Collection Overview

Repository:	Archives of American Gardens
Title:	Historic gardens Stereograph collection
Identifier:	AAG.STR
Date:	circa 1870-1910
Extent:	1.75 Cubic feet 807 Stereographs (black and white, color ;; 3 1/2 x 7 inches.)
Language:	English
Summary:	The Historic Gardens Stereograph Collection includes 807 stereographs that depict various public gardens, parks, and tourist attractions throughout the United States, with an emphasis on features related to horticulture and landscape design, including plants, garden furniture, and topiaries. Most, but not all views, show exterior features. A number of stereographs indicate the photography studio on the recto or verso, as well as a series or image number. Many include a brief caption; some include a lengthy description on the verso. Few are dated.

Administrative Information

Provenance

The stereographs in this collection were collected from various sources by former staffers of the Horticulture Services Division (now Smithsonian Gardens) who were researching Victorian-era gardens and garden furnishings.

Other Finding Aids

Processing Information

The stereographs were processed by AAG intern, Elizabeth M. DeCarlo.

Encoded by Elizabeth Bauerle, December 2011

Preferred Citation

Smithsonian Institution, Archives of American Gardens, Historic Gardens Stereograph Collection.

Restrictions on Access

Access to original images by appointment only. Researcher must submit request for appointment in writing. Please direct reference inquiries to the Archives of American Gardens: aag@si.edu.

Conditions Governing Use

Archives of American Gardens encourages the use of its archival materials for non-commercial, educational and personal use under the fair use provision of U.S. copyright law. Use or copyright restrictions may exist. It is incumbent upon the researcher to ascertain copyright status and assume responsibility for usage. All requests for duplication and use must be submitted in writing and approved by Archives of American Gardens.

Historical Note

Popular during the latter half of the 19th century, stereographs consist of two similar photographic images affixed to a cardboard mount that produce a three-dimensional image when viewed through a stereoscope.
