Biographical / Historical

Born in Washington, D.C., W. Royal Stokes served in the Army and then embarked on an academic career, teaching at the University of Pittsburgh, Tufts University, Brock University and the University of Colorado. He left the academic profession in 1969 and became a writer, broadcaster and lecturer, journalist, and critic and authority on jazz music. A follower of jazz since his teens in the 1940s, Stokes has written about music for such publications as *Down Beat*, *Jazz Times*, and the *Washington Post*, and hosted the public radio shows "I Thought I Heard Buddy Bolden Say . . ." and "Since Minton's". Today he is the editor of the quarterly *Jazz Notes*, and is the author of *The Jazz Scene: An Informal History From New Orleans to 1990* and *Swing Era New York: The Jazz Photographs of Charles Peterson*. He is also the author of *Living the Jazz Life: Conversations with Forty Musicians about Their Careers in Jazz* (Oxford; New York: Oxford University Press, 2000). Dr. Stokes lives in Silver Spring, Maryland.

Scope and Contents

This collection was formed by W. Royal Stokes in the course of his professional work as a music and arts critic. It is composed primarily of publicity portraits of musical performers, both single acts and groups. The emphasis is on jazz musicians and singers, although many rock stars and groups, and other popular musical performers are included. Even a few classical musicians are represented. The pictures are primarily mass-produced black and white publicity photographs distributed to newspapers, writers, etc., by agents for entertainment personalities. Some prints were made from the original negatives, while others clearly were made from copy negatives after typography was stripped together with a print and re-photographed. However, there are some rarer original photographs included in the collection, such as personal color snapshots, higher quality prints by art photographers, etc. Nearly all the prints are unmounted, and are 8 x 10 inches or smaller in size. The bulk of the photographs date from circa 1970 to 2000, however, a number of the earlier photographs are included as well as slightly later examples.
