## Biographical / Historical

Aerocar, Inc. was founded by Moulton B. "Molt" Taylor to produce the Aerocar aircraft he designed. The company was officially incorporated in 1951 and Taylor received official Civil Aviation Authority (CAA) Type Certificate approval for the Aerocar in 1956. Taylor then began searching for a manufacturer for the Aerocar. A contract was signed in 1961 with Ling-Temco-Vought, but it ultimately fell through. Some examples of the Aerocar were built and used as demonstrator models, but the aircraft never entered production.

## Scope and Contents

This collection contains materials relating to Aerocar, Inc. including correspondence to shareholders, which contains financial information, from Moulton B. "Molt" Taylor (president); a letter to Mr. and Mrs. Dickson Porter Hill (shareholders) from Theolynn Aune (wife of Harold Aune, one of the company's directors) discussing procurement of a contract for production of the Aerocars; a news clipping; an advertisement for a scale model Aerocar toy; and two stock certificates for five shares each.

---

## Arrangement

Collection is in original order.

---

## Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Aeronautics
- Aircraft industry
- Airplanes

Types of Materials:

- Correspondence
- Financial records

Names:

- Aerocar, Inc.
