Biographical / Historical

The Blenkle Collection of Postcards was collected by Dr. Victor A. Blenkle, who lived in New Jersey. Little was known about Dr. Blenkle until Ms. Lorraine Clemente, his great-niece, supplied biographical information in 2006. All relevant curators involved in this acquisition are now deceased. Through processing, some conclusions were reached based on evidence contained within the collection itself.

Victor A. Blenkle (born December 15, 1900; died April 15, 1978) was one of six children; his siblings were Ferdinand, Herbert, Albert, Helene, and Julius. His parents, Ferdinand and Bertha, probably emigrated to the United States from Germany in the 1890s (his father was born in 1871). Victor Blenkle practiced medicine in Teaneck, N.J., where he was affiliated with Holy Name Hospital; his wife’s name was Elsie. Blenkle was active in medical organizations and was a founder of Family Practice of New Jersey. He served in both World Wars, attaining the rank of lieutenant colonel. Many of the postcards in this collection were from Blenkle’s patients, as well as family members. (Ms. Lorraine Clemente, great-niece of Victor Blenkle, supplied biographical information in 2006.)

We do not know when Dr. Blenkle began collecting postcards, but cards sent to him or with what appears to be his handwriting begin in the 1920s. It seems as if Blenkle also either purchased or traded for collections that were originally owned by others. For example, within the overall Blenkle collection, there are three smaller groups of cards of earlier origin. Some of these include the earliest materials in the collection, dating from the late 1880s and 1890s. These three smaller groups include a group of cards sent to (and some sent by) a Reverend Leach in Noroton, Connecticut who was a Lutheran minister. He also apparently ran some kind of a Bible study by mail program and so received a number of cards from those interested in the Bible. Another group of cards sent to addresses in Elgin, Illinois and other related Midwestern locations by members of an extended family and some of their friends between about 1895 and 1910. A third set of cards includes smaller group of cards sent by a group of family and friends in Wisconsin, apparently centering on Milwaukee. All of these include messages written on front or back and postmarks.

Scope and Contents

The Blenkle Collection consists of 29 boxes of postcards, principally about geographical locations, landmarks, monuments and other buildings of interest around the world. The bulk of the cards are about the United States and Western Europe, but countries in 6 continents are represented. The earliest cards included date from the late 1880s and the latest card date from the mid-1970s. The cards are arranged in alphabetical order by state name, name of country, and then specific locations.

Arrangement

The collection is divided into four series:
Series 1 includes 16 boxes of cards about geographical locations within the United States. These cards are organized first by state in alphabetical order, secondly by city or place name (for example, Grand Canyon). Cities or locations with fewer than three postcards are arranged into general categories such as "Cities". Cards with no clear location are grouped by illustrated subject, such as "Winter Scenes."

Series 2 consists of 9 boxes of cards about places outside the United States. These cards are in alphabetical order by name of country, and then by city, location or geographical name, also in alphabetical order. The names of countries are used as listed on the card. For example, most of the German cards appear to date from before the division into East and West Germany, consequently, the name is listed as Germany, with no regard for the location of a place between 1945 and 1990.

Series 3 consists of 4 boxes of cards organized by subject. These are the only cards without specific geographical locations.

Series 4 consists of 1 box of cards and letters written by Dr. Blenkle or what appear to be members of his family.

Divided into 3 series: (1) U.S.A., (2) Foreign (mostly Europe), (3) Subjects. Arranged geographically and alphabetically.

[Macaws with woman in Parrot Jungle, Miami, Florida. Picture postcard.]

1 Item (color; 3.5" x 5.5").

Image(s)

Teich, Curt, 1877-1974, Publisher
West, Thomas R., Photographer?

Image: color photomechanical reproduction, derived from a photograph of a woman leaning on a tree with macaws surrounding her. She seems to be portrayed as dark olive-skinned and dark-haired, possibly suggesting she is Latina, unique within postcards of Florida in this collection, in which women are typically blonde. The original image, reproduced on this card, was hand-colored, however. Caption: "This natural jungle is one of unspoiled tropical beauty. Here you will see wild orchids and other air plants, giant cypress, many varieties of palm and cacti, the strangler fig, and uncounted specimens of native and exotic flora." Imprints: DL-72--Thomas R. West, Miami, Fla." "Genuine Curteich-Chicago "C.T. Art-Colortone" post card (Reg. U.S. Pat. Off.) Also imprinted with bus and driving directions, with motto "Where Macaws fly free, Yet / feed from your hand."
