## Biographical / Historical

Charles Francis Ritchel was a mechanic and general inventor, who by the mid-1880s claimed to have obtained 150 patents on such devices ranging from windup toy motors, to his boring machine used in the manufacture of brushes, to his airship experiments.

---

## Scope and Contents

This scrapbook consists of material relating to Ritchel's flights and activities between 1878 and 1901, including his patent for propelling an airship by foot pedals. Also included are articles relating to his other inventions.

---

## Arrangement

Collection is in original order.

---
