Collection Overview

Repository:	Archives Center, National Museum of American History
Title:	Samuel Morse Felton Family Papers
Date:	1841-1930, undated
Identifier:	NMAH.AC.0170
Source:	National Museum of American History (U.S.). Division of Transportation
Creator:	Felton, Samuel Morse, 1809-1889 (civil engineer) (Creator) Felton, Samuel Morse, 1853-1930 (son) (Creator)
Extent:	0.3 Cubic feet (2 boxes)
Language:	English .
Summary:	Papers of Samuel Morse Felton, civil engineer and railroad president, and his family.

Administrative Information

Acquisition Information

Immediate source of acquisition unknown.

Provenance

Collection transferred to the Archives Center from the Division of Transportation (now Division of Work and Industry) on July 3, 1985.

Processing Information

Robert S. Harding 9/91, David Haberstich, Revised 11/28/05, David Haberstich, Revised 5/19/06

Preferred Citation

Samuel Morse Felton Family Papers, 1841-1930, Archives Center, National Museum of American History.

Restrictions

Collection is open for research.

Conditions Governing Use

Collection items available for reproduction, but the Archives Center makes no guarantees concerning copyright restrictions. Other intellectual property rights may apply. Archives Center cost-recovery and use fees may apply when requesting reproductions.

Biographical / Historical

Samuel Morse Felton (1809 1889), civil engineer, became Superintendent and engineer of the Fitchburg Railroad in 1843 and left in 1851 to become President of the Philadelphia, Wilmington and Baltimore Railroad

(PWBRR). Under Felton's able management this unsuccessful and financially failing railroad was rebuilt, restored and prospered. The road was of great strategic importance during the Civil War and performed a great service by transporting troops and supplies for the Union. In 1857, he installed the locomotive engine "Daniel Webster" in service on the PWBRR. It was probably the first really successful coal burning passenger engine in regular service upon any RR in the U.S. In 1865 he left the PWBRR to become President of the Pennsylvania Steel Company. This was the first attempt in the United States to manufacture steel rails as a commercial enterprise. During this period he also served as director of many railroads including the Philadelphia, Wilmington & BRR, the Lehigh Coal & Navigation Co., the Northern Pacific, the Ogdensburg & Lake Champlain and several others. He was director for ten years of the Pennsylvania RR. In 1869 he was appointed by President Grant as a Commissioner to inspect Pacific Railroads.

His son, Samuel Morse Felton (1853-1930), followed in this father's footsteps. He graduated from MIT in 1873 and began a life long career in American railroading. In 1889 he became President of the Chicago and Alton Railroad, later assumed the Presidency of the Mexican Central Railroad, and became President of the Chicago Great Western Railroad in 1909. During WWI he was appointed Director General of Military Railways and in that capacity had charge of the organization and dispatch to France of all American railway forces and supplies. He continued in that position during the World War years. By 1928 he was Chairman of the Board of the Chicago Great Western Railroad, President of the Western Railroad Association, and Chairman of the Western Association of Railway Executives, to name only a few of his positions. At his death he was an advisor and associate of the Central Trust Company of Illinois.

Scope and Contents

This collection contains biographical material on both Feltons; a handwritten bound report by Felton on the construction of the Norfolk Co. Railroad, 1847-1849; correspondence, 1861-1927, to and from both Feltons; various reports on military railroads during the World War years; and news clippings and articles on the Feltons, 1889-1930.

Arrangement

Collection divided into five series.

Series 1: Biographical, 1841-1921

Series 2: Correspondence, 1861-1927

Series 3: Reports, 1847-1919

Series 4: History of Transportation Department, undated

Series 5: News clippings, 1889-1930

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Business records -- 1840-1930
- Civil engineers
- Railroads
- Slavery -- United States
- Transportation

Types of Materials:

Clippings -- 1840-1940
Correspondence -- 1840-1930
Reports
