Collection Overview

Repository:	Archives Center, National Museum of American History
Title:	Howe Scale Company Records.
Date:	1868 - 1963
Identifier:	NMAH.AC.0004
Creator:	Howe Scale Co.
Extent:	32 Cubic feet (77 boxes)
Language:	English .

Administrative Information

Provenance

Collection transferred from the Division of Physical Sciences (now known as the Division of Medicine and Science), February 3, 1983.

Other Finding Aids

Inventory available; contact the Archives Center for more information.

Processing Information

Processed by Robert S. Harding, archivist, June 1984; revised C. A. Orr, archivist, 11 23 88 ; revised Robert S. Harding 11/96

Preferred Citation

Howe Scale Company Records, Archives Center, National Museum of American History

Restrictions

Collection is open for research.

Conditions Governing Use

Collection items available for reproduction, but the Archives Center makes no guarantees concerning copyright restrictions. Other intellectual property rights may apply. Archives Center cost-recovery and use fees may apply when requesting reproductions.

Biographical / Historical

The original inventor of the Howe Scale was Frank M. Strong of Vergennes, Vermont. In 1855 while working for the Sampson Scale Company of Vergennes, he conceived of the idea of ball bearing protection for the scale. In 1856, along with Thomas Ross, Strong obtained the first patent.

The lever system was also simplified. This problem of accuracy led to a new ball bearing principle. The Strong and Ross improvement concerned a method for protecting the knife edges.

"A scale weighs by means of a system of levers. The fulcrum, or balancing support of this system is the sharp edge of a piece of steel called a pivot, on which the platform of the scale rests. When a load is placed

on the platform the impact causes it to shift about on the pivots. This action tends to blunt the sharp edge of these pivots and affects the accuracy of the scale."

Frank Strong conceived of the idea of placing the scale platform on metal balls resting in cup shaped depressions over the knife edged pivots. This enabled the platform to move freely, absorb vibrations, reduce wear on the pivots and insure longer accuracy expectation of the scale. This invention became the first outstanding scale improvement in America, and was the real foundation of the present business.

The first scale with the new improved ball bearing was installed at Vernon Village Mills in Oenida County, New York in 1856. In 1857 the installation of a gigantic scale on the Morris Canal, Washington, New Jersey, for weighing canal boats was completed. The scales also took first premium at the Vermont State Fair in 1857 and 1858, competing with older and better known scales.

Also in 1857, Mr. John Howe, Jr., who owned a foundry at Brandon, lent financial assistance and in the Spring purchased all the patents taken out by Strong and Ross. The two partners remained with the company on a salary and royalty basis.

In 1858 the Howe Scale Co. began to win awards consistently at fairs and exhibitions throughout the country. By 1859 the Howe Scale Company had no competition at these annual events. At the Paris Exposition in 1867 Howe Scale took first prizes competing against all the manufacturers of the world.

In 1868 the Brandon Manufacturing Company was incorporated. The name was subsequently changed and the company merged into the Howe Scale Company in November, 1878. In 1873 Howe began manufacturing hand trucks as a utility measure to facilitate handling of scales and parts within the factory.

However, that same year 1873, proved disasterous. The warehouse, dryhouse, and office of the company was destroyed by fire. The company moved to Rutland.

In 1886 there was a general reorganization of the Howe Scale Company. The newly reorganized company was incorporated as the Howe Scale Company of 1886. John A. Mead of Rutland became president. A new Board was formed and held its first meeting in August of 1888. In 1920 Mead died and his son in law, Carl B. Hinsman was elected president. In 1925 the Mead interests were purchased by another management group, and Frank G. Riehl became head of the company. The new management purchased rights for the weightograph, a device which produces weight readings on a ground glass screen by means of optical magnification. This was one of the greatest innovations in weighing improvements since the original Strong and Ross patent.

Scope and Contents

These records, 1868 1963, include records of various companies some of which eventually merged into the Howe Scale Company. Included are corporate records: minutes, charters, legal documents, stock certificate books, and correspondence; sales records: newsletters, inter branch correspondence, catalogs and price lists; financial records: ledgers, journals; cash books, inventories, reports, trial balances with recapitulations; photographs; specifications; and news clippings. The 32 cubic feet of material is housed in 15 Paige boxes, 6 Hollinger boxes, and 44 volumes.

There is also a collection, the Howe Scale Company Papers, 1856 1961, at the Special Collections, Bailey Howe Library of the University of Vermont.

Arrangement

The collection is divided into six series.

Series 1: Corporate Records, 1868-1953

Series 2: Sales Records, 1928-1960

Series 3: Financial Records, 1883-1928

Series 4: Photographic Scrapbooks, 1887-1925

Series 5: Specifications, 1890-1927

Series 6: Clippings, 1953-1971

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

Scales (Weighing instruments)

Types of Materials:

Cashbooks

Charters

Clippings

Correspondence -- 1930-1950

Inventories

Journals (accounts)

Ledgers (account books)

Legal documents

Minutes

Newsletters

Photographs -- 20th century

Sales records

Specifications

Stock certificate books

Names:

Ross, Thomas

Strong, Frank M.

Places:

Vermont

Container Listing

Series 1: Corporate Records, 1868 - 1953

Language: English.

Subseries 1.1: Howe Scale Company (and predecessors)

Box 1

Box 1	Minutes and Charters, 1868 - 1926
-------	-----------------------------------

Box 1	Stock Certificate Records, 1878 - 1916
-------	--

Box 2	1.2: Misc. Corporate Records (Loose papers, including legal documents, correspondence, announcements, and minutes of stockholder meetings), 1880s - 1950s
-------	---

Subseries 1.3: Rutland Manufacturing Company

Box 3

Box 3	Stock Certificate Book, 1902 - 1927
-------	-------------------------------------

Box 3	Check Register, 1927 - 1928
-------	-----------------------------

Subseries 1.4: Richardson Scale Company

Box 3

Box 3	Minutes of Stockholders' Meetings, 1907 - 1953
-------	--

Box 3	Stock Certificate Book, 1908 - 1951
-------	-------------------------------------

Subseries 1.5: Vermont Scale Company

Box 3

Box 3	Stock Certificate Book, 1891 - 1911
-------	-------------------------------------

Series 2: Sales Records, 1928 - 1963

Language: English.

Box 4	The Scalesman (Company Newsletter), 1928 May - 1933 December
Box 5	The Scalesman, 1934 October - 1940 November
Box 6	The Scalesman , 1941 January - 1944 December

Inter Branch Correspondence (Memoranda, bulletins, announcements, from central office to branch sales offices and to various departments)

Box 7

Box 7	Inter Branch Correspondence, 1927 May 24 - 1933 December 21
Box 7	Inter Branch Correspondence, 1943 August 02 - 1946 November 22
Box 7	Inter Branch Correspondence, 1953 January 08 - 1954 August 11
Box 7	Inter Branch Correspondence, 1954 August 16 - 1956 February 28

Catalogs and Price Lists

Box 8

Box 8	Howe Richardson Scale Co. Products Manual, 1962 - 1963
Box 8	Howe Scale Co. Catalog #53 (with open house schedule for visiting personnel from the Canadian Fairbanks Morse Company, Ltd.), 1960 December 14-15
Box 8	Howe Trucks Catalog #15
Box 8	Howe Scales: Electrical Products Catalog, 1957 - 1959
Box 8	Howe Scales Price List: Catalogs #46 and #48

Box 9	Howe Scale Order Book: The Use, Abuse and Proper Care of Scales, Howe Scale Co., Vermont, U.S.A. [Leaflet]
Box 9	Howe Scale Company Labels
