## Administrative Information

### Acquisition Information

NASA Langley Research Center, Transfer, 1989, 1990-0077

### Restrictions

No restrictions on access

### Conditions Governing Use

Material is subject to Smithsonian Terms of Use. Should you wish to use NASM material in any medium, please submit an Application for Permission to Reproduce NASM Material, available at [Permissions Requests](#)

---

## Biographical / Historical

NASA Ames Research Center and Honeywell, Inc. (contractor), developed the Demonstration Advanced Avionics System (DAAS) in 1981. The DAAS was a single, integrated, computer controlled system built to replace the various computer systems in aircraft.

---

## Scope and Contents

This collection consists of documents which were part of a collection of DAAS hardware donated to the National Air and Space Museum.
