### Restrictions

No restrictions on access

### Conditions Governing Use

Material is subject to Smithsonian Terms of Use. Should you wish to use NASM material in any medium, please submit an Application for Permission to Reproduce NASM Material, available at [Permissions Requests](#)

---

## Biographical / Historical

During the 1960s and 1970s there was an effort to establish a program to produce a supersonic transport in the United States. William Scholl Whitehead of the firm Ives, Whitehead and Co., was heavily involved in this endeavor.

---

## Scope and Contents

The collection consists of correspondence, reports, brochures, articles and a scrapbook dealing with this effort. Much of the correspondence is concerned with efforts to obtain support and funding for the project from private industry and the United States Congress. The scrapbook, with index, is a collection of newspaper and magazine clippings about the SST project and includes technical, political, financial and public relations articles.
