## Administrative Information

### Preferred Citation

Smithsonian Institution Archives, Accession 15-249, National Museum of Natural History, Website Records

---

## Descriptive Entry

This accession consists of the "Leafsnap: An Electronic Field Guide" website as it existed on April 23, 2015. The website accompanies a downloadable mobile application of the same name which uses visual recognition software to help identify tree species from photographs of their leaves. The initial application only contains species in the northeastern United States and was jointly developed by Columbia University, the University of Maryland, and the National Museum of Natural History, Department of Botany. This website includes information about the tree species included in the mobile application as well as the team of research volunteers working to produce it. Due to technical issues, most of the website's images could not be captured and this accession consists primarily of text. Data may be incomplete. Materials are in electronic format.

---

## Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

### Subjects:

- Mobile apps
- Museums -- Public relations.
- Natural history museums
- Trees -- Identification
- Web sites

### Types of Materials:

- Electronic records

Names:

Columbia University  
National Museum of Natural History (U.S.). Department of Botany  
University of Maryland (College Park, Md.)

Places:

Northeastern States

Preferred Titles:

*Leafsnap: An Electronic Field Guide (Mobile app)*  
*Leafsnap: An Electronic Field Guide (Website)*

## Container Listing
