Collection Overview

Repository:	National Anthropological Archives
Title:	Donald J. Ortner Papers
Date:	1963-2013
Identifier:	NAA.2014-07
Creator:	Ortner, Donald J.
Extent:	44.37 Linear feet (96 boxes, 3 map-folders)
Language:	Collection is primarily in English. Some materials are in French and German.
Summary:	The Donald J. Ortner Papers, dated 1963 to 2013, document his research and professional activities while working in the Division of Physical Anthropology in the Department of Anthropology at the Smithsonian Institution National Museum of Natural History. They primarily deal with his contributions to the field of paleopathology and his work with specimens from Bab edh-Dhra, Jordan and Chichester, England. The bulk of this collection consists of correspondence, files related to Ortner's publications, specimen observations and analysis, and photographs.

Administrative Information

Acquisition Information

These papers were transferred to the NAA from the Department of Anthropology in 2014.

Related Materials

The following photo lots depicting Donald J. Ortner can be found at the NAA:

Photo Lot 7D: Photograph of attendees after American Anthropological Association annual meeting, 1965

Photo Lot 7A: Portraits made at the annual meeting of the American Association of Physical Anthropologists, 1970

Photo Lot 77-45: Photograph of Smithsonian Institution physical anthropologists, circa 1977

Photo Lot 4822: Division of Physical Anthropology collection of photographs of physical anthropologists, undated

Sound recordings of Donald J. Ortner at the NAA:

John Lawrence Angel Papers, Sound Recordings, "How Humans Adapt: A Biocultural Odyssey," November 9, 1981

Other collections at the NAA in which Donald J. Ortner is a correspondent or creator of material:

Records of the Department of Anthropology, 1877-1980

Department of Anthropology Annual Reports, 1920-1983

John Lawrence Angel Papers, 1930s-1980s

Three films that document Ortner's work in Bab edh-Dhra are located in the Human Studies Film Archives (HSFA):

Film number 2000.9.1, *The Bones of Bab edh-Dhra*, ca. 1970s

Film number 2000.9.3, Bab edh-Dhra Film Project, 1970-1980

Film number 2014.3, *City of the Dead*, 1978

The Smithsonian Institution Archives holds the original *City of the Dead* in Accession 05-282, Office of Telecommunications, Productions.

Processing Information

Overall, Ortner's original organization has been maintained. Some series and subseries were created to call out Ortner's larger projects and to make the collection easier to navigate. Materials within folders retain Ortner's original order, but folder titles have been changed where the original title was abbreviated or not fully descriptive of the contents. The processing archivist rehoused the materials; removed and copied sticky notes; separated oversize and restricted materials; and rehoused negatives, slides, and some photographs.

Processed and encoded by Alice Griffin, 2016.

Preferred Citation

Donald J. Ortner Papers, National Anthropological Archives, Smithsonian Institution.

Restrictions

The Donald J. Ortner Papers are open for research.

Access to the Donald J. Ortner Papers requires an appointment.

Requests to view forensic files are subject to review by the NAA. Forensic files can only be viewed in the National Anthropological Archives reading room. No copies are permitted unless permission is granted by the agency the report was written for.

Electronic records are unavailable for research. Please contact the reference archivist for additional information.

Use of audiovisual recordings with no duplicate access copy requires advance notice.

Conditions Governing Use

Contact the repository for terms of use.

Biographical Note

Donald J. Ortner was a biological anthropologist in the Department of Anthropology at the Smithsonian National Museum of Natural History (NMNH). By the time of his death, Ortner had served in many positions at the Museum, including Acting Director (1994-1996). His areas of expertise included human paleopathology, human health in medieval England, bioarcheology of the ancient Near East, and the history and evolution of human infectious diseases. Ortner was a founding member of the Paleopathology Association.

Ortner was born in 1938 in Stoneham, Massachusetts and arrived at the NMNH in 1963, working primarily with J. Lawrence Angel who had recently started as Curator in the Division of Physical Anthropology. While working at the Museum, Ortner completed his Master's in Anthropology in 1967 and received his Ph.D. from the University of Kansas in 1970. His doctoral dissertation was on *The Effects of Aging and Disease on the Micromorphology of Human Compact Bone*.

Ortner worked with Walter G. J. Putschar, a pathologist based at Massachusetts General Hospital in Boston, on a series of short-courses (1971-1974) on paleopathology at the Smithsonian. During the summer of 1974, Putschar and Ortner traveled to Europe (London, Edinburgh, Zurich, Strasbourg, Vienna, Prague) studying and photographing examples of skeletal pathology in museums and other repositories. The result of this research was the book *Identification of Pathological Conditions in Human Skeletal Remains* published in 1981, with later editions in 1985 and 2003.

In 1977, Ortner joined the Expedition to the Dead Sea Plain directed by archaeologists Walter E. Rast and R. Thomas Schaub, focusing on the site of Bab edh-Dhra. Ortner studied the tombs and skeletons for data indicating cultural and biological changes, especially urbanization and connection to the development of other "Western civilizations." Ortner participated in two more field seasons in Bab edh-Dhra in 1979 and 1981. From his research at Bab-edh-Dhra, Ortner published many scholarly articles and recreated two tombs for the Hall of Western Civilization at NMNH.

In 1988, Ortner began his collaboration with the University of Bradford in Bradford, England, teaching short-courses on paleopathology. While a Visiting Professor at the University, he also participated in a project on human health and disease in Medieval England. The project focused on leprosy and syphilis in skeletons from St. James Hospital's *leprosarium* cemetery in Chichester, Wharram Perry, and Magistrates' Court in Kingston-upon-Hull. He received an Honorary Doctorate of Science from the University in 1995.

Donald J. Ortner died on April 29th, 2012 in Maryland.

Chronology

1938	Born on August 23 in Stoneham, Massachusetts.
1960	Received B.A. in Zoology from Columbia Union College in Takoma Park, Maryland.
1963	Began working at the Smithsonian Institution.
1967	Received M.A. in Anthropology from Syracuse University.
1969	Promoted to Assistant Curator.
1970	Received Ph.D. from the University of Kansas.
1971	Promoted to Associate Curator.
1971-1975	Taught part-time at the University of Maryland.
1974	Spent summer with Dr. Walter G. J. Putschar studying pathological specimens in Europe.
1976	Promoted to Curator in the Anthropology Department, National Museum of Natural History.
1977	First field season at Bab edh-Dhra cemetery site in Jordan.
1979	Second field season at Bab edh-Dhra cemetery site in Jordan.
1981	Third field season at Bab edh-Dhra cemetery site in Jordan.
1988	Began association with the University of Bradford in Bradford, England.
1988-1992	Chairman of the Department of Anthropology, National Museum of Natural History.

1994-1996	Acting Director of the National Museum of Natural History.
1995	Awarded an Honorary Doctorate of Science degree from the University of Bradford.
1999-2001	President of the Paleopathology Association.
2005	Received Eve Cockburn Award from the Paleopathology Association in recognition of his contributions in the field of paleopathology.
2012	Died on April 29 in Maryland.

Scope and Contents

The Donald J. Ortner Papers primarily document his projects, research, and correspondence working as a biological anthropologist in the Division of Physical Anthropology of the Department of Anthropology from 1963 until his death in 2012. The bulk of the projects represented relate to his work in paleopathology, such as the Near Eastern skeletal biology program in Jordan and the medieval skeletal disease project in England. The collection consists of notes, research materials, correspondence, data and data analysis, transcripts of specimen observations, maps, blueprints, artwork, negatives, slides, photographs, CD-Roms, floppy discs, and sound cassettes.

Arrangement

This collection is arranged in 8 series: Series 1. Correspondence, 1966-2012; Series 2. Subject files, 1965-2013, undated; Series 3. Near Eastern Skeletal Biology Program, 1977-2010, undated; Series 4. Medieval Skeletal Disease Project, 1988-2006, undated; Series 5. Other publications, projects, and research, 1963-2011, undated; Series 6. Professional activities, 1971-2007, undated; Series 7. Biographical and office files, 1963-2011, undated; Series 8. Artwork, 1978, undated

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Anthropologists -- United States
- Archaeology
- Bronze age
- Bāb edh-Dhrā Site (Jordan)
- Chichester (England)
- Diseases
- Excavations (Archaeology) -- England
- Excavations (Archaeology) -- Middle East
- Forensic anthropology
- Human remains (Archaeology)
- Leprosy -- Research
- Paleopathology
- Physical anthropology
- Scurvy

Types of Materials:

- Correspondence
- Manuscripts
- Maps
- Negatives (photographic)
- Photographs
- Slides (photographs)
- Sound recordings

Names:

- Frohlich, Bruno, 1945-
- Paleopathology Association
- Putschar, Walter G. J., 1904-1987
- Smithsonian Institution Department of Anthropology
- University of Bradford

Places:

- England
- Jordan

Peru
Virginia

Container Listing

Series 1: Correspondence, 1966-2012

Scope and Contents: This series, dated 1966 to 2012, consists of correspondence, sent and received, relating to Ortner's publications; involvement in the Paleopathology Association; work as Vice-Chairman of the Bioarchaeology Panel of the Wellcome Trust; forensic work for outside agencies; his position as advisor and reference for students; his position as Acting Chair of NMNH; involvement in the Bab edh-Dhra site excavation; work as Visiting Professor at the University of Bradford; and family life and other activities.

Ortner's classification of daily correspondence, professional correspondence, and personal correspondence was retained. Therefore, there is significant overlap in subjects and types of correspondence between these subseries. Overall, daily correspondence tends to be from colleagues within the museum, publishers, or other people with whom Ortner often communicated. Professional correspondence tends to be more formal, such as letters from students, people organizing conferences, and people who had never met Ortner in person, but worked his field. Correspondents in Ortner's personal correspondence include Ortner's parents, Ortner's children, and the pastor at the church Ortner attended. Some letters in personal correspondence are more professional in nature.

The original order of these files was maintained.

This series is arranged in 3 subseries: 1.1 Daily correspondence, 1995-2012; 1.2 Professional correspondence, 1987-2012; 1.3 Personal correspondence, 1966-2012

Subseries 1.1: Daily correspondence, 1995-2012

Arrangement: This subseries is arranged in reverse chronological order.

Series 2: Subject files, 1965-2013, undated

Restrictions: Requests to view forensic files are subject to review by the NAA. Forensic files can only be viewed in the National Anthropological Archives reading room. No copies are permitted unless permission is granted by the agency the report was written for.

Scope and Contents: This series, dated 1965 to 2013 and undated, reflects parts of Ortner's whole career. It includes his work at the University of Bradford, as Acting Director of the NMNH, at the site of Bab edh-Dhra in Jordan, as Vice-Chairman of the Bioarchaeology Panel of the Wellcome Trust, and for the Paleopathology Association. It also documents his daily activities in the Department of Anthropology. Of particular interest are materials for the publication project for the archaeological site of Tell Jemmeh with Gus Van Beek and David Ben-Shlomo, which Ortner worked on from 2008 up until his death.

Most of the materials are sent and received correspondence or memos grouped by an individual or organizational correspondent. An individual's file may also hold correspondence that refers to them, such as an academic or job recommendation from Ortner. Other materials include programs from conferences, scholarly articles, photographs, slides, CD-Roms, and floppy discs.

Cross-referencing information from this series with other series may be required to understand it in context.

This series is arranged alphabetically. The series maintains Ortner's original arrangement with some changes for clarity.

[Return to Table of Contents](#)

Series 3: Near Eastern Skeletal Biology Program, 1977-2010, undated

Scope and Contents: This series consists of fieldwork materials, data analysis, and publications related to Ortner's work with specimens from Jordan, Egypt, Yemen, and Bahrain, dated 1977 to 2010 and undated. The bulk of this series relates to Ortner's participation in fieldwork at a cemetery complex in Bab edh-Dhra, Jordan, a part of the Expedition to the Dead Sea Plain with Walter Rast and R. Thomas Schaub.

Subseries 3.1, Publications, dated 1977 to 2008 and undated, includes drafts, data, data analysis, research materials, notes, correspondence, photographs, a blueprint, and a map related to Ortner's publications on his work in Bab edh-Dhra. The computer disks in this series are digital copies of the paper manuscripts they are included with. Several folders in this subseries contain planning material related to the series of books: Reports of the Expedition to the Dead Sea Plain. Bruno Frohlich and Ortner's 2008 book *The Early Bronze Age I Tombs and Burials of Bab edh-Dhra, Jordan*, also represented in this series, was volume 3 of the Reports.

Subseries 3.2, Bab edh-Dhra field seasons 1977 and 1979, dated 1977 to 2005, includes travel and finance documents, data analyses, correspondence, photographs, negatives, and maps. Of note are the sound recordings and transcripts of Ortner's audio journals in 1977 and 1979; as well as an interview, interpreted by Muhammed Darwish, conducted by between Ortner and Mahmoud Mustafa about burial practices of people living in El Mazra. Recordings are on 9 sound cassettes.

Subseries 3.3, Bab edh-Dhra field season 1981, dated 1980 to 1990, includes mostly financial and planning materials because Ortner did not travel to the site for this field season.

Subseries 3.4 Other projects and events, 1980 to 1983 and undated, includes files from other projects Ortner was involved with in Jordan, Egypt, Yemen, and Bahrain unrelated to the Expedition to the Dead Sea Plain. This includes a proposal for a Near Eastern Skeletal Biology Program with Smithsonian archaeologist Bruno Frohlich in collaboration with Yarmouk University in Bahrain. There is not much information on the Early Islamic Project in Egypt, the Yemen mummy project, or the Abydos study.

The series maintains Ortner's original arrangement with some changes for clarity.

This series is arranged in 4 subseries: 3.1 Publications, 1977-2008; 3.2 Bab edh-Dhra field seasons 1977 and 1979, 1977-2005; 3.3 Bab edh-Dhra field season 1981, 1980-1990; 3.4 Other projects and events, 1980-1983, undated

Restrictions: The CD-Roms and floppy disks are unavailable for research due to preservation concerns.

Subseries 3.1: Publications, 1977-2008

Box 59	The EB I Tombs and Burials of Bab edh-Dhra, Jordan AltaMira Press contract and correspondence, 2006-2008
Box 59	Bibliography for The Early Bronze I Tombs and Burials of Bab edh-Dhra, Jordan, undated
Box 59	Metabolic diseases data, 2004-2005, undated
Box 59	Bab edh-Dhra data analysis, circa 2006
Box 59	"The EB IA People of Bab edh-Dhra, Jordan" with Bruno Frohlich, 2000, 2004

	Includes hard copy of the article with digital surrogate on CD-Rom Notes: Article for festschrift for Walter Rast and R. Thomas Schaub edited by Meredith Chesson. The CD-rom is restricted for preservation reasons.
Box 60	"Disease and Mortality in the Early Bronze Age People of Bab edh-Dhra, Jordan", 1979-1985 2 Folders
Box 60	"Cultural Change in Bronze Age", 1978
Box 60, Map-folder 2	"Skeletons in the Desert: Excavations of Early Bronze Age Tombs in Jordan", 1978 Notes: Blueprint of the Hall of Western Civilizations at the National Museum of Natural History moved to map-folder 2.
Box 60, Map-folder 2	Bab edh-Dhra, Jordan cemetery work 1977 preliminary report, 1977-1978, undated 3 Folders Notes: Topographic map of Bab edh-Dhra moved to map-folder 2.
Box 60-61	Miscellaneous notes and articles relating to Ortner's work on Bab edh-Dhra, 1980, undated 4 Folders Includes 1 photographic print, probably of the G1 charnel house.
Box 61	Animal remains from the Bab Edh-Dhra cemetery, Hesse and Wapnish, 1978, 1980, undated Includes 7 non-photographic prints of bones from Bab edh-Dhra, probably animal bones.
Box 61	Skeletal biology of G1 charnel house at Bab edh-Dhra, 1982-1983, undated Includes 8 photographic prints: 2 of a Bab edh-Dhra skull with healed ax wound and 6 of what is probably the G1 charnel house.
Box 61	Frohlich-Ortner Bab edh-Dhra excavations preliminary report, 1981
Box 61	EB IA shaft tombs preliminary report, 1981-1983
Box 61	Dead Sea expedition publication project, 1983, undated
Box 61	Bab edh-Dhra chapter 1, undated Contains 2 floppy discs labeled "Bab edh-Dhra, chapter 1," probably digital surrogates of the first chapter of <i>The EB I Tombs and Burials of Bab edh-Dhra, Jordan</i> with Frohlich. Notes: The floppy discs are restricted due to preservation concerns.
Box 61	Expedition to the Dead Sea Plain, Vol. 2 EB I cemetery, 1984, undated
Box 61	Bab edh-Dhra pottery drawing, circa 1977

Box 61	Report of the Bab edh-Dhra 1981 excavations submitted to Annual of the Department of Antiquities, Jordan, 1982
Box 61-62	Sources, 1983, undated 4 Folders Includes 2 floppy discs containing a bibliography for an unidentified publication. Notes: The floppy discs are restricted due to preservation concerns.
Box 62	Jordan Magazine Bab edh-Dhra piece, 1982-1983
Box 62	"The Human Biological History of the Early Bronze Age in Bahrain" by Bruno Frohlich, 1983
	Skeletal analysis forms:
Box 62	General, 1991, undated Includes hard copies of skeletal analysis forms with digital surrogates on 2 floppy discs. Notes: The floppy discs are restricted for preservation reasons.
Box 62	A79, circa 1991
Box 62	A78, circa 1991
Box 62	A80, circa 1991
Box 62	A86, circa 1991
Box 62	A87, circa 1991
Box 62	A88, circa 1991
Box 62	A89, circa 1991
Box 62	A91, circa 1991
Box 63	A100, circa 1991
Box 63	A101, circa 1991
Box 63	C9, circa 1991
Box 63	C10, circa 1991
Box 63	C11, circa 1991
Box 63	G3, circa 1991

Box 63	G4, circa 1991
Box 63	A102, circa 1991
Box 63	A103, circa 1991
Box 63	A105, circa 1991
Box 63	A106, circa 1991
Box 63	A107, circa 1991
Box 63	A108, circa 1991
Box 63	A109, circa 1991
Box 63	A110, circa 1991
Box 63	A111, circa 1991
Box 63	A114, circa 1991
Box 63	A120, circa 1991
Box 63	A121, circa 1991
Box 63	"Metabolic and Infectious Disease in the Early Bronze Age I Human Remains from Bab edh-Dhra, Jordan", 2010 Includes hard copy of the manuscript with digital surrogate on CD-Rom. Notes: The CD-Rom is restricted for preservation reasons. Manuscript prepared for the proceedings of a workshop for the 7th International Congress of the Archaeology of the Ancient Near East, April 12-16, 2010.
Box 63	"Bone Changes in a Human Skull from the Early Bronze Site of Bab edh-Dhra, Jordan, Probably Resulting from Scalping", 1997-1998
Box 63	"Social and Demographic Implications of Subadult Inhumations in the Ancient Near East", 1996
Box 63	"Human Disease in the Ancient Middle East", 1984
Box 63	Writings by Walter Rast, 1980-1987

Subseries 3.2: Bab edh-Dhra field seasons 1977 and 1979, 1977-2005

Scope and Contents: The bulk of material in this subseries come from work at Bab edh-Dhra, but 1 file includes the carbon dating results of samples from Numeira, another site of the Expedition to the Dead Sea Plain.

Box 64	Travel and itinerary, 1977-1978
Box 64	Finances, 1977-1978 2 Folders
Box 64	Hall 26 Bab edh-Dhra exhibit, 1978-1983 Includes 6 photographic prints of the Bab edh-Dhra exhibit in the Hall of Western Civilization.
Box 64	Bab edh-Dhra cemetery aerial photographs, circa 1977 Includes photographic prints.
Box 64	Bab edh-Dhra site and artifact photographs, circa 1977 4 Folders Includes 3 negatives (photographic) with all associated photographic prints in the same folder.
Box 64	Research and planning, 1973-1978 2 Folders
Box 65	Transcriptions of Ortner's 1977 field season audio journal and Mahmoud Mustafa interview, 1977
Box 94, Item 01-05	Ortner's 1977 field season audio journal, 1977 5 Sound cassettes
Box 94, Item 06-07	Interview with Mahmoud Mustafa, interpreted by Muhammed Darwish, about burial practices, 1977 2 Sound cassettes Notes: Ortner's article "Cultural Change in Bronze Age," published in Smithsonian Magazine, discusses this interview alongside a photograph. This article is in Series 3. Near Eastern Skeletal Biology Program, Subseries 3.1. Publications, Folder "Cultural Change in Bronze Age."
Box 65	Milk residues in an Early Bronze Age I jar from Bab edh-Dhra, circa 1977 Includes non-photographic prints of the jar.
Box 65	Palynology research, 1978-1980 Includes 1 photographic transparency, probably an aerial view of Bab edh-Dhra.
Box 65	Skeletons in the Desert 16mm film materials, circa 1977 Notes: The notes in this file are probably related to the following films held in the Human Studies Film Archives:

HSFA film number 2000.9.1, *The Bones of Bab Edh-Dhra*, ca. 1970s

HSFA film number 2000.9.3, Bab edh-Dhra Film Project, 1970-1980

HSFA film number 2014.3, *City of the Dead*, 1978

City of the Dead appears to have been used in NMNH's Hall of Western Civilization, for which Ortner recreated two tombs from Bab edh-Dhra, and it is an edited version of *The Bones of Bab edh-Dhra*. The films' photographer was Kjell B. Sandved.

Box 65, Map-folder 2 Maps of Jordan and photographic services, 1977-1978
Includes photographic prints; 1 negative (photographic) depicting an aerial view of the Bab edh-Dhra area with associated photographic print; and 1 photographic contact sheet with images of Cemetery A, Tomb No. 1, Burial No. 1, 31 May, 1977.
Notes: 7 oversize maps of Jordan moved to Map-folder 2.

Box 65 Numeira site samples carbon-14 dates, 1979-1980

Box 65 Dermestid boring in Bab edh-Dhra human bones, circa 1982

Box 65 1979 field season audio journal: transcripts, 1979

Box 94-95, Item 08-09 1979 field season audio journal: "A Cemetery Report", 1979
2 Sound cassettes
Notes: The sound cassettes contain only parts 3 and 4 of the audio journal, but all of the parts (1, 2, 3, and 4) are in the transcript.

Box 65 Press about Bab edh-Dhra, 1978-1981

Box 65 Bab edh-Dhra 1979 excavation maps, 1979

Box 65 Bab edh-Dhra 1979 planning and field work, 1979
2 Folders
Includes 9 photographic contact sheets depicting tombs and people at work on the site.

Box 65 1979 Bab edh-Dhra excavation finances, 1979

Box 66 Pottery storage, 1977-1983

Box 66 Dental data, Victoria Perry, 2005

Subseries 3.3: Bab edh-Dhra field season 1981, 1980-1990

Box 66 Bibliography, 1990

Box 66 Finances, 1981-1982

Box 66	Planning and final reports, 1980-1983
Box 66	National Geographic Society proposals, 1981
Box 66	High School Science Program essay: "Bab edh-Dhra Artifacts and their Intended Uses", 1982

Subseries 3.4: Other projects and events, 1980-1983, undated

Box 66	The Archaeology of Jordan MASCA seminar, 1982
Box 66	Queen Alia airport site, Jordan, 1980-1983
Box 66-67	Near Eastern Skeletal Biology Program proposal and planning, 1980-1981 2 Folders Includes 1 negative (photographic) and 2 associated photographic prints of a map of Jordan and surrounding countries.
Box 67	Baq'ah Valley skeletons analysis collaboration, 1980-1982, undated
Box 67	Early Islamic project at Wasim, Fustat, and Bahnasa in Egypt, 1982, undated
Box 67	Abydos study, undated
Box 67	State visit of the Amir of Bahrain, 1983
Box 67	Yemen mummy project notes, undated
Box 67	Remote sensing methods and equipment, 1982
Box 67	History and Archaeology of Jordan Oxford conference, 1980 2 Folders
Box 67	Skeleton line drawing, undated
Box 67	The International Institute for Mesopotamian Area Studies Lecture Series: Ebla, 1983

[Return to Table of Contents](#)

Series 4: Medieval Skeletal Disease Project, 1988-2006, undated

Scope and Contents: This series, dated 1988 to 2006 and undated, consists of notes, data, publications, grant applications, maps, photographs, and negatives related to Ortner's Medieval Skeletal Disease Project in collaboration with Brian Connell. Most of the data and observations are from specimens from the *Leprosarium* cemetery in Chichester, England, held in the Biological Anthropology Research Centre of the University of Bradford.

Ortner also collected notes and data on skeletons from Wharram Percy, Hull Magistrates Court, and Blackfriars in Gloucester. Grant applications submitted by Ortner to the Smithsonian Scholarly Studies program, 1993-1994, and to the National Institutes of Health (NIH), 1997-1998, are also included.

Restrictions: The CD-Roms and floppy disks are not available for research due to preservation concerns.

Box 67	"Skeletal Manifestations of Leprosy," Chichester, England, 2006 Includes hard copy of the chapter with digital surrogates on floppy disc and CD-Rom. Notes: The floppy disk and CD-Rom are restricted for preservation reasons. Chapter in <i>Lepers Outside the Gate</i> , 2008, edited by J. Magilton, F. Lee, and A. Boylston.
Box 67-68	Medieval Skeletal Disease Project data forms, B. Connell, circa 2006 4 Folders
Box 68	Notes on Chichester skeletons, circa 1999 2 Folders
Box 68	Archaeological map of Chichester cemetery, undated
Box 68	Transcriptions of observations on human remains from Chichester cemetery and Hull Magistrates Court, 1994-1996, undated Includes hard copy of transcriptions with digital surrogates on 2 floppy discs. Notes: The floppy discs are restricted for preservation reasons.
Box 95, Item 10-12	Bradford University research, 1990 3 Sound cassettes (transcripts might be included in the undated materials in Box 68, Transcriptions of observations on human remains from Chichester cemetery and Hull Magistrates Court.)
Box 68	CAD lesion patterns, undated
Box 68	"Classification of Bone Lesions", circa 1997
Box 68	"Dry-bone Manifestations of Rickets in Infancy and Early Childhood", 1996-1998
Box 68	Wharram Percy site, 1996
Box 69	Hull and Gloucester, 1994-1996

Box 69	Scholarly Studies Program proposal, 1993-1994 Includes hard copy of the proposal with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 69	Scholarly Studies Program grant, 1994-1995
Box 69	"Human Treponematosi s in a Pre-Columbian Skeleton from Gloucester, England", 1993-1997
Box 69	Leprosy case report of Chichester burial, undated 2 Folders Includes 58 photographic prints of specimens probably from Chichester cemetery.
Box 69	The Past and Present of Leprosy, University of Bradford Conference, 1999-2002 Includes hard copy of the manuscript with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 69	Hospital of St. James, dictation on pathological cases, 1990 Contains one floppy disc of dictation. Notes: The floppy disc is restricted for preservation reasons.
Box 69	"Metastatic Carcinoma in a Leper Skeleton from a Medieval Cemetery in Chichester, England", 1990 Includes hard copies of case report and drafts of article with digital surrogates on 4 floppy discs. Notes: The floppy discs are restricted for preservation reasons.
Box 69	Chichester research general file, circa 1988
Box 69-70	Observations on Chichester skeletons, 1988 2 Folders Includes hard copies of observations with digital surrogates on 2 floppy discs. Notes: The floppy discs are restricted for preservation reasons.
Box 70	Chichester research photographs, 1988-1990 4 Folders Includes photographic prints and 524 negatives (photographic). In this folder, not all the negatives have associated prints, and some prints do not have associated negatives; therefore, both the prints and the negatives may need to be consulted to view all of the images.
	NIH grant application:
Box 70	NIH grant application, 1997-1998
Box 70	Staff CVs, 1997-1998
Box 70	Pilot research, 1997-1998

Box 70	Study section, 1997-1998
Box 71	Correspondence, 1997-1998
Box 71	Submission copy, 1997-1998 Includes hard copy of grant proposal and budget with digital surrogates on 2 floppy discs. Notes: The floppy discs are restricted for preservation reasons.
Box 71	Advisor comments, 1997-1998
Box 71	Advisor letters, 1997-1998
Box 71	References, 1997-1998 2 Folders
Box 71	Budget and equipment, 1997-1998
Box 71	Medieval Human Disease Research Program presentation, 1996-1997 Includes 9 slides (photographs) of the excavation at Hull Magistrates' Court and Calvin Wells Lab.

[Return to Table of Contents](#)

Series 5: Other publications, projects, and research, 1963-2011, undated

Scope and Contents: This series, dated 1963 to 2011 and undated, consists of drafts, data, transcriptions of observations, correspondence, contracts, research materials, photographs, slides, and negatives that were a part of publications, projects, or research not immediately related to the Ancient Near Eastern Biology Program or the Medieval Skeletal Disease Project. Ortner visited many museums and universities in Europe, the United States, and Australia to study specimens and those observations are represented in this series. This includes materials from Ortner's trip to Europe during the summer of 1974 with Dr. Walter G. J. Putschar.

Also of note are materials for the publication of the 2nd edition of *Identification of Pathological Conditions in Human Skeletal Remains*. Ortner published the first edition of this book with Dr. Walter G. J. Putschar.

The series maintains Ortner's original arrangement with some changes for clarity.

Restrictions: The CD-Roms and floppy disks are not available for research due to preservation concerns.

"The effect of temperature on protein decay in bone: its significance in nitrogen dating of archaeological specimens":

Box 72 Probe analysis of fossil bone, undated

Box 72 Protein decay temperature, 1973-1976
Includes 2 negatives (photographic) with associated photographic prints in this folder.

Box 72 Protein decay particle size, undated

Box 72 Winslow Site Report: photographs, notes, and research, 1968, undated

Box 72 The Field Museum, Chicago report, undated

Box 72 U.S. National Museum pathology study, 1963
2 Folders

Box 72, Map-folder 1 "The Skeletal Biology of the Virginia Indians", 1976-1978
Includes 3 negatives (photographic) and 6 associated photographic prints of graphs used in the publication.
Notes: Oversize test map of Virginia with tribes moved to Map-folder 1.

Box 73 North American skeletal biology analysis sheets, 1971
Notes: Appears to be specimens held by the NMNH.

Box 73 Paleopathology of Eskimo, Pueblo, Florida, 1972, undated
2 Folders
Notes: Appears to be specimens held by the NMNH.

Box 73 Smithsonian Institution skeletal measurements code sheets, 1971, undated

	2 Folders
Box 73	Student research, 1971-1972
	Identification of Pathological Conditions in Human Skeletal Remains revised edition:
Box 73	Permission agreements, 1999-2003
Box 73	Writing schedule, 1999
Box 73	Correspondence regarding first edition, 1978-1980
Box 73	Contracts and administrative correspondence, 2000-2002 2 Folders
Box 74	Publication information, 1999-2001 2 Folders
Box 74	Reviews of first edition, 2003, undated
Box 74	Revision ideas, 1992
Box 74	Introduction, undated
Box 74	Pathology vs. pseudopathology, 1991
Box 74	Table of Contents, 1999
Box 74	Pathology specimens, undated 2 Folders Includes 7 x-rays of teeth, 7 photographic prints, and 8 slides (photographs) of specimens at the Utah Natural History Museum; and 5 non-photographic prints of a human skull.
Box 74	Chapter 1: Introduction, 1998, undated
Box 74	Chapter 3: Background data in paleopathology, 1999
Box 74	Chapter 4: Methods, 1992, undated
Box 74	Chapter 5: Chemical analysis, 1999 Includes hard copy of the chapter with digital surrogate on floppy disc. Notes: The floppy disk is restricted for preservation reasons.
Box 74	Chapter 8: Trauma, undated
Box 75	Chapter 10: Infectious diseases, tuberculosis and leprosy, 1994, undated

Box 75	Infectious diseases research, 1992-1994, undated 3 Folders Includes 23 photographic prints of specimens from PHRI [?] and 5 photographic prints of specimens probably from NMNH.
Box 75	Reticuloendothelial and hemopoietic research, 1991, undated 2 Folders
Box 75	Metabolic diseases research, undated 2 Folders
Box 75	Joint diseases research, 2000, undated Includes hard copy of a case study of specimen #374619 with digital surrogate on floppy disc. Notes: The floppy disk is restricted for preservation reasons.
Box 75	Skeletal malformations research, undated
Box 75	Tumors research, undated
Box 76	Tables, undated
Box 76	Paleopathology McGraw-Hill chapter, 2010
Box 76	"Human Skeletal Paleopathology," International Journal of Paleopathology, 2010-2011
Box 76	"Differential Diagnosis and Issues in Disease Classification," edited by Anne Grauer, 2010-2011 Includes hard copy of chapter with digital surrogate on CD-Rom and 6 photographic prints of figures to be used in publication. Notes: The CD-Rom is restricted for preservation reasons.
Box 76	"Pustchar: Pathologist, Paleopathologist, Teacher", 2008-2011 Includes a hard copy of the article, figures, and images with digital surrogates on 5 CD-Roms; and 1 copy print of a photograph of Pustchar. Notes: The CD-Roms are restricted for preservation reasons.
Box 76	"The Skeletal Manifestations of Subadult Scurvy", 2004-2005 Includes 18 slides (photographs) of skeletal evidence of scurvy from the site of the Roman Imperial City of Sirmium in Serbia.
Box 76	"What Skeletons Tell Us: The Story of Human Paleopathology", 2010-2011
Box 76	"Evidence of Childhood Scurvy in Byzantine Crete, Greece", 2011
Box 77	"Skeletal Manifestations of Skin Ulcer in the Lower Leg", 2006
Box 77	"Differential Diagnosis of Skeletal Lesions in Infectious Disease", 2006

Includes hard copies of chapter with digital surrogates on 1 floppy disc and 2 CD-Roms.

Notes: The floppy disk and CD-Roms are restricted for preservation reasons.

Box 77	"Infectious Disease and Human Evolution", 2005 Includes hard copy of article with digital surrogate on floppy disc. Notes: The floppy disk is restricted for preservation reasons.
Box 77	"Ecology, Culture, and Disease in Past Human Populations", 2005-2008 Includes hard copy of chapter with digital surrogate on floppy disc. Notes: The floppy disk is restricted for preservation reasons.
Box 77	"Ales Hrdlicka and the Founding of the AJPA", 2005-2009 2 Folders Includes a hard copy of the article with digital surrogate on floppy disc; and 4 photographic prints of images for publication. Notes: The floppy disk is restricted for preservation reasons.
Box 77	"Evidence of Acute infectious Disease in Human Skeletal Paleopathology", 2002
Box 77	"Case Reports on Paleopathology: Hellenistic Crete", 1997
Box 77	"Pathological Evidence of Malnutrition", 1994 Includes hard copy of article with digital surrogate on CD-Rom. Notes: The floppy disk is restricted for preservation reasons.
Box 77	"Hip Fracture and Osteoporosis in a XIIth Dynasty Female Skeleton from Lisht, Upper Egypt", 1996-1997 Includes 2 x-rays and 7 photographic prints to be used as figures in publication; and 1 floppy disc labeled "Dequeker, Sept. '96." Notes: The floppy disc is restricted for preservation reasons.
Box 77	Foreword for Ethne Barnes book, 1993 Includes hard copy of the foreword with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 78	"Syphilis" comment on Livingstone's Hypothesis, probably 1992
Box 78	"Bone Growth and Paleopathology", 1990
Box 78	Paleopathological goals, 1993 Includes hard copy of manuscript with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 78	"New Approaches to the Study of Disease in Archaeological New World Populations", 1991
Box 78	"History of Human Diseases During Prehistory and Antiquity in the Old World", 1989

Box 78	Health, disease, and population adaptation, undated Contains 3 floppy discs of unidentified contents. Notes: The floppy discs are restricted for preservation reasons.
Box 78	"Descriptive Methodology in Paleopathology", 1989-1990 Includes hard copy of article with digital surrogates on 2 floppy discs. Notes: The floppy discs are restricted for preservation reasons.
Box 78	"Skeletal Paleopathology : Probabilities, Possibilities, and Impossibilities", 1989-1992 Includes hard copy of manuscript with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 78	Introduction to "Regional Atlas of Bone Disease" by Mann and Murphy, 1988, undated Includes hard copy of introduction with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 78	"Human Health and Disease in the Mesolithic and Neolithic Ages", 1987-1989 Includes hard copies of original and revised versions of manuscript with digital surrogates on 5 floppy discs. Notes: The floppy discs are restricted for preservation reasons.
Box 78	Paleopathology classification and terminology, undated
Box 78	"Metabolic and Endocrine Disorders in Human Paleopathology", 1986, undated Includes hard copy of paper with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 78	"Skeletal Evidence of Pre-Columbian Treponomal Disease in North America", 1986
Box 78	Radiology in paleopathology, 1986
Box 78, Map-folder 1	Polyarticular arthritis in the National Museum of Natural History 374619, 1981 Notes: Five oversize skeletal diagrams moved to map-folder 1.
Box 78	Walter G. J. Putschar observations, 1983-1985 4 Folders Notes: Transcriptions of observations by Dr. Walter G. J. Putschar of paleopathology cases at NMNH.
Box 78	"Report on the Human Skeletal Remains from the Fisher Site (44-LD4), Loudoun County, VA", undated
Box 79	Dictations and photographs of specimens studied at the Royal College of Surgeons of Edinburgh, 1988 Includes photographic prints and 74 negatives (photographic). In this folder, not all negatives have associated prints, and some prints do not have associated

negatives; therefore both the prints and the negatives may need to be consulted to view all of the images. Also includes 1 floppy disc labeled "NW69".

Notes: The floppy disc is restricted for preservation reasons.

Box 79	"Bone Changes in the Human Skull Probably Resulting from Scurvy in Infancy and Childhood", 1997 Includes hard copy of the article with digital surrogates on 3 floppy discs; 1 floppy disc containing correspondence from January 1-May 31, 1996; and 1 floppy disc containing a manuscript titled "Eosinophilic Granuloma in a 13th Century Greek Medieval Subadult Skeleton." Notes: The floppy discs are restricted for preservation reasons.
Box 79	"Scurvy in Archeological Human Remains from the American Southwest", 2000, undated
Box 79	Hawaii/Australia pathology specimens at Bishop Museum photographs, 1988 September-October 2 Folders Includes 309 negatives (photographic) with all associated photographic prints in the same folder.
Observations on pathological cases:	
Box 79	Bishop Museum, 1988
Box 79	Shellshear Museum, Sydney, Australia, probably 1988
Box 79	Australian Museum, probably 1988
Box 79	South Australian Museum, Adelaide, Australia, 1988
Box 80	University of Zurich, Institute of Pathology specimen photographs, 1988 Includes 87 negatives (photographic) with all associated photographic prints in the same folder.
Box 80	"J. Lawrence Angel: Contributions to Anthropology" AAA presentation slides, 1987 Includes 13 slides (photographs).
Box 80	"Bone Lesions in a Probable Case of Scurvy from Metlatauk, Alaska", 1984
Box 80	University of Geneva pathological specimens photographs, 1983 Includes 37 photographic prints.
Box 80	FABC [First African Baptist Church ?] photographs and slides, undated Includes 12 slides (photographs) and 56 photographic prints of specimens.
Box 80	Peru scurvy project, 1996-1999

4 Folders

Includes 6 photographic contact sheets of specimens in NMNH and 2 floppy discs, one unlabeled and the other contains the Kimmerle files.

Notes: These floppy discs are restricted for preservation reasons.

Box 80-81	North American scurvy project, 2001 2 Folders
Box 81	"Disease Ecology", 2000-2001 Includes hard copy of chapter with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 81	"Male/Female Immune Reactivity", 1997-1999 Includes hard copies of chapter and figures with digital surrogates on 3 floppy discs. Notes: The floppy discs are restricted for preservation reasons.
Box 81	"Paleopathology Implications for the History and Evolution of Tuberculosis", 1998-1999 Includes hard copy of manuscript with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 81	Meningioma paper, 2002-2003 Includes hard copy of article with digital surrogates on 3 CD-Roms. Notes: The CD-Roms are restricted for preservation reasons.
Box 81-82	Hyperthyroidism, Ortner and Hotz, 2003, undated 2 Folders Includes hard copies of article and figures with digital surrogates on 2 CD-Roms and a floppy disc; and 1 floppy disc labeled "cretin research 1988." Notes: The floppy discs and CD-Rom are restricted for preservation reasons.
Box 82	Handbook of North American Indians, Vol. III, 2002-2005 2 Folders
Box 82	Research notes in Norway, 1992
	Summer 1974 research:
Box 82	Transcriptions of observations, 1974 3 Folders
Box 82, Map-folder 2	Travel plans, 1974 Notes: Map of Switzerland marked where specimens were found moved to Map-folder 2.
Box 82	"Paleopathology in the 21st Century", 1998, 2002

Box 83

CT scans of skeletons of the Americas, 1993

[Return to Table of Contents](#)

Series 6: Professional activities, 1971-2007, undated

Scope and Contents: This series, dated 1971-2007 and undated, consists of materials relating to Ortner's professional activities. These include notes, correspondence, drafts, newsclippings, photographs, and computer disks.

Subseries 6.1, Lectures, conferences, symposia, 1975-1986 and undated, includes Ortner's notes and research materials for these lectures or talks at conferences. Ortner's lecture addressing science and culture in modern society was for the Smithsonian Resident Associate Program in 1984. The research materials that accompany Ortner's notes for his lecture on science and religion follow the controversy and lawsuit over the National Museum of Natural History's exhibit on evolution, which opened in 1979. The materials from the Smithsonian's Seventh International Symposium, *How Humans Adapt: A Biocultural Odyssey* include files from Ortner's participation in the 1981 symposium. Drafts, book reviews, and public relations materials for the book that accompanied the symposium, which Ortner edited, are also included.

Subseries 6.2, Forensic work, 2002, 2007, includes correspondence, notes, photographs, CD-Roms, and floppy discs relating to forensic cases from outside agencies on which Ortner was asked to collaborate. In these cases Ortner used remains to determine cause of death, verify identity, or provide other information for the case.

Subseries 6.3 Other professional activities, 1971-2005, includes NMNH Research Associate Rebecca Ferrell's NIH grant proposal for a project titled "The Biology of Striae of Retzius in Human Tooth Enamel" that Ortner supervised in 2005; case reports Ortner organized and edited for the Paleopathology Newsletter; workshops he organized for the annual meetings of the Paleopathology Association from 1997-2002; and Ortner's short-courses in paleopathology. The material from the short-courses in paleopathology includes planning and correspondence from when they were offered as a lecture series at the Smithsonian Institution with Walter G. J. Putschar during the years 1971-1974 and 1985. The file also includes short-courses at the University of Bradford during the years 1988, 1994, 1998, 2001, 2003, 2005.

Subseries 6.4 Photographs, 1960s-2000s, includes slides, negatives, and prints depicting professional events, such as conferences and awards ceremonies; Ortner at work in his office or lab with colleagues and interns; and a few prints of unidentified specimens. Notable people included in these images are Thomas Dale Stewart and John Lawrence Angel. Also included are negatives of photographic portraits of children, probably Ortner's.

This series is arranged in 4 subseries: 6.1 Lectures, conferences, symposia, 1975-1986, undated; 6.2 Forensic work, 2002, 2007; 6.3 Other professional activities, 1971-2005; 6.4 Photographs, 1960s-2000s.

Restrictions: The floppy discs and CD-Roms are restricted for preservation reasons.

Requests to view forensic files are subject to review by the NAA. Forensic files can only be viewed in the National Anthropological Archives reading room. No copies are permitted unless permission is granted by the agency the report was written for.

Subseries 6.1: Lectures, conferences, symposia, 1975-1986, undated

Box 83 Science and culture in modern society, 1978, 1983-1984, undated

Box 83 Science and religion, 1975, 1980, 1984, undated

How Humans Adapt: A Biocultural Odyssey, Smithsonian Institution's Seventh International Symposium:

Box 83	How Humans Adapt book reviews, 1983-1984
Box 83, Map-folder 1	Symposium planning, 1981 Notes: Oversize blueprint of layout for How Humans Adapt symposium moved to map-folder 1.
Box 83	Symposium organization format, 1981
Box 83	Guidelines for essayists, undated
Box 83	Symposium commentators, 1980-1981 2 Folders
Box 83	Essayists, 1980-1981, undated
Box 83	Participants, 1981
Box 83	Grant applications, 1978-1980
Box 83	Objectives of the symposium, 1979, undated
Box 84	Biosocial dynamics in human populations, 1977-1980 Notes: Proposed topic for the 1981 symposium.
Box 84	Symposium planning conferences, 1978-1979 6 Folders
Box 85	Correspondence, 1980-1984
Box 85	Observers, 1981
Box 85	Ortner essay, 1981, undated
Box 85	Summary report, 1981, undated
Box 85	Photographs of the symposium, probably 1981 Includes photographic prints and contact sheets.
Box 85	Essays prepared in advance for participants in symposium, 1981-1982
Box 85	Pair bonding, undated
Box 85	How Humans Adapt public relations, 1982-1984

Box 85 SI Conference on Skeletal Manifestations of Inflammatory Arthropathies in Archeological Specimens, 1986

Subseries 6.2: Forensic work, 2002, 2007

Restrictions: Requests to view forensic files are subject to review by the NAA. Forensic files can only be viewed in the National Anthropological Archives reading room. No copies are permitted unless permission is granted by the agency the report was written for.

Box 93 State of Iowa vs. Boss, 2002
2 Folders
Includes 2 floppy discs and 10 CD-Roms.
Notes: The floppy discs and CD-Roms are restricted for preservation reasons.

Box 93 Forensic case, Owsley, 2007
Contains 1 CD-Rom and 1 photographic print.
Notes: The CD-Rom is restricted for preservation reasons.

Subseries 6.3: Other professional activities, 1971-2005

Box 85 NIH grant application with Rebecca Ferrell, 2005

Box 86 Paleopathology Newsletter case reports, 1983-1984

Box 86 Paleopathology Association workshops, 1997-2002

Box 86 Smithsonian Institution-University of Bradford short courses in paleopathology, 1971-2005, undated
4 Folders
Includes 2 photographic prints of 1985 short-course class at the Smithsonian and 7 photographic prints of short-course classes probably at University of Bradford in 1988.

Box 86 George Washington University professorship, 1970

Subseries 6.4: Photographs, 1960s-2000s

Box 86 Photographs, 1960s-2000s
2 Folders
Includes photographic prints, 25 negatives (photographic), and 7 slides (photographs). In this folder, not all negatives have associated prints, and some

prints do not have associated negatives; therefore both the prints and the negatives may need to be consulted to view all of the images.

[Return to Table of Contents](#)

Series 7: Biographical and office files, 1963-2011, undated

Scope and Contents: This series, dated 1963 to 2011 and undated, includes biographical material related to Ortner's education and career as a biological anthropologist at the Smithsonian. It contains resumes, diplomas (including the Honorary Doctorate of Science from the University of Bradford), administrative office files, retirement plans, travel documents, and a calendar of appointments.

Of note are several folders containing Ortner's reviews for the Professional Accomplishments Evaluation Committee (PAEC), which advised the director of the NMNH on matters related to the competency and progress of staff members. The PAEC complemented the annual performance plans and reviews, also present in this series, by focusing on a longer term level of performance. PAEC reviews include what Ortner was doing professionally in research, publications, public functions, field work, exhibits, honors and awards received, professional memberships, grants and contracts, teaching, and job-related training.

Restrictions: The floppy discs and CD-Roms are restricted due to preservation concerns.

Box 87	Newsclippings and articles about Dr. Ortner's work, 1986-1988
Box 87	Job applications and letters, 1982-1994
Box 87	Graduate study, 1963-1970
Box 87	PhD program, 1967-1970
Box 87	Government employment forms, 1963
Box 87	Master's thesis, 1966-1968
Box 87	Retirement plans, 2003-2007
Box 87	Calendar of appointments, 1994-2004 2 Folders
Box 87	University of Bradford Honorary Doctorate, 1995 Includes hard copy of acceptance speech with digital surrogate on floppy disc. Notes: The floppy disc is restricted for preservation reasons.
Box 87	Joyce Ortner volunteer forms, 1994-1998
Box 87	Curricula vitae, 1977-1995
Box 88-89, 93	Professional Accomplishments Evaluation Committee (PAEC) reviews, 1966-2011 8 Folders Includes a hard copy for the 1989 review with digital surrogates on 3 floppy discs; a hard copy for the 2004 review with digital surrogates on 1 CD-Rom and 2 floppy discs; and 1 floppy disc containing Intergraph files for the PAEC. Notes: Folder 8 includes performance reviews of other staff members. This folder was moved to box 93 and is restricted until 2075.

The floppy discs and CD-Roms are restricted for preservation reasons.

Box 89	Information related to career appointment, 1975-2011 2 Folders
Box 89	Financial reports, 1983-2010 Includes 1 floppy disc containing SI-1085 form: Confidential Statement of Employment and Financial Interests. Notes: The floppy disc is restricted for preservation reasons.
Box 89-90	Performance plans and reviews, 1993-2007 9 Folders Includes hard copy of Ortner's plans and evaluation summaries for 1990-1991 with digital surrogates on 2 floppy discs. Notes: The floppy discs are restricted for preservation reasons.
Box 90	Awards, 1967-2003
Box 90-91	Travel, 2000-2012 12 Folders
Box 91	Ortner family history, undated
Box 91	Who's Who in America biographical data form, 1995
