Biographical / Historical

Dr. Mary E. Green, a professor in the Food and Nutrition Division of the School of Economics at Ohio State University, studied and collected documentation and artifacts pertaining to the home preservation of food.

Scope and Contents

This collection contains printed materials on various aspects of food preservation, which includes canning, pickling, freezing, and other methods. Recipe books, instruction manuals, posters, brochures and pamphlets issued by the U.S. Department of Agriculture, by manufacturers of food products, and by manufacturers of canning and preserving products and devices; also newsletters published by bottle and jar collecting hobby groups. A large percentage of the publications in the collection were published during World War II, and relate to preserving food to ensure an adequate food supply during the war years.

Arrangement

The collection is arranged into four series.
