Title:	Website Records
Identifier:	Accession 13-097
Date:	2012
Extent:	
Creator::	National Science Resources Center
Language:	English

Administrative Information

Prefered Citation

Smithsonian Institution Archives, Accession 13-097, National Science Resources Center, Website Records

Descriptive Entry

This accession consists of the website for the LASER i3 program as it existed on July 17, 2012. Developed by the National Science Resources Center (NSRC), the Leadership and Assistance for Science Education Reform (LASER) Model is a systemic approach to science learning and teaching that addresses classroom instruction using a research-based science curriculum with aligned professional development for teachers and provides the entire support system needed to provide students with excellent and equitable science education. As part of the program, NSRC has partnered with schools in Houston, North Carolina, and New Mexico, both in urban and rural areas, that have significant numbers of students living in poverty. The website provides information both about the program and about the partner schools. Materials are in electronic format.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

Educational planning
Museums -- Public relations
Science -- Study and teaching
Web sites

Types of Materials:

Electronic records
Web sites

Names:
