Smithsonian Institution Archives, Accession 05-007, Smithsonian Astrophysical Observatory. Central Engineering Department, Assignment/Support Requests

Descriptive Entry

This accession consists of Assignment/Support Requests. For projects funded through the Smithsonian Astrophysical Observatory (SAO), the mechanism for formally requesting engineering support is to submit a form called an 'Assignment/Support Request' (ASR). An ASR functions both as an internal purchase order for engineering services, and as a planning document for engineering management. It serves the SAO Controller's Office as a funds obligation document, and the project Principal Investigator or Program Manager as a vehicle both for describing the engineering support required, and for negotiating specific staff assignments and project schedules with the Engineering Manager.
