## Administrative Information

### Preferred Citation

Smithsonian Institution Archives, Accession 12-564, Smithsonian Institution, Office of the Under Secretary for Science, Website Records

---

## Descriptive Entry

This accession consists of two websites maintained by the Office of the Under Secretary for Science.

The Marine Science Network website, crawled June 5, 2012, provides information about the Smithsonian Institution's network of coastal laboratories and long-term marine research sites as well as research projects, funding, and publications. It also serves as a portal for marine science research across the Smithsonian Institution's websites.

The "MarineGEO: Integrated Ecological Observatories for Changing Marine Ecosystems" website, crawled June 14, 2012, documents the Smithsonian Institution Marine Global Earth Observatories, or MarineGEO, the first global-scale network of ecological observatories dedicated to understanding changes in the structure and function of marine ecosystems. The website includes information about the project, white papers, reports, research abstracts and related materials.

Materials are in electronic format.

---

## Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

### Subjects:

Marine ecology  
Marine laboratories

Marine sciences  
Museums -- Public relations  
Research  
Web sites

Types of Materials:

Electronic records  
Web sites

Names:

Smithsonian Institution. Marine Global Earth Observatories  
Smithsonian Institution. Marine Science Network

Preferred Titles:

*MarineGEO: Integrated Ecological Observatories for Changing Marine Ecosystems (Website)*

## Container Listing

### Electronic Records

Electronic Records	Marine Science Network website, crawled June 5, 2012
Electronic Records	"MarineGEO: Integrated Ecological Observatories for Changing Marine Ecosystems" website, crawled June 14, 2012
