Biographical / Historical

The National Advisory Committee for Aeronautics [NACA], created by act of Congress, 3 March 1915, and its successor, the National Aeronautics and Space Administration [NASA] operate an aeronautical research center on Langley AFB, Hampton, VA. Work at the Langley Research Center has ranged over a wide variety of aeronautical subject intended to extend performance, efficiency, and capability of aircraft. Operations at Langley extend from theoretical and wind-tunnel experiments through full scale flight testing.

Scope and Contents

This collection consists of original aircraft, engine, and equipment log books of aircraft operated by NACA and NASA from Langley Research Center. Each log represents a history of the aircraft/engine/equipment from its manufacture, through its pre-NACA/NASA service, and during its operation by that agency.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Aeronautics
- Aeronautics, Military
- Aeronautics, Military -- Research
- Airplanes -- Flight testing
- Airplanes -- Motors
- Wind tunnels

Types of Materials:

- Logs (records)

Names:

- National Aeronautics and Space Administration. Langley Research Center
- United States. National Advisory Committee for Aeronautics
- United States. National Aeronautics and Space Administration
