The collection was created by Jerome and Dorothy Lemelson Center for the Study of Invention and Innovation, National Museum of American History.

## Provenance

Transferred by the Lemelson Center to the Archives Center in 2011.

## Processing Information

This is an unprocessed collection.

## Preferred Citation

Food for Tomorrow Symposium Documentation, 2010, Archives Center, National Museum of American History.

## Restrictions

The collection is open for research.

## Conditions Governing Use

Collection items available for reproduction, but the Archives Center makes no guarantees concerning copyright restrictions. Other intellectual property rights may apply. Archives Center cost-recovery and use fees may apply when requesting reproductions.

---

## Biographical / Historical

This two-day program, presented at the Museum in November, 2010, examined the role of invention and innovation in our daily diet, in what we eat and how we eat it, both historically and in the present. The event featured presentations by scholars, inventors, writers, scientists, and others.

---

## Scope and Contents

The collection documents, through audio and video, a symposium held November 5-6, 2010, in the National Museum of American History. The theme of the symposium was the role invention and innovation play in what we eat and how we eat. Panelists discussed the history and future of food and related technologies.

---
