Collection Overview

Repository:	National Anthropological Archives
Title:	Glynn LI. Isaac papers
Date:	1954-1997
Identifier:	NAA.2002-06
Creator:	Behrensmeyer, Anna K. (Creator) Isaac, Barbara (Creator) Leakey, Mary D. (Mary Douglas), 1913-1996 (Correspondent) Leakey, Louis S. B. (Correspondent) Keeley, Lawrence H. (Photographer) Isaac, Glynn Llywelyn, 1937-1985 Nelson, Charles M. (Creator) Merrick, Harry V. (Creator)
Extent:	100 Linear feet
Language:	English .
Summary:	The Glynn Isaac Papers document his lifelong interest in the study of human origins and evolution. A significant portion of the collection consists of files relating to Glynn Isaac's field work at Koobi Fora, Ologesailie, Lake Natron, and Naivasha/Nakuru (1961-1985). These files contain accession records, catalogs, correspondence, drawings, field notes, grant proposals, lectures, manuscripts, maps, printouts, photographs, publications, reports, and slides. Glynn Isaac's teaching experiences at University of California - Berkeley and Harvard are also well represented with class notes and other teaching materials. His studies at the University of Cape Town and the University of Cambridge are also documented. Among the extensive correspondence files are letters from the members of the Leakey family along with students and colleagues studying hominid development in Africa. The collection also features copies of his lectures and a complete set of his publications including reviews.

Administrative Information

Acquisition Information

Barbara Isaac donated the Glynn LI. Isaac Papers to the National Anthropological Archives in 2001 and 2002. A Wenner-Gren Foundation Historical Archives Program Grant enabled Barbara Isaac to rehouse the collection and to prepare an initial version of this register. In 2009, Barbara Isaac donated Glenn Isaac's 1972 field journal from his research in East Rudolf.

Biographical / Historical

Glynn Llywelyn Isaac was born on November 19, 1937 in Cape Town, South Africa. He attended school in South Africa and England. He earned a B.Sc. in Zoology in Archaeology - Ethnology in 1958 from the University of Cape Town and a B.A. (1961) M.A. (1966) and Ph.D. (1969) from the University of Cambridge. Glynn Isaac received numerous awards and scholarships including the J.S. Guggenheim Foundation Fellowship (1975-1976).

Glynn Isaac lived and worked in both East Africa and England during his studies at the University of Cambridge. He served as Warden of Prehistoric Sites for the Royal National Parks of Kenya from 1961 to 1962 and as Deputy Director of the National Museum of Kenya, Centre for Prehistory and Paleontology from 1963 to 1965.

Glynn Isaac moved to the United States in 1966 when he joined the faculty of the Department of Anthropology at the University of California - Berkeley. He was invited to be a visiting scholar in the Department of Prehistory and Archaeology at the Australian National University in the summer of 1976. Glynn Isaac was the George Grant McCurdy Visiting Professor in the Department of Anthropology at Harvard University during the Spring Semester in 1981. Glynn Isaac became a full time Professor of Anthropology at Harvard in 1983. Glynn Isaac died in 1985.

Glynn Isaac specialized in archaeological studies of early hominid adaptation. His major field work took place at Lake Natron in Tanzania, Olorgesailie, Naivasha/Nakuru, and Koobi Fora in Kenya. The Koobi Fora work was funded by a series of National Science Foundation grants. Glynn Isaac's wife, Barbara was an active collaborator in his work. She made many of the pencil drawings in the collection and served as co-editor of his posthumous publication on Koobi Fora. Isaac's contributions to the study of the paleolithic include work on the theory of typology, the studies of artefact form and function, and his pioneering work in site formation and interpretation.

Container Listing

Series 1: Koobi Fora Research Project, 1969-1995 (bulk 1969-1986)

Scope and Contents: East Rudolf (later renamed East Turkana). After Richard Leakey's discovery of fossil bearing deposits in 1969, he invited Glynn Isaac to join him as co-leader of a combined UC Berkeley and National Museums of Kenya team. The work continued until 1979. The archaeological sites excavated by Glynn and his students ranged in age from 1.9 to 1.4 my. Several students wrote doctoral theses from the resulting studies which included artefact replication, site deposition, taphonomy, and food acquisition. See *Plio-Pleistocene Archaeology, Volume V of the Koobi Fora Research Project*, Clarendon Press, 1997. This series contains correspondence, catalogs, grant proposals, logs, manuscripts, notes, lab analysis, plans, polaroids, and reports.

Series 2: Olorgesailie Research Project, 1946-1981 (bulk 1961-1972)

Scope and Contents: Olorgesailie is an acheulean site, first discovered by Mary Leakey during the war, and subsequently excavated by Louis and Mary. It was developed as an open-air Prehistoric Site with a residential warden. Glynn Isaac became warden in 1961, did extensive geological work and excavations 1961-1965, and wrote the research up as his Ph.D. thesis for Cambridge, submitted 1968. This series contains accessions, analysis, correspondence, notes, reports, and tool data.

Series 3: Naivasha and Nakuru Research Project, 1962-1981 (bulk 1962-1972)

Scope and Contents: Glynn Isaac led a UC Berkeley expedition to the Naivasha-Nakuru area in 1969-1970 to investigate Holocene (MSA and LSA) sites; two of the students, Charles Nelson and Harry Merrick utilized the research for their doctoral theses. At the same time Joe Richardson worked on the chemistry of the lakes. This series contains correspondence, grants, notes, and reports.

Series 4: Natron Research Project, 1951-1998

Scope and Contents: Peninj Delta, west shore of Lake Natron, Tanzania. In late 1963 Louis Leakey asked Glynn to join Richard Leakey on the western shores of Lake Natron Tanzania, where Richard had been prospecting for fossils supported by the National Geographic. During the field survey organised by Glynn an Australopithecine mandible was found. Two seasons in 1964 were occupied by excavating the jaw site (KJS) and two Acheulean sites. Glynn returned in 1969 with his UC Berkeley team from Nakuru for a short visit; in 1979 a week was spent prospecting for a joint expedition with a French team led by Maurice Taieb, resulting in a short and a longer field season in 1981 and 1982 respectively. This series contains analysis, correspondence, grants, maps, notes, and reports.

Series 17: 35mm Color Slides, 1957-1984

Scope and Contents: This inventory follows the numbering system created by Glynn Isaac. Extra slides that were set aside as "reserves" have been interleaved after the relevant sections or placed at the end of the volumes. The collection was curated by various graduate students and the numbering of the volumes into which the slides were placed is arbitrary (For instance the EAR P volume is out of place). This register reflects the volume numbers, but they are not seen on the folders which are arranged in volume order.

Captions are according to text existing in volumes, except where indicated by []. Missing pages indicate that slides were taken out that were not taken by Glynn (i.e. taken by others and therefore their copyright, or copied from publications for the purposes of teaching. A few teaching series have been kept for the record). Items for which copyright is unknown and/or uncertain are marked by an **.

Box 100	In late 1963 Louis Leakey asked Glynn Isaac to join Richard Leakey on the western shores of Lake Natron Tanzania, where Richard had been prospecting for fossils supported by the National Geographic. During the field survey organized by Glynn an Australopithecine mandible was found. Two seasons in 1964 were occupied by excavating the jaw site (KJS) and two Acheulean sites. Glynn returned in 1969 with his UC Berkeley team from Nakuru for a short visit; in 1979 a week was spent prospecting for a joint expedition with a French team led by Maurice Taieb, resulting in a short and a longer field season in 1981 and 1982 respectively.

Box 100	Volume XIV This volume represents Glynn Isaac's interest in modern hunter-gatherers as possibilities for illuminating early hominid behavior AUS: Australia. In 1976 Glynn was invited to ANU to give four lectures. During that time he visited Lake Mungo where Australia's oldest humans had been discovered. He also arranged to fly into Western Australia, to Docker River (Katulkajara) in the Petermann Range to spend a few days observing food acquisition. (Slides were not well labeled.)

Series 18: Black and White Negatives, 1960-1984

Scope and Contents: The negatives from Ologesailie and Olduvai had been cut and filed by an unknown criteria. Most of them were printed up and mounted on cards, with identification information. (See Card Box File 9.) At a later point in Berkeley, Glynn arranged for the Nakuru negatives to be printed. These are less well identified, which is true of the Nakuru record as a whole. Glynn's interest transferred to Koobi Fora in 1970; and the writing up of the work at Nakuru devolved onto those graduate students who utilized it for their dissertations (Merrick and Nelson, and later, Gifford-Gonzalez).

Series 22: Oversize Maps and Sections (Rolled And Flat), 1969-1970

General: f = field original (primary information); / = first interpretation of data

Oversize Small Map Folder 1	Natron
Oversize Small Map Folder 1	1 Geological map of Natron area; tracing paper 1979.14
Oversize Small Map Folder 1	2, 3, 4 Three original geological reconstructions on deteriorating paper
Oversize Small Map Folder 1	5 Sketch plan of Peninj area on tracing paper, based on air photos
Oversize Small Map Folder 1	6 Sketch plan of the Peninj Delta exposures of the Peninj Group: "Map of gullies around KJS" On tracing papers.
Oversize Small Map Folder 1	7. Sketch map of the exposures of the Peninj Group in the Maritanane area; tracing paper
Oversize Small Map Folder 2	Natron
Oversize Small Map Folder 2	1/ Site RHS - levelling of floor; tracing paper in poor condition.
Oversize Small Map Folder 2	2/ distribution of artefacts on floor; tracing paper in poor condition
Oversize Small Map Folder 2	3/ Site MHS - stratigraphic column
Oversize Small Map Folder 2	4/ draft of section; tracing paper in poor condition
Oversize Small Map Folder 2	5f Site NMG - step trench - east face
Oversize Small Map Folder 2	6f Profile along ridge to west of CFG
Oversize Small Map Folder 2	7f NMG - north face
Oversize Small Map Folder 2	8f East face of second step trench (no location)

Oversize Small Map Folder 2	9f Third step trench - south face (no location)
Oversize Small Map Folder 2	10 Kipalagu - geology
Oversize Small Map Folder 2	11 Kipalagu - north and south
Oversize Small Map Folder 2	12 Kipalagu - east
Oversize Small Map Folder 2	13 Outcrop trace of patchily fossiliferous Humbu Formation
Oversize Small Map Folder 2	14 Outcrop Strip III, eastern part of Loc.2.
Oversize Small Map Folder 2	15 Outcrop Strip III, western part of Loc 2.
Oversize Small Map Folder 2	16f Mugulud (RHS) plot of artefacts
Oversize Small Map Folder 3	Naivasha-Nakuru area
Oversize Small Map Folder 3	1/ Levelling data and contours for "Prolonged Drift" and sites GrJi 1 and GrJi 11
Oversize Small Map Folder 3	2f Site map for GrJi 1/GrJi 11, 1969-1970
Oversize Small Map Folder 3	3 Paper version of above, with additional information
Oversize Small Map Folder 3	4 Geological columns including Prospect Farm Formation
Oversize Small Map Folder 3	5 Section from Mt. Eburru to Lake Natron, including GrJi 11
Oversize Small Map Folder 3	6 Enderit Drift section s (geological columns)
Oversize Small Map Folder 3	7/ Section from Enderit River, along base of Trolley track cutting
Oversize Small Map Folder 3	8/ North-west side of Enderit Drift, Oldobeye Member

Oversize Small Map Folder 3	9/ Enderit Drift - the lower portions of the Miti Mingi Member
Oversize Small Map Folder 3	10/ Enderit River Formation; hand-colored on paper
Oversize Small Map Folder 3	11 Enderit River Formation without color, but with annotations
Oversize Small Map Folder 3	12 Enderit Drift - copy of Isaac's field sheet
Oversize Small Map Folder 3	13 Enderit Drift - copy of Buckland's field sheet
Oversize Small Map Folder 3	14 Unidentified map
Oversize Small Map Folder 3	15 Four distributions maps of bone at GrJi 1 (Prolonged Drift)
Oversize Small Map Folder 3	16 Fourteen distribution maps of fauna at GrJi 1 (Prolonged Drift)
Oversize Small Map Folder 4	Ologesailie
Oversize Small Map Folder 4	1f Colored tracing of faulting/geology around Mt. Ologesailie; acetate. [RC 3]
Oversize Small Map Folder 4	2f Tracing of topography within Main Site enclosure; tracing paper. [RC 12]
Oversize Small Map Folder 4	3f Ditto, annotated blackline
Oversize Small Map Folder 4	4f Main Site, composite stratigraphic diagram.
Oversize Small Map Folder 4	5f Section of I 1 - western bounding scarp 1961
Oversize Small Map Folder 4	6f I 2 - a fault trough by the Ol Keju Nyiro Hill on the Magadi Road 1962
Oversize Small Map Folder 4	7f I 3 site plan 1:360, 1965
Oversize Small Map Folder 4	8 I 3 site plan [F2B]

Oversize Small Map Folder 4	9 I 3 trench I and ?VII part [F 3]
Oversize Small Map Folder 4	10 I 3 sections trench VIII [F 5]
Oversize Small Map Folder 5	Ologesailie
Oversize Small Map Folder 5	"Old tracings of Mary Leakey's Ologesailie sections made by G. Ll. I. at Ologesailie"
Oversize Small Map Folder 5	1/ Section along south face of Trial Trench.
Oversize Small Map Folder 5	2 Section along north face of Trial Trench
Oversize Small Map Folder 5	3 Plan of Trial Trench
Oversize Small Map Folder 5	4/ Plan of east face of Trial Trench
Oversize Small Map Folder 5	5 Site 10 section along west face of Hog I (torn)
Oversize Small Map Folder 5	6 Site 10 sections along north face of Middle Trench (MID)
Oversize Small Map Folder 5	7 Site 10 Hog north, section along north face
Oversize Small Map Folder 5	8f Profile in Trial Trench/Mid area prior to excavations
Oversize Small Map Folder 5	Richard Wright's drawings
Oversize Small Map Folder 5	9 Per Ardua
Oversize Small Map Folder 5	10 Per Ardua south section
Oversize Small Map Folder 5	11 Per Ardua trench XI, north face
Oversize Small Map Folder 5	12, 13 Per Ardua east face

Oversize Small Map Folder 6	Ologesailie
Oversize Small Map Folder 6	1/ DE/89 plan illustrating relationships of "Occurrence A" (lens M7a) to other site features;
Oversize Small Map Folder 6	tracing
Oversize Small Map Folder 6	2/ Lower Tuff Runnel plot; tracing paper
Oversize Small Map Folder 6	3/ Three reconstructions of sections through EF/89, DE/89 with contained fauna; paper with
Oversize Small Map Folder 6	two tracings
Oversize Small Map Folder 6	4f DE/89 sections (main) [F20]
Oversize Small Map Folder 6	5f DE/89 Horizon B Extension, plot of floor [F18]
Oversize Small Map Folder 6	6f DE/89 Plot 2 Horizon B: plot of floor, section (NW) 6
Oversize Small Map Folder 6	7f DE/89 Horizon B, plot section (NE) 5 [F16]
Oversize Small Map Folder 6	8f F/89 1, sections and floor
Oversize Small Map Folder 6	9f EF/89 plot [F8]
Oversize Small Map Folder 6	10f H/6 2, sections [F32]
Oversize Small Map Folder 6	11f H/6 Trench A sections
Oversize Small Map Folder 6	12f, 13f, 14f Three plots of H/6 Trench A floor
Oversize Small Map Folder 6	15 Possible H/6 plot
Oversize Small Map Folder 6	16 Perhaps early surface plot of H/9

Oversize Small Map Folder 6	17f M/10 2 sections and floor (F33)
Oversize Small Map Folder 6	18f Hippo Banda plot
Oversize Small Map Folder 6	19f Lower Horizon Sites (LHS) contour map with geology [F42]
Oversize Small Map Folder 6	20f LHS sections [F44]
Oversize Small Map Folder 6	21, 22 Two xeroxes of plans of Hippo Banda, later versions
Oversize Small Map Folder 7	Ologesailie
Oversize Small Map Folder 7	Acetates of the Ologesailie monograph figures
Oversize Small Map Folder 8	Koobi Fora
Oversize Small Map Folder 8	1,2,3 Layout and key to Hunting Survey aerial maps of Koobi Fora Area. Due to a fire at Hunting Survey, these are no longer available. J.W.K. Harris (Rutgers) has some of the originals.
Oversize Small Map Folder 8	4/ Reconstruction of geological section, Areas 129, 130, 131, 108; tracing paper
Oversize Small Map Folder 8	5 Reconstruction of geological section, Area 118
Oversize Small Map Folder 8	6, 7, 8 Prep material for geological fence diagrams and sections
Oversize Small Map Folder 8	9/, 10 Prep material for three-dimensional map of Koobi Fora
Oversize Small Map Folder 8	11/ Kay Behrensmeyer's reconstructed geological column, Area 105
Oversize Small Map Folder 8	12/, 13 Hal Frank's preliminary correlated sections in Areas 103 and 131
Oversize Small Map Folder 8	14/ Scatter Between the Patches - preliminary Karari Escarpment Sketch Map

Oversize Small Map Folder 8	15 Scatter Between the Patches - Karari Escarpment Sketch map 1974
Oversize Small Map Folder 8	16 Scatter Between the Patches #V
Oversize Small Map Folder 8	17 Profile
Oversize Small Map Folder 9	Koobi Fora
Oversize Small Map Folder 9	1 FwJj 1 Area 6 isometric trench section (Map 1)
Oversize Small Map Folder 9	2/ FwJj 1 geological columns (Map 2)
Oversize Small Map Folder 9	3f FwJj 1 sections; torn (Map 3)
Oversize Small Map Folder 9	4f FwJj 1 sections (Map 5)
Oversize Small Map Folder 9	5f FwJj 1 sections and map of floor (Map 6)
Oversize Small Map Folder 9	6f FwJj 1 grid plan 1973 (Map 7)
Oversize Small Map Folder 9	7f FwJj 1 artefact plan, 1973 extension (Map 8)
Oversize Small Map Folder 9	8f FwJj 1 split, snapped and split flakes distribution map (Map 9)
Oversize Small Map Folder 9	9f FwJj 1 angular fragments distribution map (Map 10)
Oversize Small Map Folder 9	10f FwJj 1 whole flakes distribution map (Map 11)
Oversize Small Map Folder 9	11f FwJj 1 refitted pieces distribution map (Map 12)
Oversize Small Map Folder 9	12, 13, 14 FwJj 1 corrections to isometrics
Oversize Small Map Folder 10	Koobi Fora

Oversize Small Map Folder 10	1f FwJj 2 surface plot
Oversize Small Map Folder 10	2f Site 999 sections
Oversize Small Map Folder 10	3f Sections identified as perhaps 999 by J. W. K. Harris
Oversize Small Map Folder 10	4f Karibu Pig Site (KPS) surface plot and section (Map 1)
Oversize Small Map Folder 10	5f KPS plot of fauna (Map 2)
Oversize Small Map Folder 10	6 KPS section (Map 3)
Oversize Small Map Folder 10	7 KPS site plan
Oversize Small Map Folder 10	8, 9f Triangulation plan of "Tool Site Area" [105]; tracing, and annotated black line
Oversize Small Map Folder 10	10f Section at 105/S1 tuff outcrop, 1971 (Map 5)
Oversize Small Map Folder 10	11f Profile roughly east, to West Beacon to Knife Edge Ridge near section 105.10
