Descriptive Entry

This accession consists of records documenting Facebook accounts maintained throughout the Smithsonian Institution. Facebook is a third-party social networking site used for interaction with the general public. In addition to general Smithsonian-wide accounts, many of which are managed by the Office of Public Affairs, the accession documents the individual accounts of museums, research centers, and programmatic units throughout Smithsonian. Due to technical issues, the crawls of many accounts are incomplete and may not function properly. Materials are in electronic format.
