## Collection Overview

|                    |  |
|--------------------|--|
| <b>Repository:</b> | Archives Center, National Museum of American History   |
| <b>Title:</b>      | Electricity and Modern Physics Photonegatives  |
| <b>Date:</b>       | 1890 - 1930  |
| <b>Identifier:</b> | NMAH.AC.0715   |
| <b>Creator:</b>    | National Museum of American History (U.S.). Division of Information, Technology and Society (Creator)  |
| <b>Extent:</b>     | 6 Cubic feet (34 boxes)  |
| <b>Language:</b>   | Collection is in English. Some materials in French and Slovak.   |
| <b>Summary:</b>    | Photographic negatives and some glass plate negatives depicting subjects relating to the Division of Electricity and Modern Physics' artifact collections and research interests. Negatives include portrait photographs of engineers (Marconi, Tesla, Bell, and Zworykin), images of radios, telegraphy equipment, and phonographs. |

---

## Administrative Information

### Acquisition Information

Source unknown. Found in collections.

### Provenance

Transferred to Archives Center from the Division of the History of Technology (now the Division of Work and Industry) in 2000.

### Related Materials

#### **Materials held in the Archives Center, National Museum of American History**

George H. Clark Radioana Collection, circa 1880-1950 (AC0055)

Thomas Alva Edison Photo Prints, 1890s-1933, (AC0299)

Kenneth M. Swezey Papers, 1891-1982 (AC0047)

### Processing Information

Processed by Yauntilaa Lancaster, intern, Ramona Williamson, volunteer, Erin Molloy, volunteer; supervised by Vanessa Broussard Simmons, archivist, 2012. Finding aid written by Alison Oswald, archivist, 2012.

### Preferred Citation

Electricity and Modern Physics Photonegatives, 1898-1953, undated, Archives Center, National Museum of American History.

## Restrictions

Collection is open for research but the photonegatives are stored off-site and special arrangements must be made to work with it. Contact the Archives Center for information at archivescenter@si.edu or 202-633-3270.

## Conditions Governing Use

Collection items available for reproduction, but the Archives Center makes no guarantees concerning copyright restrictions. Other intellectual property rights may apply. Archives Center cost-recovery and use fees may apply when requesting reproductions.

---

## Scope and Contents

Photographic negatives and some glass plate negatives depicting subjects relating to the Division of Electricity and Modern Physics' artifact collections. Negatives include portrait photographs of engineers (Marconi, Tesla, Bell, and Zworykin), images of radios, telegraphy equipment, radio equipment, inventors, and phonographs. The Radio Corporation of America (RCA) engineers and some equipment are especially well represented. Many of the negatives are unidentified and undated.

---

## Arrangement

The collection is arranged into one series and are arranged by topics. The folder titles in the container list were taken from the image enclosures.

---

## Physical Characteristics and Technical Requirements

Gloves must be worn when handling unprotected photographs, negatives, and glass plates. The collection is in cold storage. Arrangements must be made with the Archives Center staff two weeks prior to a scheduled research visit.

---

## Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

### Subjects:

- Engineers
- Phonograph
- Radio -- Apparatus and supplies
- Radio -- History
- Telegraph, Wireless

### Types of Materials:

- Black-and-white negatives

### Names:

- Bell, Alexander Graham, 1847-1922
- Edison, Thomas A. (Thomas Alva), 1847-1931
- Farnsworth, Philo Taylor, b. 1906

Marconi, Guglielmo, Marchese, 1874-1937  
Marconi, Maria, Marchesa  
Radio Corporation of America.  
Tesla, Nikola, 1856-1943

---
