## Administrative Information

### Restrictions

The majority of the Archives Department's public reference requests can be answered using material in these files, which may be accessed through the Reading Room at the Steven F. Udvar-Hazy Center in Chantilly, Virginia. More specific information can be requested by contacting the [Archives Research Request](#).

---

## Scope and Contents

The [Technical Reference Files](#) comprise an artificial collection that currently contains 1,900 cubic feet of aviation and space related materials, organized in 22 subject series. File materials include photographs, press releases, clippings, correspondence, reports, and brochures, on individuals, organizations, events, and objects.

---

## Accessories

Accessories and components which support air-breathing engines; also fuels, coolants, and lubricants.

---

## Engines

Air-breathing engines. (Other power plants for aircraft (including rocket motors) are filed under the Space Propulsion subseries.)

## Propellers

Specific models, listed by designer or manufacturer; also general topics.

---

## Space Propulsion

All methods of spacecraft propulsion (even "passive" concepts such as the Solar Sail), spacecraft power sources (such as solar batteries and fuel cells), all rocket motors (including those used to power aircraft and other vehicles), and all accessories and components.

---
