Biographical Note

The National Tribal Chairmen's Association (NTCA) was formally created in Albuquerque July 13th, 1971. Funded in part by contracts with the Department of the Interior and in part by funds from the department of Health Education and Welfare the NTCA was composed of elected chairmen from federally recognized Indian tribes, bands and communities in the United States. The NTCA served as a voice to promote American Indian unity, observation of treaty and other rights, preservation of values, and progress in justice, social standing, education, economic well being, and political influence of all Indians of the United States. The organization no longer exists.

Scope and Contents

The records in this collection came from several offices within the National Tribal Chairman's Association. Most of the files either came from the offices of William Youpee, Executive Director, or Chinzu Toda, who had been loaned to NTCA from the Bureau of Indian Affairs, and contain material relating to the work conducted by the organization. This includes board meeting minutes and transcripts from 1971-1978, correspondence with government organizations such as the Bureau of Indian Affairs and the Health, Education and Welfare departments as well as correspondence with Native American tribes and organizations. Also included are administrative and personnel files which contain information on the various committee's run by NTCA, the "Tribal Chairman's Mailout" and other newsletters, as well as information on individuals and Tribal Leaders who worked with the NTCA. Documents on the NTCA's annual conventions as well as general correspondence and chronological files are also included.

Arrangement

The collection was initially arranged into 24 separate series when it was accessioned at the National Anthropological Archives. NAA staff examined the records and created a folder level listing for all boxes. Using this inventory, staff identified 14 series.
