## Administrative Information

### Acquisition Information

Insurance is a portion of the Business Ephemera Series of the Warshaw Collection of Business Americana, Accession AC0060 purchased from Isadore Warshaw in 1967. Warshaw continued to accumulate similar material until his death, which was donated in 1971 by his widow, Augusta. For a period after acquisition, related materials from other sources (of mixed provenance) were added to the collection so there may be content produced or published after Warshaw's death in 1969. This practice has since ceased.

## Processing Information

Oversize material is unprocessed.

## Processing Information

In 2016, with funding provided by the Smithsonian Institution's Collections Care and Preservation Fund, the Archives Center at the National Museum of American History implemented the use of minimal level processing standards to increase information about and facilitate access to more of our collections. A large portion of stored material from the original acquisition received minimal level processing, which resulted in additions to this Subject category. This effort included basic arrangement and replacement of non-archival housing for long-term stability, but staples and other fasteners have not all been removed. Revisions to the encoded finding aid were made to reflect the added content in context to the previously processed material.

Minimal level processing and enhancement of the machine-readable finding aid completed by Nicole Blechynden, September 2017.

## Fire Insurance Maps, 1873-1896

### 3 Boxes

**Related Materials:** Researchers interested in additional Barlow maps pertaining to the textile mills and related industries should consult the Merrimack Valley Textile Museum in North Andover, Massachusetts. The Museum has produced a geographical listing of its holdings.

The Baker Library of Harvard's Graduate School of Business Administration holds about 1,600 maps and has produced a name index for its holdings.

Another 25 maps are in the New York State Library. Both the Baker collection and the Merrimack Valley Textile Museum's collection originally came from the Warshaw Collection before the Smithsonian Institution purchased it.

**Arrangement:** Maps are arranged in alphabetical order by name of company.

**Scope and Contents:** Fire Insurance Maps were designed to assist insurance companies assess the risk of manufacturing companies. A large majority of these maps were published by the Barlow Company. The insurance maps include the name of the company, location, a description of their foundries, interior features, fire appliances, manufacturing processes, and a diagram of each company.
