Scope and Contents

The Politics and Political Movements series contains circa 1,565 pieces of sheet music and song folios documenting the political history of the United States. The two largest subseries by far are Patriotic Music (5.1) and Politicians and Political Figures (5.2). Although some political campaign songs are in 5.3, most of this material is placed in 5.2 under the name of the individual politician.

Although the several subseries devoted to specific political movements are much smaller than the first two subseries, there are some impressive sections here as well. The Ku Klux Klan material evidences that organization's popularity in the midwest and west during the 1920s and its preoccupation with the dangers of immigrants and new European political ideologies. There is also a sizable gathering of prohibition and temperance materials. The prohibition songs offer both pro and con arguments about "voting dry."

The material dates from circa 1817 to 1982. Most pre-1840 imprints are not dated. Estimates have been made for the dates of many early imprints by checking publisher and address of the publisher in the "Index of Publishers, Engravers and Printers" in volume III of Richard Wolfe's *Secular Music in America 1801-1825: A Bibliography* and in Harry Dichter and Elliott Shapiro's *Handbook of Early American Sheet Music, 1768-1889*.

The Ephemera file, arranged in the same subseries as the sheet music, is described on page 13. The Politics and Political Movements ephemera file is placed in one document box and numbered with the same series and subseries numbers as the sheet music.

The seven subseries in the Politics and Political Movements series are arranged with the two major subseries placed first and the subseries on various political movements following in alphabetical order.
