## Administrative Information

### Acquisition Information

Hospitals is a portion of the Business Ephemera Series of the Warshaw Collection of Business Americana, Accession AC0060 purchased from Isadore Warshaw in 1967. Warshaw continued to accumulate similar material until his death, which was donated in 1971 by his widow, Augusta. For a period after acquisition, related materials from other sources (of mixed provenance) were added to the collection so there may be content produced or published after Warshaw's death in 1969. This practice has since ceased.

## Processing Information

Oversize material is unprocessed.

## Processing Information

In 2016, with funding provided by the Smithsonian Institution's Collections Care and Preservation Fund, the Archives Center at the National Museum of American History implemented the use of minimal level processing standards to increase information about and facilitate access to more of our collections. A large portion of stored material from the original acquisition received minimal level processing, which resulted in additions to this Subject category. This effort included basic arrangement and replacement of non-archival housing for long-term stability, but staples and other fasteners have not all been removed. Revisions to the encoded finding aid were made to reflect the added content in context to the previously processed material.

Minimal level processing and enhancement of the machine-readable finding aid completed by Nicole Blechynden, September 2017.

## Scope and Contents

This material consists primarily of receipts, scattered correspondence on letterhead stationery, annual reports, pamphlets, brief histories, reports of cases treated, and announcements from various hospitals, dispensaries, sanitariums, and infirmaries. A number of the institutions are pictured on their publications or correspondence. The material dates from 1801 to 1958, but the bulk is late nineteenth century.

Materials in box one and a portion of box two are arranged alphabetically by name of the institution with the location and dates when available. Also included in box two are miscellaneous materials such as forms from suppliers of hospital equipment. There are also blank hospital forms printed in German.
