## Biographical / Historical

Clyde E. Learned (1885-?) was the senior highway engineer for the U.S. Bureau of Public Roads, District Three, during the years 1919-1939. He was later a design engineer for the Public Roads Administration, Division Nine, in 1949.

---

## Scope and Contents

Material prepared for the U.S. Bureau of Public Roads relating to highway construction, mostly in Colorado but also Wyoming and New Mexico. Includes construction reports on the Monarch Pass Road (1919), and the Berthoud Pass Project (1927); maintenance and post-construction operations reports (1934-35); general reports of day labor operations (1931-39); and a report on a proposed snow removal system for Yellowstone National Park (1949). All of these reports include charts and photographs.
