Administrative Information

Preferred Citation

Smithsonian Institution Archives, Accession 11-224, Smithsonian Tropical Research Institute, Website Records

Descriptive Entry

This accession consists of the website for the Center for Tropical Forest Science (CTFS) as it existed on July 6, 2011. CTFS is a global network of forest research plots committed to the study of tropical and temperate forest function and diversity. The website includes information about the overall programs and individual plots; research data and scientific methods; bibliographies and lists of resources; grant information; and proceedings from courses and symposia. This accession also includes the blog, "Center for Tropical Forest Science News." Materials are in electronic format.
