Summary:	A New York bookseller, Warshaw assembled this collection over nearly fifty years. The <i>Warshaw Collection of Business Americana: Books</i> forms part of the Warshaw Collection of Business Americana, Subseries 1.1: Subject Categories. The Subject Categories subseries is divided into 470 subject categories based on those created by Mr. Warshaw. These subject categories include topical subjects, types or forms of material, people, organizations, historical events, and other categories. An overview to the entire Warshaw collection is available here: Warshaw Collection of Business Americana

Administrative Information

Acquisition Information

Books is a portion of the Business Ephemera Series of the Warshaw Collection of Business Americana, Accession AC0060 purchased from Isadore Warshaw in 1967. Warshaw continued to accumulate similar material until his death, which was donated in 1971 by his widow, Augusta. For a period after acquisition, related materials from other sources (of mixed provenance) were added to the collection so there may be content produced or published after Warshaw's death in 1969. This practice has since ceased.

Processing Information

In 2016, with funding provided by the Smithsonian Institution's Collections Care and Preservation Fund, the Archives Center at the National Museum of American History implemented the use of minimal level processing standards to increase information about and facilitate access to more of our collections. A large portion of stored material from the original acquisition received minimal level processing, which resulted in additions to this Subject category. This effort included basic arrangement and replacement of non-archival housing for long-term stability, but staples and other fasteners have not all been removed. Revisions to the encoded finding aid were made to reflect the added content in context to the previously processed material.

Minimal level processing and enhancement of the machine-readable finding aid completed by Nicole Blechynden, September 2017.

Scope and Contents

This subject category- Books consists primarily of receipts, invoices, samples, sample books, publications, and advertisements relating to paper products and the paper industry. There are industry-related materials, several catalogs, and publications detailing the history or elements of papermaking. The material also includes patents, import/export documents, information regarding papermaking machinery and supplies, and industry-related correspondence. There are advertisements for books from publishers and distributors. Some of these companies published religious books relating primarily to the bible. There are also books relating to historical subjects. Educational materials include text books, encyclopedias and school books. Books for various organizations like the Masons. A few of the companies were involved in mail order publications. Import Export documents relate mostly to import of books from the Medical Library of the Pennsylvania Hospital, 1862
