Access to the Richard B. Johnston papers requires an appointment.

Conditions Governing Use

Contact the repository for terms of use.

Scope and Contents

The Richard B. Johnston Papers document his involvement with the River Basin Survey in South Dakota on sites such as 39CH4, 39CH5 (Pease Creek), 39HU7 (McClure), 39HU9. Also featured are sites in Montana and Indiana. Johnston's research and writings on the use of magnetometers are also included. The collection includes notes, site files, and slides.

Please note that the contents of the collection and the language and terminology used reflect the context and culture of the time of its creation. As an historical document, its contents may be at odds with contemporary views and terminology and considered offensive today. The information within this collection does not reflect the views of the Smithsonian Institution or Anthropology Archives, but is available in its original form to facilitate research.
