Preferred Citation

Smithsonian Institution Archives, Accession 13-060, Ursula B. Marvin Papers

Descriptive Entry

This accession consists of research papers, lectures, research notes, correspondence, memoranda, manuscripts, photographs, slides from various trips and lectures, clippings, professional activity files, and related materials documenting Ursula B. Marvin's career as a planetary geologist at the Smithsonian Astrophysical Observatory, as well as personal papers and photographs from her childhood and education. Of special note are materials relating to Marvin's research on lunar samples from the Apollo missions and research in Antarctica studying meteorites. Also included are junior high and high school projects documenting her early interest in geology, and original artwork created by Marvin.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Geology
- Meteorites
- Planets -- Geology
- Women scientists

Types of Materials:

- Art objects
- Black-and-white photographs
- Brochures
- Clippings
- Color photographs
- Color transparencies
