Collection Overview

Repository:	Smithsonian Institution Archives, Washington, D.C., osiaref@si.edu
Title:	Website Records
Date:	1996-2014
Identifier:	Accession 14-260
Creator::	National Museum of Natural History
Extent:	
Language:	English

Administrative Information

Preferred Citation

Smithsonian Institution Archives, Accession 14-260, National Museum of Natural History, Website Records

Descriptive Entry

This accession consists of five sections of the Department of Invertebrate Zoology website as they existed on June 25, 2014, shortly before they were due to be taken down.

The Caribbean Coral Reef Ecosystems Program section provides information about the marine laboratory on Carrie Bow Cay in Belize as well as the local environmental conditions. Most of this section was last updated between 2001 and 2005.

The section titled "Deep Sea Images" provides information about deep sea exploration, research, and specimens in a narrative format. It does not appear to have been updated since its creation in 1996.

The "Virtual Echinoderm Newsletter" includes news, publication lists, research topics, and announcements. Most of this section appears to have been last updated in 2001.

The "Polynoids to the People" section consists of the home page for a demonstration of eunicidae data. The data is not included in this accession.

The "Palolo Spot" section includes information and photographs of palolo worms and their cultural significance.

Materials are in electronic format.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

Deep-sea animals
Deep-sea sounding

Echinodermata
Eunicidae
Invertebrates
Marine laboratories
Museum publications
Museums -- Public relations
Natural history museums
Palolo worm
Research
Web sites

Types of Materials:

Electronic records

Names:

National Museum of Natural History (U.S.). Caribbean Coral Reef Ecosystems Program
National Museum of Natural History (U.S.). Department of Invertebrate Zoology

Places:

Carrie Bow Cay (Belize)

Preferred Titles:

Virtual Echinoderm Newsletter
