Administrative Information

Provenance

Received from Leroy W. Tilton, Executor of the estate of Newton J. Darden, August 15, 1955.
There are no legal restrictions on the disposal of this material.

Citation

Manuscript 4471, National Anthropological Archives, Smithsonian Institution

Scope and Contents

Uncompleted Manuscript. Almost entirely a compilation of astronomical, geological, paleontological and anthropological data from published sources. The definition of God mentioned in the title is a very minor part of the work, which seems to contain little, if any, original philosophical or religious thought. Also notes and extracts from published sources on natural history and history of mankind, including considerable data relating to the history and development of the calendar.
