Repository:	Smithsonian Institution Archives, Washington, D.C., osiaref@si.edu
Title:	Website Records
Date:	2014
Identifier:	Accession 15-066
Creator::	National Museum of Natural History
Extent:	
Language:	English

Administrative Information

Preferred Citation

Smithsonian Institution Archives, Accession 15-066, National Museum of Natural History, Website Records

Descriptive Entry

This accession consists of the "Leafsnap: An Electronic Field Guide" website as it existed on July 8, 2014. The website accompanies a downloadable mobile application of the same name which uses visual recognition software to help identify tree species from photographs of their leaves. The initial application only contains species in the northeastern United States and was jointly developed by Columbia University, the University of Maryland, and the National Museum of Natural History, Department of Botany. This website shows the tree species included in the mobile application, the collections of its users, and the team of research volunteers working to produce it. Due to technical issues, most of the website's images could not be captured and this accession consists primarily of text. Materials are in electronic format.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Mobile apps
- Museums -- Public relations
- Natural history museums
- Trees -- Identification
- Web sites

Types of Materials:

- Electronic records

Names:
