### Restrictions

No restrictions on access

### Conditions Governing Use

Material is subject to Smithsonian Terms of Use. Should you wish to use NASM material in any medium, please submit an Application for Permission to Reproduce NASM Material, available at [Permissions Requests](#)

---

## Biographical / Historical

In the late 1960s, Lockheed Missiles and Space Company had a contract with the Manned Spacecraft Center, NASA, to conduct parametric analyses of various escape devices (with emphasis on a three-man, single purpose escape system) for the Apollo Project.

---

## Scope and Contents

This collection consists of a set of manuals for the following two series: "Lunar Mission Safety and Rescue" (1970 -1971); and "Emergency Earth Orbital Escape Device Study" (1968-1971). There are also a few additional items relating to the patent of the Emergency Earth Orbital Escape Device.
