed succulents that contributed different textures.

Persons associated with the garden include Lauren Springer Ogden (garden designer, 1988-1995).

IL171: [Kenilworth -- Home of George Maher, Architect](#)

Architect: Maher, George W., 1864-1926

Former owner: Maher, George W., 1864-1926

Maher, Elizabeth

Wyld, Violet

Dreher, Chris

Wild Family

Landscape architect: Jensen, Jens, 1860-1951

Garden designer: Toner, Deidre E., ASLA  
Chalet Garden Design

Notes: Private Gardens, Public Places

The folder includes worksheets, garden plan and plant list, correspondence, and photocopies of images.

Architect George Maher designed the house with Arts and Crafts influences in 1893 for his family, and had the garden designed by his friend and colleague Jens Jensen. Only the white pine in the front yard and a burr oak in the back yard remain from the Jensen landscape. An island bed of pachysandra and ferns surround the pine. A rose garden with heirloom and modern roses was planted circa 1990. Trellises with climbing roses, porcelain vines and trumpet vines were placed against the house and porch. The foundations plantings include hydrangeas, boxwoods and mature perennials. The pink brick walk to the front door was bordered by beds of perennials.

Persons associated with the garden include George W.(1864-1926) and Elizabeth Maher and Violet Wyld (architect and former

owners, 1893-circa 1987; Chris Dreher (former owner, 1987-1988); Wild family (former owners, 1988-1989); Jens Jensen(1860-1951) (landscape architect, 1893-1895); Chalet Garden Design (garden designers, 1988), Jane Mueller and Mark Marcus, Private Gardens, Public Places (garden designers, 2000); Deidre E. Toner, ASLA (landscape architect, 2011).

MA578: [Sheffield -- Bartholomew's Cobble](#)

MA579: [Sheffield -- Campo de' Fiori](#)

Owner: Norris, Robin  
Bockbrader, Barbara

Notes: The folder includes a worksheet and an articles.

The garden was started in the 1980's for the commercial production of lettuce, which the owner sold at a farm stand along with Mexican pottery. In 1990 the crop changed to ornamentals for cutting, in keeping with the garden's name, which translates to field of flowers. The rectangular garden was designed in four sections with crossed axes; where the grassed paths crossed there was an obelisk. A rustic pergola stood at an entrance. A warehouse and retail store building was added to the property in 1996, to sell proprietary terra cotta pottery with moss accretions and garden ornaments. The latest garden wraps around this building, landscaped with trees, shrubs, perennials, bulbs and container plantings.

Landscape architect: Steele, Fletcher, 1885-1971

architect:

Former owner: Stoddard, Robert, 1906-1984

Stoddard, Helen, 1904-1998

Horticulturist: Wheat, Isabel

Gardener: Mattus, Matt

Documentation: Karski, Robert, 2016

Provenance: Worcester Garden Club

Notes: The folder includes worksheets, photocopies of articles, and other information.

Beginning work in 1949 the gardens on this five acre property were a collaboration between landscape architect Fletcher Steele (1885-1971) and owner Helen Stoddard, and most of Steele's design and plantings were maintained for the next 50 years. The site slopes down behind the house and has outcroppings of rock. Steele envisioned a descending cornucopia shape inspired by the illusion of the downward spiral he had observed in Titian's painting "Bacchus and Ariadne", and had the shape he wanted carved into the earth by bulldozers. Descending levels of lawn, flower beds, and a pond were bordered by a ribbon of bluestone planted with tufts of blue fescue. Dry stone walls planted with maiden hair ferns were built from a porous fossilized rock dug out of a dried-up lake bed in Castalia, Ohio. Two sets of steps, one from the bluestone terrace behind the house and another below a bank of roses were covered with moss. White birches were planted to draw the eye to perennial borders, and spires of arborvitae were another focal point. The Art Deco style of the garden brought together the exotic and native by blending into surrounding woodlands that had plantings of juniper, mountain laurel, azaleas, dogwood, hemlock, birch, and elm.

The current owners resolved to preserve Steele's innovative design and vision as much as possible while changing some deteriorating hardscape and plants. The dry Castalia stone wall and moss-covered

steps were no longer safe and had to be replaced when the house was renovated. Bluestone was used to rebuild the terrace behind the house and for steps set on fieldstone risers, and a new low wall was built from cinder blocks with stone facing. A walkway of fieldstone set in the lawn recalled an original path. The blue fescue grass was dying off, possibly due to soggy feet, and is being replaced by Japanese hakone grass which is mostly yellow. The arborvitae had grown too tall and were out of scale, many were knocked over by a storm, and some are being replanted. However many of the perennials in the borders and beds, the white birches and the rose and azalea banks are still growing.

Persons associated with the garden include: Robert and Helen Stoddard (former owners, 1941-1999); Fletcher Steele (1885-1971) (landscape architect, 1946-1949); Matt Mattus (gardener, 1975-1980); Isabel Wheat (horticulturist, 1999- ); Robert Karski (documentation, 2016).

The Worcester Garden Club facilitated the submission of this garden's documentation.

Steele-Stoddard-McDonough Garden related holdings consist of 7 folders (119 35mm slides; 4 transparencies; 9 digital images)

MI110: [Grand Rapids -- Milt & Barbara Rohwer Garden](#)

Former owner: Rohwer, Milt

Rohwer, Barbara

Garden designer: Rosselet, Stephen

Notes: The folder includes worksheets and a photocopy of an article.

The grounds of this quarter acre downtown property were too water-logged for conventional planting so working with garden designer Stephen Rosselet the owners created a pond and bog garden connected by a channel. A screened porch overlooked the garden and an elevated boardwalk laid out in a zig-zag provided access. After it was dug the pond was lined with a 500-pound sheet of rubber and edged with field rocks, while the bog was lined with perforated plastic for drainage. Shrubs, grasses and ferns that thrive in wet soil were planted in large swathes; moss at the edge of the bog was maintained by spraying buttermilk. The water garden provided habitat for birds, butterflies, and a pair of mallards that adopted this property.

Persons associated with the garden include Milt and Barbara Rohwer (former owners); Stephen Rosselet (garden designer).

Milt & Barbara Rohwer Garden related holdings consist of 1 folder (20 transparencies)

Image(s): [Murrain-Waddick Garden circa 1994](#)

Image(s)

Notes: The folder includes worksheets, photocopies of articles and lecture notes.

From 1980 to 1995 this was the one-acre garden of a plant collector, with species iris, aroids, peonies, bamboos, lycoris and other Chinese flora. The owner collected rhizomes and seeds on many trips to China which were grown in his home garden, traded or offered for sale. Cultivars with variegated foliage were featured, including variegated ginkgo, goldenrod, lilac, cannas and poison ivy. Climactic conditions in that location included temperatures that could range from above

100 degrees Fahrenheit to below zero degrees in winter, with alkaline fine clay soil. The garden was disassembled when the property was cleared for commercial construction and the plants were sent to public and private garden.

Garden designer: Hartlage, Richard

Notes: The Hardie Garden file includes correspondence, photocopies of articles, and 69 transparencies.

The Hardie Garden features dense plantings of vividly colored tropicals and outsize grasses, most planted in containers to extend their outdoor growing season. The surrounding high wall was painted cobalt blue to bring the sky into the garden and to set up a contrast with the oranges, yellows and greens of the plants. The approximately 40-foot square plot slopes down seven feet from the back door to the colonnaded garage added in 1992, which led to the design and installation of this garden. Steps lead from the deck directly behind the house to another level with a dining table and chairs, with more steps leading to a hot tub concealed under a deck and garage where brick stands between the columns hold more planted containers. Sculptures on plinths and a decorative metal screen by artist Douglas Wilson are sited among the plants. The exuberant back garden, which recalls the owner's South African roots, contrasts with the more sedate front garden where white caladiums, elephant's ears and ornamental grasses are planted in neat beds, referencing English Victorian carpet bedding.

The Hardie Garden has been featured in The Garden Conservancy's Open Days.

Persons associated with the garden include: Richard Hartlage (garden designer, 1992- ).

Garden has been featured in "The Grass is Green on Both Sides" by Anne Raver, published in The New York Times, September 18, 2008 (accessed at nytimes.com, April 24, 2014); "The New Jersey Jungle" by Richard Hartlage, published in Garden Design, February/March 2005, pp. 48-53.

NJ623: [Nutley -- Mountsier Garden](#)

Notes: The Mountsier Garden has open lawn, curvilinear lines and tall clipped hedges separating garden rooms. Starting with an inherited half-acre property smothered by overgrown rhododendron, pieris, and mountain laurel, the owner gradually purchased adjacent properties and replaced those houses with smaller structures. Beginning in 1992, garden designer Richard Hartlage designed the 2.3 acre property to showcase more than 100 outdoor sculptures, some seen through openings in the high hedges. An eight-foot-tall lookout tower is camouflaged by clipped hornbeam, and a grove of Norway maples from an appended property is fronted by a 160-foot curving berm planted with four kinds of Japanese grasses. The front garden has star magnolias, Japanese snowbell trees and clipped American boxwood hedges.

Notes: Urban Oasis in Vinegar Hill holdings consist of 1 folder (31 transparencies)

In 1979 this 25- by 60-foot urban garden was a dump filled with rubbish and rubble located behind a nearly derelict formerly commercial brick building. The invasive eight-foot tall Japanese knotweed that grew here was hacked down and hauled away along with 20 cubic yards of trash; a venerable privet was maintained. The owner dug down 18 inches, brought in 40 cubic yards of topsoil and five yards of manure and started a vegetable garden. Some of the bricks and rocks he had excavated were used to build a rock garden, waterfall and pool at the shady rear of the yard. Its higher elevation allowed water to run off into irrigation channels for the vegetables. Paving stones found on the property were laid creating five tiers connected by brick or plank steps. The first garden was finished by 1982 but had to be redesigned and rebuilt in 1988. New construction next door had shaded out this garden, and a lawn, except for a small patch of grass in the sunniest spot, was not feasible. Starting behind the house there is a private outdoor shower, ascending to a garden room for dining and entertaining with a brick built-in barbeque, table

and chairs. At the next level the former vegetable garden was turned into a more formal ornamental garden with L-shaped beds planted with perennials anchored by a dwarf Japanese maple in the central bed. The irrigation pool was converted to a fish pond and small water garden that drains into an artificial rock-lined creek from which the water recirculates.

Since the site receives very little direct sun and is subject to urban air pollution the owner has found that woodland plants are the most successful. Ground covers have reduced the need for weeding and if it rains once a week the garden does not have to be watered. Ephemeral bulbs start the blooming season in March and the garden remains in bloom for eight or nine months of the year. Flowering ground covers including partridgeberry, wintergreen, bunchberry and myrtle form a tapestry in raised borders filled with topsoil enriched with manure. Wild flowers in the rock garden include trilliums, violets, bloodroot, and Solomon's seal. Shade-tolerant perennials and shrubs, notably hostas, ferns, yews and specimen hemlocks, other hardy perennials including purple coneflowers, bleeding hearts, daylilies, pinks, loosestrife, catmint and Russian sage, and self-sowing cleome and foxglove thrive in this Brooklyn garden.

This property is featured in "Big-City Haven" by Ken Druse, published in Horticulture, December 1991, pp. 22-24; "Woodland Plants Adapt to a New Life in Brooklyn" by Eric Rosenthal, published in The New York Times, June 23, 1985, p. 28.

Owner: Bales, Suzy  
Bales, Carter

Notes: In 1978 the owners purchased a six-acre property with a Tudor-style house built in 1908 that, along with the gardens, had been neglected for 40 years. A dying apple orchard, fall-blooming species crocus and a few irises survived plus ivy and honeysuckle vines. The first garden they planted was a kitchen garden, followed by colorful azaleas as a foundation planting for the house. Their landscape architect, Alice Recknagel Ireys, removed the azaleas, famously saying they looked like a motel garden. The garden rooms Ireys designed include a formal walled perennial garden with a reflecting pool and small fountain, a crescent-shaped rose garden backed by a holly hedge and edged in front with dwarf boxwood; she connected these to the kitchen garden via an S-shaped lilac and peony walk. A small orchard was designed for the front of the property fenced by espaliered apples and pears. Two ponds were constructed with water draining from the smaller into a stream then down a waterfall to the larger pond to be pumped back to the first pond via an underground pipe. The former carriage yard was paved with flagstones placed far enough apart so groundcovers could grow between them. A swimming pool and tennis court also were designed by Ireys.

The owners replaced hybrid tea roses with antique, English and shrub varieties and filled in the lilac and peony walk with more plants for continuous bloom and fragrance from April to October. They planted a woodland walk with spring bulbs and ephemerals, shade-loving perennials and shrubs for summer bloom, and included other plants for their fall color. The courtyard garden has a dogwood tree, sunflowers growing between the flagstones, and five-foot-deep garden beds with mixed perennials and bulbs. Climbing vines were planted to adorn the walls of several outbuildings. Trees that were planted in front of the house are surrounded by "petticoats" of flowering perennials or annuals that grow into island beds to replace grass. Salty sea breezes were a challenge that has been mitigated by the holly hedge, four-foot tall stucco walls, and the woodlands. The owner is an award winning garden writer, lecturer and advisor to public gardens.

Persons associated with the garden include: Suzy and Carter Bales (1978- ), Alice Recknagel Ireys (1911-2000) (landscape architect, ca. 1980- ).

Leiber, Judith

Garden designer: Leiber, Gerson August, 1921-

Notes: The garden file includes a worksheet, photocopied articles, and 51 images.

The original land, purchased circa 1970, was less than two acres with a modest house was meant to be a vacation home. The flat rectangular lot had been used as a dump and took two years to clear; the task of creating order evolved into creating a formal parterre garden with brick walkways, extensive treillage and hedges, a potager, and rose gardens. Primarily French in design the formal garden was laid out on a central axis with asymmetrical radiating paths with a Greek herm placed at one end of the axis. Three more acres were acquired; yew hedges were planted since there were no walls, in addition to the clipped boxwood hedges of the parterres. The property features a woodland modeled on English parks, swimming pool, dovecote and other sculptures placed throughout the garden rooms

Persons associated with the garden include Gerson Leiber (owner and garden designer, 1970s - ); Judith Leiber (owner, 1970s - ).

Garden Wong, Robert D.

designer:

Notes: The folder includes worksheets and a photocopy of an article.

Many gardens utilize ornamental tropical plants for bedding or in seasonal containers. Since 2000 this small property, less than one-fifth acre in a northern residential neighborhood, has masses of enormous tropical plants growing as they would in their native climates, a practice known as "zone denial". These include banana plants that can be found at specialty nurseries, big-leaf taro from the grocers that roots much like sweet potatoes and sprouts huge black leaves, angel's trumpets with poisonous vanilla-scented flowers, and more conventional begonias, cannas and dahlias. Tropical and tender perennials do not survive cold winters out-of- doors. Some of the plants that are in colorful glazed containers from Vietnam are cut back and wintered over in a cold basement or greenhouse, rhizomes and tubers are dug up after the first frost and stored wrapped in damp paper, and banana plants are replaced each year.

Persons associated with the garden include Robert Wong (garden designer, 2000- ).

Robert Wong Gardens related holdings consist of 1 folder (74 transparencies)

This property is featured in "Garden Notebook; Yes, We Have No Bananas, Yet" by Ken Druse, published in The New York Times, April 1, 2004.

Notes: 1 folder and 135 2 X 2.5" color transparencies.

Four season gardening and propagating hard-to-find plants are the work of the owner of this 61-acre property with a 19th century house and outbuildings. The fall season from September into December brings more intense coloration to annuals and perennials while the gardener collects seeds, takes cuttings, divides and transplants perennials. In winter invasive trees and vines are pulled out of the woodlands and dead limbs are removed from the trees. The seeds that were collected are planted in little pots and kept in a cool, dark space for about six weeks then moved into a greenhouse for a year. In addition to the seedlings that are planted out in spring some are carried to new locations by the wind, mice or birds. There are 20 hillside wooded acres terraced in the 1930s that are the canvas for snowdrops, cyclamen, hellebores, primroses, crocus and other rare

cultivars. Small groves of sabal palm, magnolia and sweetshrub were added to the mature trees. Sunny beds of flowers are grown on the site of the 19th century kitchen garden. Montrose has been listed on the National Register of Historic Places since 2001, is a preservation partner with the Garden Conservancy, and participated in an Historic North Carolina Garden tour.

Persons associated with the garden include: Kirkland (former owner, 1799- ); William A. and Susan Washington Graham and family members (former owners, 1842-1977); Thomas Paxton (landscape gardener, 1842).

designer:

Woodwork Cayle, Jeffrey

designer:

Builder: Cayle, Jeffrey

Notes:

Tohickon Hill related holdings consist of 1 folder (26 transparencies). The folder includes worksheets and a photocopy of an article.

The natural setting of this 16 acre property that overlooks the Delaware River was featured more than a lavish garden by the 60 by 14 yard gunite swimming pool. A three-story cedar clad tower was the first construction on the vacation property and was eventually connected by a passageway to the rest of the house. Gates, fences and columns were custom-designed to complement the location. Large stone steps excavated from the pool's site were used in the multiple walkways from the house to the pool and garden which were at a higher elevation.

Persons associated with the garden include A. Billie Cohen (garden designer, 1987-1989); Jeffrey Cayle (woodwork designer and builder).

Varying form: Bentley-LaRosa Garden, also known as.

### Notes:

The folder includes worksheets and a newspaper clipping.

Located on approximately one-acre, this garden was established in the 1970s. Beginning with a rhododendron collection, it evolved into a garden with a series of outdoor rooms with each slowly unfolding with attention to unique colors combinations and compositions. Situated on a hilltop on the maritime peninsula of Little Compton, with good air circulation, this garden is enclosed with native hedgerows. High hedges and stone walls create a microclimate allowing many zone 7 plants to grow successfully. Other garden features include alle#es, walkways, paths, and hedging which help guides visitors through the spaces.

Persons associated with the garden include: John A. Gwynne (landscape architect, 1970s).

Sakonnet Garden related holdings consist of 1 folder (91 transparencies)

Notes: 8 transparencies and 2 file folders.

The garden features a folly at one end with a small conservatory, replacing the terra-cotta building with wisteria.

More images of the Nelson-Michael Garden featured under subjects Topiary and Bird House.

Richard A. Nelson started as an interior decorator in 1956 in New York City, working with Mrs. Henry Parish II on projects in the Red Room and Oval Room in the White House during President John F. Kennedy's term. Nelson also consulted during the re-design of the Banquet Hall in Mount Vernon, Virginia. In 1977, he moved to Newport, Rhode Island and opened his own business. He consulted with Newport Preservation Society for the remodeling of the Bellevue Avenue Mansions.

Nelson was published in "House and Garden," "Interiors," "House Beautiful," and the "New York Sunday" Magazine. One of his 1996 design projects was selected for the front cover and featured article in "Architectural Digest."

Landscape architect: Domigan, Stephen K.

Architect: Steinbomer, Robert  
Osborn, Donna

Notes: The folder includes worksheets and a photocopy of an article.

Native plants and trees predominate in the gardens that surround the award-winning modern house on a two-thirds acre lot. The house was designed to evoke a settler's house that had been expanded over time with stone walls mortared with slurry, a metal roof and exterior chimney. The gardens feature curving beds, native limestone walls and patio with a lap pool outlined with the same stone. At first the lawns were planted with Prairie Buffalo grass developed at Texas A&M University. When this variety did not succeed it was replaced with El Toro grass. The Osborn Garden was included in one of the Ladybird Johnson Wildflower Garden Center's annual tours.

Persons associated with the garden include Stephen K. Domigan (landscape architect, 1992); Robert Steinbomer and Donna Osborn (architects, 1992).

Osborn Garden related holdings consist of 1 folder (14 35 mm slides; 22 transparencies)

Designer:	David, James deGrey Peese, Gary
Architect:	Coote, James Robert Lamb, Paul Lawrence, Mell
Notes:	<p>The folder includes worksheets, a planting list, lecture notes, and articles featuring the property of James David.</p> <p>This two-acre garden in West Lake Hills, a suburb of Austin, Texas is based on classical and Texas garden traditions and designed by a professional landscape architect and horticulturist. The garden has evolved and expanded since its inception in 1978. The garden mixes formal and informal, modern and traditional elements through a series of garden rooms. Strong directional paths and architectural elements unify an otherwise eclectic style.</p> <p>Features include a swimming pool, greenhouse, dovecote, gravel terrace, pond with limestone terrace bisected by a runnel leading to it, dining terrace, lawn, French-inspired garden and a vegetable garden. Plantings include agaves, bambusa, clematis, ilex, and pollarded sycamores.</p> <p>Persons associated with the garden include: Robert James Coote (architect, 1979); Paul Lamb (architect, 1988); Mell Lawrence (architect, 2003 and 2007); James deGrey David (owner, landscape architect, 1978- ); Gary R. Peese (owner, 1978 - ).</p> <p>Terrell Hills Garden Club facilitated the 2013 submission of this garden's documentation. The photographs from the 1990s were donated by Ken Druse.</p> <p>David-Peese Garden related holdings consist of 2 folders (48 slides; 325 transparencies; 36 digital images)</p> <p>Garden Club of America Collection, ca. 1920-[ongoing].</p> <p>Garden has been featured in magazines Texas Architect (May/June 1983) pp. 48-49; Domain, Lifestyle Magazine of Texas (June 1989) Featured on cover and pp. 30-31; Metropolitan Home in May 1992 and September/October 2002; Home Design, The New York Times Magazine (October 1993); Woman's Day Kitchen &amp; Baths, vol. Landscape Welch, Terry

designer:

Notes:

The folder includes worksheets and photocopies of a bibliography and articles.

The 24-acre property in the Snoqualmie watershed had been logged once or twice before it was purchased in the 1970's and turned into a private home and teaching nature sanctuary. The swampy lake was full of fir stumps and abandoned cedar trees that took three months to haul out, leaving a small lake that spilled into wetlands. An old logging road was turned into an asymmetrical gravel driveway that wound past a stand of mature hemlocks, woodlands, ponds, and curving stone walls. About four acres were developed for the house and close-in gardens that included more than 100 bonsai, koi pond and azaleas in an enclosure, a Japanese-style dry landscape garden with walls on two sides, a park with both native and exotic tree species inspired by the 18th century English gardens designed by Capability Brown, and mixed woodlands with native trees as well as the stumps from the old growth forest. The design transformed a rugged site into a setting that combined nature and artifice, English and Japanese features. The National Wildlife Federation awarded the Welch Sanctuary its certificate of Exceptional Merit on July 17, 1995.

Persons associated with the garden include Terry Welch (former owner and landscape designer, 1976-2009).

Welch Sanctuary related holdings consist of 1 folder (90 35 mm slides)

This property is featured in numerous books, journals and magazines including "The Passion for Gardening: Inspiration for a Lifetime" by Ken Druse, Clarkson Potter Publishers, 2003, pp. 58-61; "In Search of Paradise: Great Gardens of the World" by Penelope Hobhouse, published in 2006 Chicago Botanic Gardens, p. 137; "A Pattern Garden: the Essential Elements of Garden Making" by Valerie Easton, Timber Press, 2007.

Bacopa

DRU016010: [Begonia](#)

12 Photographs

Notes: Series includes images of Begonias with pink, orange, red, and white flowers and variegated foliage growing in indoors and outside in containers and flower beds, as well as detail images of the stems.

Topic: Begonias  
Flower gardening  
Container gardening  
Plants, Potted  
Patio gardening

DRU016011: [Brassica](#)

2 Photographs

Notes: Series includes images of Brassicas, such as ornamental kale and ornamental cabbages, in white and purple, grown in a container and garden bed with mums and grasses.

Topic: Brassica  
Cabbage  
Ornamental cabbages  
Container gardening  
Ornamental kale  
Kale  
Beds (Gardens)  
Bedding plants

DRU016012: [Browallia](#)

1 Photograph

Notes: An image of the Browallia plant's foliage and star-shaped, purple blooms that earned it nicknames such as the sapphire or amethyst flower.

Topic: Browallia

DRU016013: [Brugmansia](#)

9 Photographs

Notes: Series includes images of Brugmansia, commonly called Angel's Trumpets, with detailed images of white, yellow, peach, and orange blossoms, as well as growing in flower gardens and in a flower bed with stonewall and arch with Impatiens as well as other flowers and ornamental shrubs.

Topic: Brugmansia  
Flowers  
Flower gardening  
Impatiens  
Flower beds  
Stone walls  
Wall gardens  
Archways  
Ornamental shrubs

DRU016014: [Caladium](#)

11 Photographs

Notes: Series includes images of Caladiums – commonly called Elephant Ears, Heart of Jesus, or Angel Wings – with red, green, white, and pink foliage, growing in the shaded beds and with Hypoestes phyllostachya (Polka Dot Plant) and shade tolerant plants.

Topic: Caladium  
Shade-tolerant plants  
Gardening in the shade  
Foliage plants

DRU016015: [Calendula](#)

1 Photograph

Notes: An image of Calendula, often known as marigolds, in a mixed flower bed.

Topic: Calendula (Genus)  
Calendula officinalis  
Marigolds  
Flower beds  
Flower gardening

DRU016016: [Callistephus](#)

1 Photograph

Notes: An image of Callistephus, commonly called China Aster, in pink and lavender.

Topic: Callistephus  
China aster  
Flower gardening

DRU016017: [Cassia](#)

1 Photograph

Notes: An image of Cassia growing with helianthus and other floral and foliate plants in a rock garden in front of a home.

Topic: Cassia (Genus)  
Cottage gardens  
Rock gardens  
Flowers  
Sunflowers

DRU016018: [Catharanthus](#)

1 Photograph

Notes: An image of white Catharanthus, commonly called periwinkle, a name shared with the related genus Vinca.

Topic: Catharanthus  
Periwinkle (flower)  
Flower gardening

DRU016019: [Celosia](#)

4 Photographs

Notes: Series includes images of pink and white and red Celosia, commonly called Cock's comb, in flower beds and in mixed beds around a parking lot with Canna indica (African Arrowroot), Petunias, Soleirolia, and potted plants with American flags.

Topic: Celosia  
Flower beds  
Petunias  
Cannas  
Canna  
Bedding plants  
Cockscomb (flower)  
Flower gardening

DRU016020: [Cerinthe](#)

2 Photographs

Notes: Series includes images of Cerinthe, commonly called Honeyworts, with purple flowers growing with various flowers and grasses including Irises, Carex, and geraniums, and bordering a brick path.

Topic: Cerinthe  
Flowers  
Flower gardening  
Edging plants  
Garden walks  
Bricks  
Carex  
Geraniums

DRU016021: [Cleome](#)

17 Photographs

DRU016022: [Coleus](#)

26 Photographs

Topic: Coleus  
Annuals (Plants)  
Foliage plants  
Container gardening  
Plants, Potted  
Patio gardening  
Variegated plants  
Lantana  
Stairs  
Hibiscus  
Impatiens  
Ipomoea

DRU016023: [Collinsia](#)

## 1 Photograph

Notes: An image of Collinsia, commonly called blue-eyed Marys and Chinese houses, in a woodland setting with leaf litter.

Topic: Collinsia

DRU016024: [Colocasia](#)

## 3 Photographs

Notes: Series includes images Colocasia, commonly known as Taro, with ornamental grasses and details of foliage.

Topic: Colocasia  
Taro plants  
Taro  
Foliage plants  
Ornamental grasses

DRU016025: [Consolida](#)

## 3 Photographs

Notes: Series includes images of Consolida, commonly called Larkspur with purple and white flowers.

Topic: Flower gardening  
Consolida

DRU016026: [Coreopsis](#)

## 1 Photograph

Notes: An image of Coreopsis, commonly called Tickseed, in red in front of yellow Coreopsis with red centers in a flower garden.

Topic: Coreopsis  
Flowers  
Flower gardening

DRU016027: [Cosmos](#)

## 13 Photographs

Topic: Cosmos (Plants)  
Flowers  
Flower gardening  
Silene  
Coreopsis  
Cottage gardens  
Yarrow  
Garden walks  
Garden borders  
Picket fences

DRU016028: [Datura](#)

## 3 Photographs

Notes: Series includes images of Datura – commonly called thornapples, jimsonweeds, and devil's trumpets – in a cottage flower garden with Chinese amaranths and other flowers, and an image of an open thorn apple displaying the seeds inside.

Topic: Datura

Amaranths  
Flower gardening  
Cottage gardens  
Poisonous plants  
Seedheads

DRU016029: [Diascia](#)

1 Photograph

Notes: An image of Diascia, commonly called Twinspur, with delicate pink flowers.

Topic: Flowers  
Diascia

DRU016030: [Dipsacus](#)

1 Photograph

Notes: An image of Dipsacus, commonly called teasels, detailing the flowerhead.

Topic: Dipsacaceae  
Weeds  
Biennials (Plants)

DRU016031: [Dracaena](#)

1 Photograph

Notes: An image of Dracaena in the center of arrangements with geraniums, petunias, and vines planted in cast-iron urns surrounded by small flower beds with concrete garden borders within a garden with large shade trees, a lawn, and paved garden path.

Topic: Dracaena  
Succulent plants  
Urns  
Container gardening  
Geraniums  
Petunias  
Flower beds  
Vines  
Flower beds  
Flower gardening

DRU016032: [Eschscholzia](#)

8 Photographs

Topic: Eschscholzia  
Poppies  
California poppy  
Rock gardens  
Meadows  
Prairie gardening  
Garden borders  
Flower beds  
Ornamental shrubs

## Irises (Plants)

DRU016033: [Evolvulus](#)

2 Photographs

Notes: Series includes images of Evolvulus, commonly called Dwarf Morning Glories detailing the flowers and growing in a terracotta container.

Topic: Container gardening  
Plants, Potted  
Flowers  
Morning glories  
Terra-cotta  
Garden ornaments and furniture  
Evolvulus

DRU016034: [Farfugium japonicum](#)

9 Photographs

Notes: Series includes images of *Farfugium japonicum*, commonly called Leopard Plant due to its spotted foliage, with detail of its variegated foliage and shown growing in flower beds and garden borders with Lilies, Pelargoniums, Hosta, and Ferns, as well as with a statue of a woman in classical dress. *Farfugium japonicum* was formerly known as and is synonymous with *Ligularia tussilaginea* and *Ligularia kaempferi*.

Topic: Farfugium japonicum  
Foliage plants  
Flower beds  
Garden borders  
Garden ornaments and furniture  
Figure sculpture  
Lilies  
Ferns  
Hosta  
Pelargoniums  
Ligularia

DRU016035: [Gaillardia](#)

4 Photographs

Notes: Series includes images of Gaillardia, commonly called Blanket Flower, showing the plant going to seed, growing wild in a field with barbed-wire fence, as well as *Gaillardia pulchella* with its dense red flowerheads.

Topic: Gaillardia  
Flowers  
Meadows  
Wild flowers  
Fences -- barbed wire  
Autumn gardening  
Seedheads

DRU016036: [Gomphrena](#)

6 Photographs

Notes: Series includes images of Gomphrena, commonly called Globe Amaranths, in white, red, orange, magenta, and lavender blossoms shown in detail, as well as growing flower beds and garden borders along with ornamental grasses and foliage plants, Astilbe, and Daisy flowers.

Topic: Gomphrena  
Flowers  
Flower gardening  
Flower beds  
Garden borders  
Astilbe  
Ornamental grasses

DRU016037: [Helianthus](#)

25 Photographs

Notes: Series includes images of Helianthus, commonly called Sunflowers, displaying the plant in multiple seasons with detailed images of the blossoms, petals, seeds, stems, bracts, and buds, as well as in flower arrangements, cottage, flower, and prairie gardens.

Topic: Sunflowers  
Flowers  
Flower gardening  
Seeds  
Flower arrangement  
Cottage gardens

Prairie gardening  
Fences  
Watering cans  
Seedheads  
Garden borders  
Daisies  
Snapdragons  
Garden tools  
Cut flowers

DRU016038: [Helichrysum](#)

2 Photographs

Notes: Series includes images of Helichrysum, commonly called Everlasting Flowers, detailing orange blossoms.

Topic: Helichrysum  
Everlasting flowers  
Flowers

DRU016039: [Heliotropium](#)

4 Photographs

Notes: Series includes images of Heliotropium, commonly called Heliotropes, with purple flowers growing in shade, also growing with Violets, Petunias, Pelargonium, as well as other plants.

Topic: Heliotropium  
Flowers  
Flower gardening  
Heliotropes  
Gardening in the shade  
Violets  
Petunias  
Pelargoniums

DRU016040: [Hibiscus](#)

9 Photographs

Notes: Series includes images of Hibiscus in pink, yellow, white, and red, with detail images of blossoms and foliage, as well as growing in a flower bed near a road.

Topic: Hibiscus  
Flower beds  
Flower gardening  
Roadsides

DRU016041: [Iberis](#)

1 Photograph

Notes: An image of Iberis, commonly called Candytufts, with white flowers.

Topic: Flowers  
Candytuft

DRU016042: [Impatiens](#)

23 Photographs

Notes: Series includes images of Impatiens, commonly known as Touch-me-nots, in flower beds and plant containers in moss gardens, foundation plantings, as well as by a gravel road. Additional detailed image of yellow-orange bud on delicate stem.

Topic: Impatiens  
Flowers  
Flower beds  
Foundation planting  
Flower gardening  
Moss  
Container gardening  
Porches

DRU016043: [Iresine](#)

1 Photograph

Notes: An image of Iresine detailing the foliage.

Topic: Leaves  
Iresine

DRU016044: [Justicia](#)

1 Photograph

Notes: An image of Justicia with pink petals potted next to impatiens and cannas, as well as other plants.

Topic: Justicia  
Tropical plants  
Container gardening  
Plants, Potted  
Cannas  
Impatiens  
Flowers

DRU016045: [Lablab](#)

1 Photograph

Notes: An image of Lablab with dark foliage and small purple flowers.

Topic: Flowers  
Flower gardening  
Lablab

DRU016046: [Lantana](#)

5 Photographs

Notes: Series includes images of Lantana with pink and yellow flowers as well as variegated foliage growing in flower beds and with foliage plants and berries.

Topic: Lantana  
Flowers  
Flower gardening  
Flower beds  
Leaves  
Berries  
Foliage plants

DRU016047: [Lathyrus](#)

6 Photographs

Notes: Series includes images of Lathyrus with pink flowers in detail and growing wild near a house, as well as with red flowers climbing a picket fence with Roses near a tuteur in a cottage garden.

Topic: Lathyrus  
Roses  
Picket fences  
Houses  
Cottage gardens  
Flower gardening

#### DRU023: [Berries](#)

50 Photographs

Notes: Series includes images of berries including poke berries, gooseberries, currants, raspberries, rowan, goji, hollies, elderberries, and coral or snow berries on trees and shrubs in residential, woodland, and shade gardens as well as natural landscapes.

Topic: Berries  
 Hollies  
 Junipers  
 Ribes  
 Rubus  
 Currants and Gooseberries  
 Viburnum  
 Mimosa  
 Elders (Plants)  
 Pyracantha  
 Symphoricarpos

Honeysuckles  
Solanum  
Sorbus  
Phytolacca

DRU024: Biennials  
Topic: Biennials (Plants)

DRU024001: [Alcea](#)  
26 Photographs  
Topic: Alcea  
Hollyhock  
Flowers  
Flower gardening  
Flower beds  
Leucanthemum  
Daisies  
Urns  
Terraces  
Houses  
Garden borders  
Annuals (Plants)  
Euphorbia  
Daylilies  
Lamb's ears  
Thalictrum  
Pelargoniums  
Rudbeckia

DRU024002: [Angelica](#)  
2 Photographs  
Notes: Series includes images of Angelica, commonly called Wild Celery, growing on a lawn at the base of an ornamental tree and in bed with Amaranths and Chicory.  
Topic: Angelica  
Herbs  
Lawns  
Ornamental trees  
Amaranths  
Flower beds

DRU024003: [Centaurea](#)  
4 Photographs  
Notes: Series includes images of Centaurea, commonly called Knapweeds, with lavender, blue, purple, white, and pink flowers, growing wild in a meadow with Linum, and other plants and grasses.  
Topic: Centaurea  
Knapweeds  
Herbaceous plants  
Wild flowers

Meadows  
LinumDRU024004: [Digitalis](#)

60 Photographs

Topic: Foxgloves

Daylilies

DRU024005: [Eryngium](#)

1 Photograph

Notes: An image of Eryngium, commonly called Eryngo or Sea Holly, with silver petals.

Topic: Eryngium  
Flower gardening

DRU024007: [Heracleum](#)

2 Photographs

Notes: Series includes images of Heracleum with white flowers growing beside a dirt road.

Topic: Heracleum  
Flowers  
Roadsides  
Wild flowers

DRU024006: [Hesperis](#)

9 Photographs

Notes: Series includes images of Hesperis with flowers ranging in color from white to pink to purple in a woodland and in a flower bed

with Geraniums and Hosta, as well as a detail of the pale pink flowers.

Topic: Hesperis  
Flowers  
Flower gardening  
Flower beds  
Geraniums  
Hosta  
Woodland gardens

DRU024008: [Lunaria](#)

3 Photographs

Notes: Series includes images of Lunaria, commonly called Honesty, growing with Rhododendrons, Lilacs, Magnolias, as well as other flowering plants, ornamental trees, and shrubs in flower borders around a lawn and garden path, also detailing seed pods next to a stone wall, and detailing magenta flowers.

Topic: Lunaria  
Flowers  
Flower gardening  
Rhododendrons  
Rhododendron gardens  
Lawns  
Garden borders  
Garden walks  
Seedheads  
Stone walls  
Lilacs  
Magnolias  
Ornamental trees  
Ornamental shrubs

DRU024009: [Lychnis](#)

5 Photographs

Notes: Series includes images of Lychnis with pale pink and white flowers growing next to shingle-style house, with magenta flowers, and with pink flowers next to a stone wall with delicate flowers, additional detail of the flower head of *Lychnis chalcedonica* (Maltese Cross) with orange-red flowers.

Topic: Lychnis  
Flowers

Rudbeckia

DRU030005: [Amorphophallus](#)

5 Photographs

Notes: Series includes images of Amorphophallus flower from different angles.

Topic: Amorphophallus

DRU030006: [Anemone](#)

8 Photographs

Notes: Series includes images of white Anemones in alpine gardens with rockwork and mingled with yellow and red tulips.

Topic: Anemones  
Alpine gardens  
Flower gardening  
Alpine garden plants  
Rock gardens  
Tulips

DRU030007: [Arisaema](#)

35 Photographs

Notes: Series includes images of Arisaema, commonly called Jack-in-the-Pulpits, in shaded woodlands with ferns, bleeding hearts, and forest litter, as well as detailed images of foliage, flowers, and berries.

Topic: Arisaema  
Jack-in-the-pulpit  
Flowers  
Woodland garden plants  
Woodland gardens  
Perennials  
Ferns  
Bleeding heart (flower)  
Berries  
Gardening in the shade  
Shade-tolerant plants  
Forest litter

DRU030008: [Arum](#)

6 Photographs

Notes: Series includes images of Arum, commonly called Arum Lilies, displaying foliage among forest litter and the orange seedheads of Arum italicum (Italian Arum).

Topic: Arum  
Poisonous plants  
Pods (Botany)  
Seeds  
Leaves

DRU030009: [Babiana](#)

3 Photographs

Notes: Series includes images of Babiana with purple, lavender, and fuchsia flowers.

Topic: Babiana  
Flower gardening  
Rock gardens

DRU030010: [Begonia](#)

15 Photographs

Notes: Series includes images of Begonias in a variety of colors growing in flower beds, hanging baskets, and window boxes as well as part of hedges.

Topic: Begonias  
Begonia squamulosa  
Begonia schmidtiana  
Begonias  
Flower gardening  
Flower beds  
Garden borders

DRU048: [Fruit](#)

Topic: Fruit

DRU048001: [Citrus](#)

14 Photographs

Notes: Series includes images of Citrus, including grapefruits and lemon and orange trees with fruits growing in a terraced orchard, as well as the flowers of the lemon tree.

See also DRU048005 - Poncirus.

Topic: Citrus  
Orchards  
Lemon  
Fruit trees  
Oranges  
Grapefruit  
Terraces (land forms)

DRU048002: [Diospyros](#)

3 Photographs

Notes: Series includes images of Diospyros, commonly known as persimmon, with fruits on the branches.

Topic: Diospyros  
Persimmon  
Fruit trees

DRU048003: [Fragaria](#)

4 Photographs

Notes: Series includes images of Fragaria, commonly called Strawberries, displaying flowers and the fruits of the plant.

Topic: Strawberries  
Flowers  
Berries

DRU048004: [Malus](#)

10 Photographs

Notes: Series includes images of Malus, commonly called apple, displaying an apple tree with fruits in winter snow, on a rooftop garden planted with marigolds, with small yellow fruits, and a detail of the leaves with red spots.

Topic: Apples  
Apple trees  
Trees in winter  
Roof gardens  
Roof gardening  
Marigolds

Leaves

DRU048005: [Poncirus](#)

6 Photographs

Notes: Series includes images of *Poncirus trifoliata* [*citrus trifoliata*], commonly called Trifolate orange, with fruits on the trees.

Topic: Citrus  
Oranges  
Fruit trees  
Poncirus

DRU048006: [Punica](#)

8 Photographs

Notes: Series includes images of Punica, commonly known as Pomegranate, with flowers and fruits, as well as shown growing in a barrel and in a still life arrangement with lettuce, cucumber, citrus fruits, and herbs.

Topic: Punica  
Pomegranate  
Container gardening  
Flowering shrubs  
Barrels  
Still life  
Container plants  
Plants, Potted

DRU048007: [Ribes](#)

3 Photographs

Notes: Series includes images of Ribes, commonly known as currants and gooseberries, in a glass and wrought-iron trumpet vase.

Topic: Ribes  
Vases  
Berries  
Wrought-iron  
Currants and Gooseberries

DRU048008: [Rubus](#)

8 Photographs

Notes: Series includes images of Rubus, commonly known as Brambles, with berries, including raspberries, growing on the plant and being harvested in pail.

Topic: Rubus  
Berries  
Harvesting  
Rockwork  
Red raspberry

DRU048009: [Vitis](#)

1 Photograph

Notes: An image of Vitis, commonly called Grapes, growing in a vineyard with rows of vines.

Topic: Viticulture  
Grapes

## Vineyards

DRU048010: [Miscellaneous/Unidentified Plants](#)

6 Photographs

Notes: Series includes images of Miscellaneous fruit trees including loquats, gooseberries, and figs.

Topic: Ribes  
Currants and Gooseberries  
Ficus (Plants)  
Fig  
Loquat  
Fences  
Trees in cities  
Retaining walls

## DRU054: Grasses

Topic: Grasses  
 Ornamental grasses

DRU054001: [Arundo](#)

1 Photograph

Notes: An image of Arundo, commonly called Giant Cane, with wild flowers.

Topic: Giant reed  
 Seedheads  
 Wild flowers

DRU054002: [Briza](#)

1 Photograph

Notes: An image of Briza, commonly called quaking-grasses, with details of the spikelets.

Topic: Briza  
 Seedheads

DRU054003: [Calamagrostis](#)

5 Photographs

Notes: Series includes images of Calamagrostis, commonly called Reedgrass, in autumn in garden borders, and detailed images of the growth habits and inflorescence.

Topic: Calamagrostis  
 Autumn gardening  
 Flower beds

DRU054004: [Carex](#)

1 Photograph

Notes: An image of Carex (Sedges) growing in a low mound.

Topic: Carex

DRU054005: [Chasmanthium](#)

6 Photographs

Notes: Series includes images of Chasmanthium, commonly called Woodoats, in a bed with Echinacea (Coneflowers) and details of the spikelets.

Topic: Seedheads  
ChasmanthiumDRU054006: [Cortaderia](#)

2 Photographs

Notes: Series includes images of Cortaderia, commonly called Pampas Grass, with other ornamental grasses, trees and red and yellow Cannas.

Topic: Pampas grasses  
Typha  
Penstemons  
Flower beds  
CannasDRU054007: [Elymus](#)

2 Photographs

Notes: Series includes images of Elymus, commonly called Wild Rye, in detail and growing in a garden border with a fence and arbor, and accompanied by purple and yellow flowers, such as Hydrangeas, Verbenas, Daisies and Campsis.

Topic: Elymus  
Hydrangeas  
Arbors  
Campsis

Verbena  
DaisiesDRU054008: [Erianthus \[Saccharum\]](#)

2 Photographs

Notes: Series includes images of Erianthus [Saccharum] in a flower bed with ornamental grasses, cannas, and flowers with lawns on either side.

Topic: Saccharum  
Turfgrasses  
Flower beds

## Formal gardens

DRU054009: [Hakonechloa](#)

4 Photographs

Notes: Series includes images of *Hakonechloa macra*, commonly called Japanese Forest Grass or Hakone Grass, in red and green cultivars and growing in a rock garden with *Astrantia* and Buttercups.

Topic: Rock gardens  
Flower gardening  
Forest litter  
Rockwork  
Mulching  
Hakonechloa

DRU054010: [Helictotrichon](#)

10 Photographs

Notes: Series includes images of *Helictotrichon*, commonly called Alpine oatgrass, with details of the blades of grass and growing habits, and growing with *Eryngium*, and other ornamental shrubs, grasses, and flowers.

Topic: Helictotrichon  
Ornamental shrubs  
Ground cover plants  
Eryngium

DRU054011: [Lagurus](#)

1 Photograph

Notes: An image of *Lagurus*, commonly called Hare's tail grass, with seeds escaping from the seedheads.

Topic: Lagurus  
Seedheads  
Seeds

DRU054012: [Miscanthus](#)

29 Photographs

Topic: Miscanthus  
Grasses  
Ornamental grasses  
Garden walks

DRU054013: [Molinia](#)

1 Photograph

[Image\(s\): Molinia](#)

Notes: An image of Molinia, commonly called Moor Grass, growing in a bed with red and green foliage, flowers, and trees, bordering a lawn.

Topic: Molinia  
Lawns  
Ornamental grasses  
Flower beds  
Foliage plants  
Ornamental trees

DRU054014: [Muhlenbergia](#)

2 Photographs

Notes: Series includes images of Muhlenbergia with purple flowers.

Topic: Desert gardens  
Muhlenbergia

DRU054015: [Oryza \(Rice\)](#)

1 Photograph

Notes: An image of potted Oryza, commonly known as Rice, on a patio in front of palms and ornamental grasses.

Topic: Rice  
Container gardening  
Aquatic plants  
Palms  
Patio gardening  
Wetland plants

DRU054016: [Panicum](#)

1 Photograph

Notes: An image of Panicum, commonly known as panicgrass.

Topic: Panicum

DRU054017: [Pennisetum](#)

21 Photographs

Topic: Pennisetum  
Grasses  
Ornamental grasses  
Rudbeckia  
Daisies  
Echinacea (Plants)

Salvia  
Cleome  
Gomphrena  
Malope  
Flower beds  
Garden borders

## DRU056: Ground Covers

Topic: Ground cover plants

DRU056001: [Aegopodium](#)

2 Photographs

Notes: Series includes images of Aegopodium, commonly called Goutweed, growing at the base of a tree and with other ground cover plants in the shade.

Topic: Aegopodium  
 Shade-tolerant plants  
 Gardening in the shade  
 Flowers  
 Leaves  
 Perennials  
 Herbs

DRU056002: [Ajuga](#)

16 Photographs

Topic: Ajuga  
 Ground cover plants  
 Cerastium  
 Variegated plants  
 Lysimachia  
 Moss gardens  
 Mosses  
 Candytuft  
 Lily ponds  
 Water gardens

DRU056003: [Asarum](#)

23 Photographs

Topic: Asarum  
Ground cover plants  
Ferns  
Woodland garden plants  
Woodland gardens  
Astilbe  
Plant propagation  
Container gardening  
Flowers  
Naturalized plantings

DRU056004: [Chrysanthemum](#)

2 Photographs

Notes: Series includes images of Chrysanthemum, commonly called mums and chrysanthus, growing down broad, stone steps.

Topic: Chrysanthemums  
Flowers  
Steps  
Stairs, stone  
Leaves

DRU056005: [Convallaria](#)

4 Photographs

Notes: Series includes images of Convallaria, commonly called Lily-of-the-valley, with small, white, bell-shaped blossoms growing as ground cover, in a flower bed with Violets and Alliums, and on a hillside with ferns, stones, and a flowering Dogwood tree.

Topic: Convallaria  
Lilies-of-the-valley  
Dogwoods  
Woodland garden plants  
Woodland gardens

DRU056006: [Cornus Canadensis](#)

1 Photograph

Notes: An image of *Cornus Canadensis* with a white flower, growing in the shade with mosses and ferns.

Topic: Dogwoods  
Gardening in the shade  
Shade-tolerant plants  
Ferns  
Mosses

## Rock gardens

DRU056007: [Epimedium](#)

35 Photographs

Topic: Epimedium  
Ground cover plants  
Woodland garden plants  
Woodland gardens  
Flowers  
Anemones  
Trilliums  
Variegated plants  
Gardening in the shade

DRU056008: [Euonymus](#)

6 Photographs

Notes: Series includes images of Euonymus with variegated leaves green, white, yellow, and pink leaves and growing with Daisies and climbing a tree.

Topic: Euonymus  
Climbing plants  
Foliage plants  
Daisies

DRU056009: [Hedera](#)

6 Photographs

Notes: Series includes images of Hedera, commonly known as Ivy, in woodland and shade gardens with a rocking chair and rockwork, as well as detailed images of foliage.

Topic: Ivy  
Rockwork  
Woodland gardens  
Rocking chairs  
Gardening in the shade

DRU056010: [Helianthemum](#)

3 Photographs

Notes: Series includes images of Helianthemum - commonly called sunrose, rock rose, frost weed or rushrose – in flower beds with pink blooms.

Topic: Bedding plants  
Flower beds  
Flowers  
Helianthemum

DRU056011: [Juniperus](#)

5 Photographs

Notes: Series includes images of Juniperus, commonly called Juniper, in an alpine, rock garden in front of a Mid-Century Modern house surrounded by trees along with shade-tolerant plants.

Topic: Junipers  
Dwellings  
Rock gardens  
Alpine gardens  
Alpine garden plants  
Gardening in the shade  
Shade-tolerant plants  
Shade trees  
Windchimes  
Woodland gardens

DRU056012: [Lamium](#)

9 Photographs

Notes: Series includes images of Lamium, commonly called Dead Nettles, as ground cover around a large shade tree, in a woodland with small yellow flowers, and hanging down a wooden fence, as well as detailed images of the flowers and foliage of the plant.

Topic: Lamium  
Flowers  
Shade trees  
Gardening in the shade  
Shade-tolerant plants  
Woodland garden plants  
Woodland gardens  
Fences  
Vines  
Foliage plants

DRU056013: [Leptinella](#)

1 Photograph

Notes: An image of Leptinella in an alpine garden with thyme, rockwork, and mosses.

Topic: Leptinella  
Thymes  
Mosses  
Rock gardens  
Rockwork  
Alpine gardens  
Alpine garden plants

DRU056014: [Liriope](#)

5 Photographs

Notes: Series includes images of Liriope, commonly called Lilyturfs, with purple flowers in flower beds with Hosta and other plants, as well as bordering a gravel path.

Topic: Liriope  
Garden borders  
Flower beds  
Shade-tolerant plants  
Gardening in the shade

Hosta  
Flower gardening  
Garden walks

DRU056015: [Mazus](#)

2 Photographs

Notes: Series includes images of Mazus with purple and white flowers.

Topic: Perennials  
Flowers  
MazusDRU056016: [Mesembryanthemum](#)

3 Photographs

Notes: Series includes images of Mesembryanthemum with blooms in shades of pink, peach, and yellow.

Topic: Mesembryanthemum  
FlowersDRU056017: [Mitchella](#)

2 Photographs

Notes: Series includes images of Mitchella growing in a woodland setting.

Topic: Woodlands  
MitchellaDRU056018: [Ophiopogon](#)

2 Photographs

Notes: Series includes images of Ophiopogon, commonly called lilyturf, viewed from above.

Topic: Ophiopogon  
EvergreensDRU056019: [Oxalis](#)

3 Photographs

Notes: Series includes images of Oxalis, commonly known as wood sorrels, viewed from above and detailing the foliage.

Topic: Oxalis

DRU056020: [Pachysandra](#)

Container gardening  
Achimenes

DRU059003: [Agave](#)

2 Photographs

Notes: Series includes images of Agave growing in pots with rocky soil.

Topic: Agaves  
Container gardening  
Plants, Potted  
Succulent plants

DRU059004: [Anthurium](#)

1 Photograph

Notes: An image of Anthurium - commonly called Tailflower, Flamingo Flower, and Laceleaf – detailing the leaves.

Topic: Anthuriums  
Leaves

DRU059005: [Asplenium](#)

2 Photographs

Notes: Series includes images of Asplenium, commonly called spleenworts, on a wooden surface and including a fiddlehead fern.

Topic: Asplenium  
Ferns  
Fiddleheads

DRU059006: [Begonia](#)

5 Photographs

Notes: Series includes images of Begonia detailing stems, leaves, and flowers.

Topic: Begonias  
Plants, Potted  
Container gardening  
Container plants  
Flower gardening

DRU059007: [Bowia](#)

1 Photograph

Notes: An image of Bowia, commonly called climbing onion, growing in a container.

Topic: Bowia  
Container gardening  
Plants, Potted  
Perennials  
Succulent plants  
Bulbs (Plants)

DRU059008: [Bromeliad](#)

1 Photograph

Notes: An image of a Bromeliad (Billbergia) with spotted, red foliage in a terra cotta pot.

Topic: Bromeliaceae  
Terra-cotta  
Plants, Potted  
Container gardening  
Plant containers  
Container plants  
Flowerpots

DRU059015: [Episcia](#)

2 Photographs

Notes: Series includes images of Episcia hanging in a greenhouse and detailing leaves and red flowers

Topic: African violets  
Hanging plants  
Container gardening  
Flowers  
Greenhouses  
Episcia

DRU059016: [Ficus](#)

3 Photographs

Notes: Series includes images of Ficus, commonly called Fig or Fig tree, with fruits and details of foliage.

Topic: Ficus (Plants)  
Fig  
Fruit  
Leaves

DRU059017: [Gardenia](#)

2 Photographs

Notes: Series includes images of Gardenia with white flowers.

Topic: Gardenia  
Flowers

DRU059018: [Hoya](#)

5 Photographs

Notes: Series includes images of Hoya with details of flowers, as well as potted and trained into a loop on a table with goblets, hanging lamps, and wicker furniture.

Topic: Hoya  
Flower gardening  
Container gardening  
Container plants

Tropical plants  
House plants in interior decoration  
Topiary work  
Climbing plants

DRU059019: [Kalanchoe](#)

3 Photographs

Notes: Series includes images of Kalanchoe, commonly called Widow's Thrill, detailing the foliage.

Topic: Kalanchoe  
Tropical plants  
Succulent plants  
Leaves

DRU059020: [Lithops](#)

2 Photographs

Notes: Series includes images of Lithop, commonly called Living Stone, in various stages of its lifecycle.

Topic: Lithops  
Succulent plants  
Flowers  
Container gardening  
Plants, Potted  
Terra-cotta  
Plant containers

DRU059021: [Philodendron](#)

4 Photographs

Notes: Series includes images of Philodendron in pots on a brick floor and a detail of the flower.

Topic: Philodendrons  
Plants, Potted  
Container gardening  
Container plants  
Flower gardening  
Terra-cotta  
Flowerpots  
Patios, brick  
Bricks

DRU059022: [Saintpaulia \(African Violet\)](#)

2 Photographs

Notes: Series includes images of Saintpaulia, commonly called African Violets, with different shades and patterns of flowers.

Topic: Saintpaulia  
African violets  
Flowers  
Herbaceous plants  
Perennials

DRU059023: [Sansevieria](#)

4 Photographs

Notes: Series includes images of Sansevieria with sprouts coming from cut leaves.

Topic: Sansevieria  
Plant propagation  
Roots (Botany)

DRU059024: [Selaginella](#)

1 Photograph

Notes: An image of Selaginella, commonly called Spike Moss, displaying its fronds.

Topic: Selaginella

DRU059025: [Soleirolia](#)

1 Photograph

Notes: An image of a *Soleirolia soleirolii*, commonly called Baby's Tears, growing among Maranta foliage.

Topic: Baby's tears  
Foliage plants  
Herbaceous plants  
Perennials

DRU059026: [Spathiphyllum](#)

1 Photograph

Notes: An image of a Spathiphyllum, commonly called Peace lily, potted with Chlorophytum (Spider Plant) and surrounded by red Geraniums in a nursery.

Topic: Spathiphyllum  
Geraniums  
Chlorophytum  
Plants, Potted  
Container gardening  
Foliage plants  
Container plants  
Plant containers  
Flower gardening  
Nurseries (Horticulture)

DRU059027: [Syngonium](#)

1 Photograph

Notes: An image of Syngonium with red-purple foliage in a terra-cotta pot.

Topic: Container gardening  
Plants, Potted  
Plant containers  
Terra-cotta  
Flowerpots  
Syngonium

DRU059028: [Tolmiea](#)

2 Photographs

Notes: Series includes images of *Tolmiea* detailing the foliage and growing in a ceramic pot in a domestic setting.

Topic: Leaves  
Container gardening  
Interior landscaping  
House plants in interior decoration  
Plants, Potted  
Plant containers  
Pottery  
Plant stands  
Indoor gardening  
*Tolmiea*

DRU059029: [Tradescantia](#)

1 Photograph

Notes: An image of a *Tradescantia pallida*, commonly called Purple Heart, with *Glandularia tenera* (Moss Verbena) in a container.

Topic: Tradescantia  
Foliage plants  
Container gardening  
Container plants  
Perennials  
Herbaceous plants

DRU059030: [Zamia](#)

1 Photograph

Notes: An image of *Zamia* growing in pots indoors.

Topic: Zamia  
Container gardening  
Plants, Potted  
Indoor gardening

DRU059031: [Miscellaneous/Unidentified Plants](#)

50 Photographs

Notes: Series includes images of houseplants including succulents, cacti, ferns and orchids in containers and terrariums in rooms, in front of windows, greenhouses, and conservatories.

Topic: Amorphophallus  
Dendrobium  
Dieffenbachia  
Haemanthus  
Lachenalia  
Ligularia  
Phalaenopsis  
Pittosporum  
Orchids

DRU084121: [Phlomis](#)

6 Photographs

Notes: Series includes images of Phlomis with details of the yellow flowers, leaves, and its growing habits, as well as around a patio with seed heads, in flower beds next to cement steps up to a

door, next to greenhouse windows, and in a hillside planting along a street with a car driving on it.

Topic:

- Phlox
- Herbaceous plants
- Flowering shrubs
- Patio gardening
- Birdbaths
- Foundation planting
- Steps
- Hillside planting
- Streets
- Automobiles
- Seedheads
- Flower beds
- Greenhouses
- Flowers

DRU084122: [Phlox](#)

27 Photographs

Notes: Series includes images of Phlox with blossoms in various shades of white, pink, and purple in sun and shade in naturalized plantings in woodland and rock gardens with a stream and gravel path among wildflowers, Aquilegia, Lilium, Lamprocapnos, and ferns, as well as ornamental and native growing shrubs, grasses, and trees. An image of a lawn under large shade trees with a flower bed with stone edging before a fence draped with ivy. Additional detailed images of blooms and growing habits are included.

Topic:

- Phlox
- Lilies
- Bleeding heart (flower)
- Ferns
- Woodland garden plants
- Woodland gardens
- Flowers
- Flower gardening
- Garden walks
- Gardening in the shade
- Shade trees
- Shade-tolerant plants
- Rock gardens
- Stones
- Streams
- Naturalized plantings
- Lawns
- Garden borders
- Wild flower gardening
- Ivy
- Edging, stone

DRU084123: [Physostegia](#)

## 4 Photographs

Notes: Series includes images of *Physostegia*, often called Lionhearts or False Dragonheads, with pink flowers growing in a formal garden with hedge borders around the flower beds, as well as with yellow Daisies, and detailed images of blossoms, leaves, and growing habits.

Topic: *Physostegia*  
Flowers  
Flower gardening  
Formal gardens  
Hedges

## Leaves

DRU084167: [Vancouveria](#)

1 Photograph

Notes: An image of Vancouveria displaying green foliage.

Topic: Leaves  
Herbaceous plants  
VancouveriaDRU084168: [Veratrum](#)

3 Photographs

Notes: Series includes images of Veratrum, commonly known as false hellebores, growing among the leaf litter and woodland plants.

Topic: False hellebores  
Foliage plants  
Woodland garden plants  
Woodland gardens  
Forest litter  
Moss  
EvergreensDRU084169: [Verbena](#)

1 Photograph

Notes: An image of Verbena, commonly called Vervain, with purple flowers in front of a field of yellow flowers.

Topic: Verbena  
Flower gardening  
Herbaceous plantsDRU084170: [Vernonia](#)

4 Photographs

Notes: Series includes images of Vernonia, commonly called Ironweeds, in a grassy area with Asters, Willows, and other native plants, as well as with detailed images of the magenta flowers, including a bee visiting a blossom.

Topic: Veronica  
Grasses  
Willows  
Asters  
Wild flowers  
Bees  
FlowersDRU084171: [Veronica](#)

9 Photographs

Notes: Series includes images of Veronica, commonly called Speedwells, shown in mulched and gravel flower beds displaying details of growing habits, leaves, and both spike and single flower varieties in purple and blues. Includes *Veronica Rupestris*.

Topic: Veronica

DRU097010: [Buxus](#)

4 Photographs

Notes: Series includes images of Buxus, commonly known as Boxwood, in front of a shingled house and pruned in a spherical shape, as well as topiary in a pot.

Topic: Boxwood  
Container gardening  
Plants, Potted  
Hedges  
Topiary work

DRU097011: [Callicarpa](#)

10 Photographs

Notes: Series includes images of Callicarpa, commonly called Beautyberry, with white, purple, and magenta berries, and growing near open spaces and houses.

Topic: Berries  
Cottage gardens  
Callicarpa

DRU097012: [Calluna](#)

5 Photographs

Notes: Series includes images of *Calluna vulgaris*, sometimes called Heather or Scotch Heather, with pink, white, orange and yellow flowers growing in large clumps.

Topic: Calluna  
Heather  
Flowering shrubs

DRU097013: [Calycanthus](#)

6 Photographs

Notes: Series includes images of Calycanthus, commonly called Sweetshrub, with red and green flowers.

See also DRU097084 - Sinocalycanthus.

Topic: Flowering shrubs  
Calycanthus

DRU097014: [Camellia](#)

15 Photographs

Notes: Series includes images of Camellias, with red, pink, white, and variegated flowers, growing in a greenhouse and planted in a bed along a house's exterior wall.

Topic: Camellias  
Flowering shrubs  
Flower gardening  
Foundation planting  
Greenhouses  
Evergreens  
Perennials

DRU097015: [Caryopteris](#)

2 Photographs

Notes: Series includes images of Caryopteris with bees on purple flowers.

Topic: Flowering shrubs  
Bees  
Herbaceous plants  
Caryopteris

DRU097016: [Ceanothus](#)

8 Photographs

Notes: Series includes images of Ceanothus, frequently called California Lilac, Buckbrush, or Soap Bush, with purple flowers in detail with the leaves and growing habits, as well as growing on a grassy hillside, before a wooden fence, near a woodland with California Poppies and wild flowers, in a garden bed with evergreens and Roses, and with yellow Verbascum.

Topic: Ceanothus

## Garden borders

DRU097021: [Choisya](#)

2 Photographs

Notes: Series includes images of Choisya, commonly called Mexican Orange, including foliage and white flowers.

Topic: Flowering shrubs  
Flowers  
Evergreens  
Aromatic plants  
Leaves  
Choisya

DRU097022: [Clerodendrum](#)

7 Photographs

Notes: Series includes images of Clerodendrum, with red fruits and flowering in pale pink and white, growing near a dwelling, in a naturalized planting with other shrubs, and in a woodland garden.

Topic: Flowering shrubs  
Woodland gardens  
Naturalized plantings  
Dwellings  
Clerodendrum

DRU097023: [Clethra](#)

5 Photographs

Notes: Series includes images of Clethra with details of pink and white flowers and foliage.

Topic: Clethra  
Flowering shrubs

DRU097024: [Coreopsis](#)

2 Photographs

Notes: Series includes images of Coreopsis, yellow daisy-type flowers commonly called Tickseed, growing on a hillside with alpine and drought-tolerant plants, as well as an image of the woody stems. Includes *Coreopsis gigantea*.

Topic: Coreopsis  
Flowering shrubs  
Alpine gardens  
Drought-tolerant plants  
Perennials  
Bark  
Woody plants

DRU097025: [Cornus](#)

9 Photographs

Notes: Series includes images of Cornus, commonly called Dogwoods, growing in a bed in front of a stone wall with other shrubs including Rhododendron, and images showing details of

variegated foliage and white berries, as well as examples of the plant's fall leaves, berries, and growing habits in autumn.

Topic: Dogwoods  
Flowering shrubs  
Autumn gardening  
Fall foliage  
Flower beds  
Stone walls  
Rhododendrons  
Leaves  
Berries

DRU097026: [Corylopsis](#)

6 Photographs

Notes: Series includes images of Corylopsis with details of the yellow funnel-shaped flowers on branches and growing in an area covered with turfgrass.

Topic: Corylopsis  
Flowering shrubs  
Lawns  
Turfgrasses

DRU097027: [Corylus](#)

4 Photographs

Notes: Series includes images of Corylus, commonly called Hazel, detailing branches and catkins.

Topic: Hazel  
Corylus  
Catkin-bearing plants  
Branches (plant)

DRU097028: [Cotinus](#)

7 Photographs

Notes: Series includes images of Cotinus, commonly called Smoke Tree or Smoke Bush, with red flowers in on a grassy hill, with cream flowers along a sidewalk, with dark foliage in a woodland garden with a steppingstone path, as well as the leaves beginning to turn orange.

Topic: Cotinus  
Hillside planting

DRU097032: [Deutzia](#)

14 Photographs

Topic: Deutzia  
Shrubs  
Flowering shrubs  
Roadsides

DRU097033: [Dirca](#)

1 Photograph

Notes: An image of Dirca, commonly called Leatherwood, detailing branches, leaves, and yellow flowers.

Topic: Flowering shrubs  
Flowers  
Branches (plant)  
Leaves  
Dirca

DRU097034: [Enkianthus](#)

10 Photographs

Notes: Series includes images of Enkianthus with white and pink bell-shaped flowers.

Topic: Enkianthus  
Flowering shrubs

DRU097035: [Eugenia](#)

1 Photograph

Notes: An image of Eugenia detailing leaves and white flowers.

Topic: Eugenia  
Eugenias  
Flowering shrubs  
Endangered plants

DRU097036: [Euonymus](#)

13 Photographs

Notes: Series includes images of Euonymus in multiple varieties displaying red, green, yellow, and variegated leaves, as well as detailed images of red berries emerging from their fruits, and is shown in large shrubs as well as climbing trees.

Topic: Euonymus  
Climbing plants  
Leaves  
Fruit  
Berries  
Flower beds

Foliage plants

DRU097037: [Exochorda](#)

3 Photographs

Notes: Series includes images of Exochorda, commonly called Pearl Bush, with detailed images of white blossoms and buds on the branch and growing on the edge of a woodland.

Topic: Exochorda  
Flowering shrubs  
Ornamental shrubs  
Flowers  
Woodland gardens  
Woodland garden plants

DRU097038: [Fatshedera](#)

1 Photograph

Notes: An image of *Fatshedera lizei*, a hybrid species commonly called tree ivy or aralia ivy, in shade with ferns.

Topic: Gardening in the shade  
Ferns  
Leaves  
Ornamental shrubs  
Fatshedera

DRU097039: [Forsythia](#)

5 Photographs

Notes: Series includes images of Forsythia with yellow flowers growing in a park, next to a bridge, on either side of an embankment with massive stone retaining walls, a streetlight, and paved pedestrian road with a man in a suit riding a bicycle. Additional images display the flowering bush engulfing a stone wall with a small wooden shed, driveway, and rotted stump, as well as a different angle revealing a red barn. An image of Forsythia behind a small stone statue of a Rabbit on a sloping flower bed with Muscari, Iris, Daisies, Violets, Phlox, and other flowers and grasses growing above, below, and in between the stones of a retaining wall. Lastly, an image of Forsythia in a tangled woodland with Veratrum and a row of Limonium along a fallen log covered in Moss.

Topic: Forsythia  
Olive  
Muscari  
Irises (Plants)  
Daisies  
Violets  
Phlox  
Retaining walls  
Woodland gardens  
False hellebores

Rills  
Salvia  
Flower beds  
Amsonia

DRU097053: [Lagerstroemia](#)

6 Photographs

Notes: Series includes images of Lagerstroemia, commonly called Crepe Myrtle, displaying white and pink flowers, leaves, and branches, also in a flower bed around the foundation of a house, and on a stone patio with balustrade.

Topic: Lagerstroemia  
Crape myrtle, Common  
Flowering shrubs  
Flowering trees  
Branches (plant)  
Balustrades  
Foundation planting  
Cottage gardens  
Flower gardening

## Flower beds

DRU097054: [Lespedeza](#)

2 Photographs

Notes: Series includes images of Lespedeza, commonly called Bush Clovers, with pink and with white flowers.

Topic: Lespedeza  
Flower gardening  
Flowering shrubs

DRU097055: [Leucothoe](#)

3 Photographs

Notes: Series includes images of Leucothoe, commonly called Doghobble, with green, red, and variegated foliage and growing with ground cover and low shrubs beneath a tree.

Topic: Leucothoe  
Tree trunks  
Leaves  
Foliage plants  
Ground cover plants

DRU097056: [Ligustrum](#)

1 Photograph

Notes: An image of Ligustrum, commonly known as Privets, with small purple berries.

Topic: Privets  
Berries  
Flowering shrubs

DRU097057: [Lindera](#)

15 Photographs

Topic: Lindera (Plants)  
Shrubs  
Leaves  
Berries  
Fall foliage  
Autumn gardening  
Birdhouses

DRU097061: [Mentzelia](#)

1 Photograph

Notes: An image of Mentzelia, commonly called as Blazing Stars, with yellow flowers.

Topic: Flowering shrubs  
Flowers  
Mentzelia

DRU097062: [Microbiota](#)

1 Photograph

Notes: An image of *Microbiota decussata*, commonly called Russian Arborvitae or Siberian Cypress.

Topic: Evergreens  
Dwarf conifers  
Microbiota (Cupressaceae)

DRU097063: [Myrica](#)

1 Photograph

Notes: An image of Myrica, commonly called Bayberry, with blue berries.

Topic: Myrica

## Berries

DRU097064: [Nandina](#)

10 Photographs

Notes: Series includes images of *Nandina domestica*, commonly called Heavenly Bamboo or Sacred Bamboo, displaying the growing habits, fruits, and flowers of the plant.

Topic: Nandina  
Heavenly bamboo  
Leaves  
Berries

DRU097065: [Oleander](#)

1 Photograph

Notes: An image of Oleander, also called Nerium or Nerium Oleander, with pink flowers.

Topic: Oleander  
Flowering shrubs  
Nerium  
Ornamental shrubs

DRU097066: [Paeonia](#)

DRU097071: [Pimelea](#)

1 Photograph

Notes: An image of Pimelea, commonly known as Rice Flowers, with white blossoms among ferns.

Topic: Flowering shrubs  
Ferns  
Gardening in the shade  
Pimelea

DRU097072: [Pittosporum](#)

3 Photographs

Notes: Series includes images of *Pittosporum*, commonly called Cheesewood, with white flowers.

Topic: *Pittosporum*  
Flowering shrubs  
Evergreens

DRU097073: [Poncirus](#)

10 Photographs

Notes: Series includes images of *Poncirus trifoliata* [*citrus trifoliata*], commonly called Trifolate orange, with fruits on the shrubs, as well as small white flowers in a park-like setting and in front of a building.

Topic: *Poncirus*  
Flowering shrubs  
Fruit  
Urban gardens  
Parks  
Flowers

DRU097074: [Potentilla](#)

4 Photographs

Notes: Series includes images of *Potentilla*, commonly called Cinquefoils, with yellow and white flowers in mixed flower beds.

Topic: Cinquefoils  
Flower gardening  
Flowering shrubs  
Herbaceous plants

DRU097075: [Prunus](#)

3 Photographs

Notes: Series includes images of *Prunus*, commonly called Plum, displaying foliage, white flowers, and red fruit on a lawn.

Topic: *Prunus*  
Plum  
Leaves  
Flowering shrubs  
Fruit  
Lawns

DRU097076: [Pyracantha](#)

3 Photographs

Notes: Series includes images of *Pyracantha*, commonly called Firethorns, in a rock garden with flowers being shed at the end of their lifecycle, in full bloom with small white blooms, and with bright orange berries in an espalier on a rock wall with ornamental grasses growing above and below it.

Topic: *Pyracantha*

DRU107005: [Albizia](#)

3 Photographs

Notes: Series includes images of Albizia, commonly called Silk Plants, with pink and white, fan-shaped flowers in details, and a large tree near a house in a meadow of Lilies.

Topic: Albizia  
Flowering trees  
Lilies  
Meadows  
Flowers  
Houses  
Ornamental trees

DRU107006: [Amelanchier](#)

2 Photographs

Notes: Series includes images of Amelanchier; commonly known as shadbush, shadblow, or serviceberry; in flower.

Topic: Amelanchier  
Flowering trees  
Flowering shrubs

DRU107007: [Arbutus](#)

3 Photographs

Notes: Series includes images of Arbutus in a field of purple irises and details of leaves and berries.

Topic: Arbutus  
Irises (Plants)  
Flowering trees

DRU107008: [Arctostaphylos](#)

9 Photographs

Notes: Series includes images of Arctostaphylos, including Manzanitas and Bearberries, growing in woodlands in sun and shade accompanied by Junipers, Artemisia, Lupines, and other woodland and alpine plants and grasses; additionally, details of red and white berries.

Topic: Arctostaphylos  
Woodland garden plants  
Alpine garden plants  
Alpine gardens  
Woodland gardens  
Berries  
Junipers  
Artemisia  
Lupines  
Grasses  
Ground cover plants

DRU107009: [Asimina](#)

1 Photograph

Notes: An image of Asimina, commonly known as Pawpaw, with small fruits and leaves on its branches.

Topic: pawpaw  
Woodlands  
Fruit trees  
Branches (plant)

DRU107010: [Betula](#)

21 Photographs

Topic: Birch  
Rock gardens  
Moss gardens  
Woodland gardens  
Garden borders  
Lawns  
Flower beds  
Ornamental trees

Woodland garden plants  
Ground cover plants  
Clethra

DRU107011: [Brachychiton](#)

2 Photographs

Notes: Series includes images of Brachychiton in an urban setting and a detail of the branches.

Topic: Ornamental trees  
Trees in cities  
Bottle trees  
Brachychiton

DRU107012: [Carya](#)

1 Photograph

Notes: An image of Carya, commonly known as Hickory, from below displaying its foliage and bark.

Topic: Hickories  
Bark  
Leaves

DRU107013: [Castanea](#)

8 Photographs

Notes: Series includes images of Castanea, commonly called Chestnut, with details of leaves and catkins and in an open-space near a parking lot.

Topic: Chestnut  
Castanea  
Turfgrasses  
Boxwood  
Catkin-bearing plants  
Leaves

DRU107014: [Catalpa](#)

4 Photographs

Notes: Series includes images of Catalpa, low growing with other plants, as large flowering tree in a meadow near a house, and with detailed images of the foliage.

Topic: Catalpa  
Leaves  
Woodland garden plants  
Meadows  
Flowering trees

Houses  
Woodlands

DRU107015: [Cedrus](#)

1 Photograph

Notes: An image of Cedrus, commonly known as Cedar, detailing its blue needles.

Topic: Cedrus  
Cedar  
Evergreens

DRU107016: [Cephalotaxus](#)

2 Photographs

Notes: Series includes images of Cephalotaxus, commonly called plum yew or cowtail pine, with details of the fruits and needles on the branch.

Topic: Evergreens  
Fruit  
Cephalotaxaceae

DRU107017: [Cercis](#)

15 Photographs

Topic: Cercis  
Redbud  
Flowering trees  
Woodland gardens  
Woodland garden plants  
Chimneys  
Fireplaces  
Heuchera  
Violets  
Container gardening  
Lanterns  
Patio gardening  
Houses  
Roads  
Forests  
Leaves

DRU107018: [Chionanthus](#)

7 Photographs

Notes: Series includes images of Chionanthus, commonly called Fringetrees, with white flowers.

Topic: Fringetrees  
Flowering trees

DRU107019: [Coniferous](#)

5 Photographs

Notes: Series includes images of Coniferous, commonly called Conifers, with detailed images of foliage, and trunks and

Magnolias growing next to the driveway of a shingled-roof house with foundation plantings, ivy clinging to the eaves, and hanging baskets of flowers, as well as tree trunks in a shaded woodland with vines climbing them and providing ground cover.

Topic:

- Conifers
- Evergreens
- Woodland gardens
- Climbing plants
- Ground cover plants
- Magnolias
- Houses
- Hanging plants
- Foundation planting
- Driveways
- Branches (plant)
- Pine needles
- Tree trunks

DRU107020: [Cornus](#)

49 Photographs

Topic:

- Dogwoods
- Flowering trees
- Ornamental trees
- Woodland gardens
- Leaves
- Berries
- Houses
- Rhododendrons
- Rock gardens
- Woodland garden plants
- Moss gardens
- Hillside planting
- Branches (plant)
- Garden walks
- Gardening in the shade
- Lawns
- Daylilies
- Flowering shrubs
- Ferns
- Stone walls

DRU107021: [Crataegus](#)

5 Photographs

Notes: Series includes images of Crataegus, commonly called Hawthorns, with red berries and fall foliage.

Topic:

- Hawthorns
- Hawthorne trees
- Flowering trees
- Berries
- Fall foliage
- Autumn

## Flowering shrubs

DRU107022: [Croton](#)

2 Photographs

Notes: Series includes images of Croton branches with yellow flowers and leaves in a woodland setting.

Topic: Croton (Genus)  
Flowering trees  
Woodlands  
Branches (plant)

DRU107023: [Cryptomeria](#)

1 Photograph

Notes: An image of *Cryptomeria japonica*, commonly called Sugi, growing near a house in a bed with juniper, impatiens, and shrubs.

Topic: Cryptomeria  
Ornamental conifers  
Junipers  
Impatiens  
Ornamental shrubs  
Flower beds  
Gardening in the shade  
Flowers

DRU107024: [Cupressocyparis](#)

1 Photograph

Notes: An image of Cupressocyparis, also known as Leyland cypress in a woodland setting.

Topic: Evergreens  
Woodland gardens  
Cypress  
Cupressocyparis

DRU107025: [Cupressus](#)

1 Photograph

Notes: An image of Cupress, commonly known as cypress, towering above smaller trees and shrubs.

Topic: Cypress  
Evergreens

DRU107026: [Davidia](#)

1 Photograph

Notes: An image of *Davidia involucrata*, commonly known as dove-tree, handkerchief tree, or ghost tree, detailing its foliage and white flowers.

Topic: Flowering trees  
Ornamental trees  
Davidia

DRU107027: [Diospyros](#)

2 Photographs

Notes: Series includes images of Diospyros, commonly known as persimmon, in an urban setting with fruits on the branches.

Topic: Diospyros  
Persimmon  
Fruit trees  
Trees in cities  
Picket fences

DRU107028: [Eucalyptus](#)

9 Photographs

Notes: Series includes images of Eucalyptus trees along planted in a line on either side of a road, in a forest with ferns, and behind a stone dwelling with herringbone brickwork, potted plants, and a gate with lantern overthrow.

Topic: Eucalyptus  
Dwellings  
Gates  
Driveways  
Avenues  
Woodlands  
Container gardening  
Overthrow (gates)  
Bricks  
Ferns  
Plants, Potted

DRU107029: [Fagus](#)

6 Photographs

Notes: Series includes images of Fagus, commonly called Beech, growing in a park with autumn foliage, in a cottage-style flower garden, over a path leading to a house, in winter having lost all its leaves, detailing its leaves in the fall, and showing the previous flower garden with all the plants cut back for the season.

Topic: Beech  
Autumn gardening  
Fall foliage  
Roads  
Garden walks  
Lawns  
Flower gardening  
Cottage gardens  
Trees in winter  
Stone walls  
Flower beds  
Snow

DRU107030: [Ficus](#)

10 Photographs

Notes: Series includes images of Ficus trees, commonly known as Fig, with details of variegated foliage, fruit, trained around an address plaque, coming from the ceiling in a garden room, and a small specimen being transported by car in potted container within a cardboard box.

Topic: Ficus (Plants)  
Fig  
Foliage plants  
Leaves  
Fruit  
Indoor gardening  
Indoor gardens  
Windows  
Topiary work  
Interior landscaping  
Garden rooms  
Plants, Potted  
Ornamental trees  
Fruit trees  
Tree moving

DRU107031: [Franklinia](#)

6 Photographs

Notes: Series includes images of Franklinia, commonly called the Franklin Tree, with mulch in a lawn space as well as details of the flowers and purple foliage.

Topic: Flowering trees  
Turfgrasses  
Franklinia

DRU107032: [Ginkgo](#)

5 Photographs

Notes: Series includes images of *Ginkgo biloba*, commonly called Ginkgo and Maidenhair Tree, with details of branches and yellow, autumn foliage, as well as the large trunk on a lawn next to a house, and a low-growing clump in a rock garden.

Topic: Ginkgo  
Leaves  
Fall foliage  
Tree trunks  
Houses  
Shade trees  
Lawns  
Rock gardens  
Stones  
Trees in cities

DRU107033: [Gleditsia](#)

4 Photographs

Notes: Series includes images of Gleditsia, commonly called Honey Locust, being propagated in a terra cotta pot, details of leaves

and root structures of sapling specimens, and the foliage of a fully grown tree.

Topic: Honey locust  
Plant propagation  
Plants, Potted  
Plant specimens  
Roots (Botany)  
Container gardening

DRU107034: [Halesia](#)

7 Photographs

Notes: Series includes images of Halesia, commonly called Silverbell or Snowdrop tree, displaying orange seedpods in autumn; small white flowers on the branch; flowering in a woodland garden with ferns, flowers, and large foliage plants; and growing beside a gravel path through a flower garden with a stone bench.

Topic: Halesia  
Flowering trees  
Flower gardening  
Woodland gardens  
Seedheads  
Autumn gardening  
Ferns  
Garden walks  
Benches, stone

DRU107035: [Juniperus](#)

1 Photograph

Notes: An image of Juniperus, commonly known as juniper, detailing its blue foliage.

Topic: Junipers  
Evergreens  
Ornamental evergreens

DRU107036: [Koelreuteria](#)

1 Photograph

Notes: An image of Koelreuteria in bloom displaying its foliage and yellow flowers.

Topic: Flowering trees  
Ornamental trees  
Koelreuteria

DRU107037: [Laburnum](#)

3 Photographs

Notes: Series includes images of Laburnum, commonly called Golden Chain or Golden Rain Tree, with yellow flowers trained over a pergola over an over-grown path and leading to a fountain, growing next to a red-brick house, and beside a lake with a boat and dock.

Topic: Laburnum

Flowering trees  
Ornamental trees  
Houses -- brick  
Pergolas  
Arbors  
Fountains  
Putti -- Sculpture  
Lakes  
Boats and boating  
Docks

DRU107038: [Larix](#)

3 Photographs

Notes: Series includes images of Larix, commonly called Larches, with yellow foliage growing beside a paved street with houses and guardrails.

Topic: Larches  
Streets  
Houses  
Conifers

DRU107039: [Liquidambar](#)

2 Photographs

Notes: Series includes images of Liquidambar, commonly known as sweetgum, detailing its fall foliage.

Topic: Liquidambar  
Sweetgum  
Autumn  
Fall foliage

DRU107040: [Liriodendron](#)

2 Photographs

Notes: Series includes images of Liriodendron, commonly called tulip trees, with fall foliage on a lawn in front of a large house.

Topic: Liriodendron  
Tulip trees  
Fall foliage  
Lawns  
Autumn  
Mansions

DRU107041: [Magnolia](#)

36 Photographs

Notes: Series includes images of Magnolia trees, growing in fields, woodlands, and the city on the lawn of the Frick Museum, with examples in all seasons, and details of leaves and pink, white, and yellow flowers.

Topic: Magnolias  
Flowering trees

Flowers  
Leaves  
Trees in winter  
Trees in cities  
Ornamental trees  
Woodland gardens  
Museums  
Lawns

DRU107042: [Malus](#)

18 Photographs

Notes: Series includes images of Malus, commonly called apple, in flower, with fruits on the branches, and covered in ice and frost, growing along roads, outside formal gardens, and wild, additionally, it includes detailed images of flowers, apples, and branches, as well as depicting its growing habits.

Topic: Apples  
Trees in winter  
Apple trees  
Flowering trees  
Fruit trees  
Streets  
Fences, split rail  
Dwellings

DRU107043: [Metasequoia](#)

11 Photographs

Notes: Series includes images of Metasequoia, commonly called Dawn Redwood, growing in a city at the corner of street, in the yard of a house, in a forest, and in a woodland garden surrounded by a garden border with ferns and shade-tolerant plants.

Topic: Metasequoia  
Dawn redwood  
Trees in cities  
Woodland gardens  
Forests and forestry  
Flower beds  
Lawns  
Dicentra  
Pine needles  
Ferns

DRU107044: [Morus](#)

2 Photographs

Notes: Series includes images of Morus, commonly called Mulberry, with a view of the lower portion of the tree, as well as one of foliage on the branches.

Topic: Mulberry  
Lawns

Leaves  
Bark

DRU107045: [Oxydendrum](#)

4 Photographs

Notes: Series includes images of *Oxydendrum arboreum*, commonly called Sourwood or Sorrel Tree, on a hillside, and with detailed images of the leaves and flowers.

Topic: Oxydendrum  
Flowering trees  
Hillsides  
Ornamental trees  
Flowers  
Leaves

DRU107046: [Parrotia](#)

3 Photographs

Notes: Series includes images of branches of Parrotia, commonly called Ironwood, silhouetted against a red parasol.

Topic: Ironwood  
Branches (plant)  
Parasols  
umbrellas and parasols

DRU107047: [Paulownia](#)

4 Photographs

Notes: Series includes images of Paulownia leaves in vase arrangements on a small table with other decorative objects, including sea shells, pine cones, flowers, books, and a toad figurine.

Topic: Paulownia  
Flowering trees  
Leaves  
Flower arrangement  
Vases  
Figurines  
Shells  
Pine cones  
Tables

DRU107048: [Photinia](#)

1 Photograph

Notes: An image of Photinia with red berries growing over a stone wall with a wooden gate.

Topic: Ornamental trees  
Stone walls  
Gates  
Ivy  
Climbing plants  
Berries

## Photinia

DRU107049: [Picea](#)

6 Photographs

Notes: Series includes images of Picea, commonly called Spruce trees in woodlands, snow-covered in winter, and details of needle foliage and cones.

Topic: Spruce  
Trees in winter  
Snow  
Pine cones  
Branches (plant)  
Evergreens  
Conifers  
Pine needles  
Woodland gardens

DRU107051: [Pinus](#)

1 Photograph

Notes: An image of Pinus, commonly known as Pine, shot from below.

Topic: Pine  
Bark  
Evergreens

DRU107050: [Pistacia](#)

1 Photograph

Notes: An image of Pistacia with fall foliage.

Topic: Trees in cities  
Fall foliage

DRU107052: [Platanus](#)

5 Photographs

Notes: Series includes images of Platanus, commonly called Sycamores, with details of the foliage and thick trunks growing on the lawn of a white house, in a city surrounded by brick sidewalk and wrought-iron fence, and in a walled garden surrounded by tulips.

Topic: Sycamores  
Tulips  
Walled gardens  
Flower beds  
Lawns  
Benches  
Trees in cities  
Fences -- wrought iron

DRU115009: [Cobaea](#)

## 4 Photographs

Notes: Series includes images of Cobaea growing between stones and with red vines and purple flowers.

Topic: Cobaea  
Flower gardening  
Stones

DRU115010: [Codonopsis](#)

## 3 Photographs

Notes: Series includes images of Codonopsis detailing the flowers.

Topic: Flowers  
Medicinal plants  
Herbs  
Codonopsis

DRU115011: [Convolvulus](#)

## 4 Photographs

Notes: Series includes images of Convolvulus, commonly called Bindweed or Morning Glory, with tri-color flowers.

Topic: Bindweeds  
Flower gardening  
Morning glories

## DRU115012: Dodder [Cuscuta]

## 5 Photographs

[Image\(s\): Dodder](#)

Notes: Series includes images of Dodder [Cuscuta] displaying the parasitic plant entwining around stems and leaves in detail as well as an image of a bush on the edge of a field that is entangled in the vine.

Topic: Dodder  
Climbing plants  
Shrubs  
Parasitic plants  
Cuscutaceae

DRU115013: [Gelsemium](#)

## 2 Photographs

Notes: Series includes images of Gelsemium growing between the boards of a picket fence.

Topic: Gelsemium  
Climbing plants  
Flowers  
Medicinal plants  
Picket fences

DRU115014: [Gloriosa](#)

## 3 Photographs

Notes: Series includes images of Gloriosa, commonly called Fire Lilies, some growing on supports.

Topic: Climbing plants  
Plant supports  
Gloriosa

DRU115015: [Hedera](#)

42 Photographs

Notes: Series includes images of Hedera, commonly known as Ivy, growing in shaded areas and woodlands, trained on tuteurs, growing in pots, as ground cover with ferns and moss, and up tree trunks, as well as displays of foliage and different varieties.

Topic: Ivy  
Climbing plants  
Container gardening  
Container plants  
Leaves  
Woodland gardens  
Gardening in the shade  
Shade-tolerant plants

Topic: Anemones  
Thalictrum thalictroides  
Silene  
Flower gardening  
Gardening in the shade

DRU127003: [Asperula](#)

1 Photograph

Notes: An image of Asperula, commonly known as woodruff, with white blooms.

Topic: Woodruff  
Flowers

DRU127004: [Brunnera](#)

2 Photographs

Notes: Series includes images of Brunnera detailing its foliage and flowers, as well as in a woodland setting among leaf-litter and small stones.

Topic: Flowers  
Rocks  
Alpine gardens  
Forest litter  
Brunnera

DRU127005: [Campanula](#)

1 Photograph

Notes: An image of Campanula, commonly known as bellflowers, growing among ferns.

Topic: Campanula

Ferns  
Flowers

DRU127006: [Caulophyllum](#)

1 Photograph

Notes: An image of Caulophyllum with berry-like fruits.

Topic: Perennials  
Fruit  
Caulophyllum

DRU127007: [Conifer Candles](#)

1 Photograph

Notes: See also Coniferous under Trees.  
An image of Conifer Candles.

Topic: Conifers  
Trees  
Evergreens

DRU127008: [Diphylleia](#)

1 Photograph

Notes: An image of Diphylleia growing at the base of a tree.

Topic: Herbs  
Diphylleia

DRU127009: [Erythronium](#)

2 Photographs

Notes: Series includes images of Erythronium, commonly called Dwarf trout lily, growing in shaded woodlands through leaf litter and at the base of tree with pulmonaria flowers.

Topic: Erythronium  
Dwarf trout lily  
Pulmonaria (Angiosperms)  
Flower gardening  
Forest litter  
Shade-tolerant plants  
Bulbs (Plants)

DRU127010: [Galax](#)

1 Photograph

Notes: An image of *Galax urceolata*, commonly called Beetleweed or Wandflower, growing in a shaded woodland among the forest litter and shrubs.

Topic: Galax  
Beetleweed  
Gardening in the shade  
Shade-tolerant plants  
Flowers  
Shrubs  
Forest litter

DRU127011: [Gaultheria](#)

1 Photograph

Notes: An image of Gaultheria with red berries.

Topic: Gaultheria  
Shrubs  
Berries  
Forest litterDRU127012: [Gentiana](#)

2 Photographs

Notes: Series includes images of Gentiana, commonly called gentian, with details of the blue buds and foliage.

Topic: Gentiana  
Flowers  
PerennialsDRU127013: [Glaucidium](#)

7 Photographs

Notes: Series includes images of *Glaucidium palmatum* with white and lavender flowers growing in a woodland setting among leaf litter and with a purple flower in a flowerpot.Topic: Flower gardening  
Forest litter  
Plants, Potted  
Container gardening  
Glaucidium (Strigidae)DRU127014: [Goodyera](#)

1 Photograph

Notes: An image of Goodyera – commonly known as rattlesnake plantain, ladies' tresses, or jade orchids – growing among leaf-litter and mosses.

Topic: Goodyera  
Orchids  
Moss  
Forest litter

## DRU127015: Hepatica [Anemone]

3 Photographs

[Image\(s\): Hepatica](#)

Notes: Series includes images of Hepatica [Anemone], commonly called liverwort or liverleaf, growing among the leaf-litter.

Topic: Flowers  
Herbaceous plants  
Perennials  
Forest litter  
AnemonesDRU127016: [Houstonia](#)

1 Photograph

Notes: An image of Houstonia, commonly known as flowering bluets, growing among ferns, rocks, and mosses.

Topic: Houstonia  
Rocks  
Ferns  
Mosses

DRU127017: [Maianthemum](#)

1 Photograph

Notes: An image of Maianthemum growing among leaf-litter and mosses.

See also DRU127023 - Smilacina [Maianthemum].

Topic: Herbaceous plants  
Perennials  
Flowers  
Mosses  
Forest litter  
Maianthemum

DRU127018: [Monotropa](#)

1 Photograph

Notes: An image of Monotropa growing among leaf litter.

Topic: Monotropa  
Flowers  
Perennials  
Forest litter

DRU127019: [Myosotis](#)

8 Photographs

Notes: Series includes images of Myosotis, commonly called Forget-Me-Not, with detailed images of the small blue flowers, as well as growing with Narcissus, Rhododendron, Peonies, Tulips, Lobularia, and other flowers in flower beds, rock gardens, and woodland gardens, as well as submerged in a stone-bordered pond with lily pads.

Topic: Forget-me-nots  
Rock gardens  
Retaining walls  
Stones  
Narcissus (Plants)  
Rhododendrons  
Peonies  
Tulips  
Flowers  
Flower beds

Aquatic plants

DRU127020: [Polygala](#)

## 4 Photographs

Notes: Series includes images of Polygala, commonly called Milkworts, growing in containers and woodland settings.

Topic: Polygala  
Flower gardening  
Forest litter  
Gardening in the shade  
Shade-tolerant plants  
Plants, Potted  
Container gardening

DRU127021: [Ranunculus](#)

## 3 Photographs

Notes: Series includes images of Ranunculus, commonly called Buttercups, with yellow flowers growing in clumps in a woodland setting among the trees, forest litter, stones, and ferns.

Topic: Ranunculus  
Flowers  
Stones  
Ferns  
Forest litter

DRU127022: [Shortia](#)

## 1 Photograph

Notes: An image of Shortia with pink flowers growing among the leaf litter.

Topic: Herbs  
Perennials  
Flowers  
Forest litter  
Shortia

DRU127023: [Smilacina \[Maianthemum\]](#)

## 2 Photographs

Notes: See also DRU127017 - Maianthemum.

Series includes images of Smilacina [Maianthemum] with pale orange berries growing among pachysandra, and details of the leaves and berries. Includes *Maianthemum racemosum*.

Topic: Pachysandra  
Berries  
Herbaceous plants  
Maianthemum

DRU127024: [Stylophorum](#)

## 7 Photographs

Notes: Series includes images of Stylophorum with yellow blossoms growing in a woodland setting along a trail, stone wall and stream mingled with Mertensia, ferns, trees, stones, and forest litter, as well as detailed images of the blooms, fruits, and foliage.

Topic: Stylophorum

Herbaceous plants  
Perennials  
Flowers  
Mertensia  
Ferns  
Stone walls  
Paths  
Streams

Fruit

DRU127025: [Syneilesis](#)

1 Photograph

Notes: An image of Syneilesis growing in shaded moist area with other foliage plants.

Topic: Syneilesis  
Forest litter  
Shade-tolerant plants  
Gardening in the shade  
Foliage plants

DRU127026: [Tiarella](#)

5 Photographs

Notes: Series includes images of Tiarella, commonly called Foamflower, growing in woodlands with phlox and leaf litter.

Topic: Tiarella  
Phlox  
Forest litter  
Flower gardening  
Gardening in the shade

DRU127027: [Veratrum](#)

1 Photograph

Notes: An image of Veratrum, commonly known as false hellebores, growing among the leaf litter.

Topic: False hellebores  
Leaves  
Perennials  
Herbaceous plants  
Forest litter

DRU127028: [Miscellaneous/Unidentified Plants](#)

20 Photographs

Notes: Series includes images of miscellaneous woodland plants in naturalized plantings and landscapes with patios, decks, garden walks, and houses.

Topic: Aesculus  
Columbines  
Dogwoods  
Dicentra

Mertensia  
Phlox  
Polystichum  
Primulales  
Primroses  
Rhododendrons  
Trilliums
