Biographical Note

The Space Suit Android was built by ITT under contract to the National Aeronautics and Space Administration (NASA). NASA's Manned Spaceflight Center, Crew Systems Division, used the android to test and evaluate space suit designs and related equipment for mobility and operational stress. The android was later considered by the United States Air Force for use in its bionics program.

Scope and Content

This collection consists of engineering drawings for the android and related gear.

Arrangement

Alphabetical Order.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Androids
- Astronautics
- Space suits

Types of Materials:

- Drawings

Names:

- International Telephone and Telegraph Corporation
- United States. National Aeronautics and Space Administration
