Citation

Manuscript 836-g, National Anthropological Archives, Smithsonian Institution

Scope and Contents

The 3 page vocabulary is dated 1872, with "Oraibi" written at the top. Contains numbers and miscellaneous phrases.

The 21 page vocabulary has the same text of Manuscript 1795a, volume 6, but is a later copy as it contains additional entries and distinguishes the vowel u, which Manuscript 1795a does not.

The 2 page vocabulary was formerly filed with Ute Manuscript 829, but was transferred to Hopi January 1968 on identification as Hopi by Donald Fowler. Titled "Shinumo," it contains only pronouns and numbers.
