Descriptive Entry

This accession consists of audiovisual materials created during the production of "Laser 10," a film that accompanied the National Museum of History and Technology exhibition of the same name. The exhibition celebrated the tenth anniversary of the invention of the laser. Materials include narration on 1/4" audiotape and prints on 16 mm film. Also included in this accession are audiovisual materials documenting an infrared telescope experiment at the Smithsonian Astrophysical Observatory. Materials include a dub and dub master, both on 1" magnetic tape.
