Administrative Information

Preferred Citation

Smithsonian Institution Archives, Accession 13-082, Curatorial Records

Descriptive Entry

This accession consists of the records of research zoologist Roy W. McDiarmid and his work at the Patuxent Wildlife Research Center, United States Geological Survey (USGS). McDiarmid's research focuses on the systematics, behavior, ecology, and biogeography of amphibians and reptiles in the Neotropics. Records include graduate work; research projects and publications; special projects, such as workshops, committees, and reviews; and activities with professional societies, including the American Society of Ichthyologists and Herpetologists (ASIH) and the Herpetologists' League (HL). Some materials predate his time with the USGS.

Materials include correspondence, notes, research information, manuscripts, proposals, reports, reviews, maps, illustrations, postcards, newspaper clippings, microfiche, photographs, negatives, and transparencies. Some materials are in electronic format.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Amphibians -- Behavior
- Amphibians -- Geographical distribution
- Ecology
- Herpetologists
- Herpetology

Reptiles -- Behavior
Reptiles -- Geographical distribution
Zoology -- Research

Types of Materials:

Black-and-white negatives
Black-and-white photographs
Black-and-white transparencies
Clippings
Color photographs
Compact discs
Electronic records
Floppy disks
Illustrations
Manuscripts
Maps
Microfiche
Picture postcards
