## Descriptive Entry

This accession consists of records documenting the research activities and professional files of National Zoological Park (NZP) research scientist and population manager, Dr. Jonathon D. Ballou. Dr. Ballou's research for the NZP Center for Conservation and Evolutionary Genetics, and its predecessors, the Office of Zoological Research (circa 1973-1982), the Department of Zoological Research and Education (1984-1985), the Department of Zoological Research (1986-2000), and the Department of Conservation Biology (2001-2003), primarily consisted of captive breeding techniques; population management and viability analysis; conservation genetics; and the formulation of reintroduction plans for endangered species. Additional materials concern the development of database software for the management of animal pedigree data; the administration of research activities; and involvement in professional activities.

Topics documented within this accession include the conservation of the golden lion tamarin, the black-footed ferret, the Florida panther, and the giant panda. Materials include research data and analysis; lecture notes; clippings; brochures; studbooks; correspondence and memoranda; photographic slides and other images; meeting notes and agendas; budget files; and other related materials. Some materials are in electronic format. Some materials predate Ballou's tenure.

## Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

Animal pedigrees  
Animal populations  
Black lion tamarin  
Black-footed ferret  
Budget  
Computer software -- Development  
Conservation biology  
Database management  
Endangered species  
Florida panther  
Genetics -- Research  
Giant panda  
Giant panda -- Breeding  
Golden lion tamarin  
National Zoological Park (U.S.). Department of Conservation Biology  
Population viability analysis  
Wildlife conservation  
Wildlife reintroduction  
Zoo animals  
Zoology -- Research  
Zoology -- Study and teaching  
Zoos

Types of Materials:

Black-and-white transparencies  
Brochures  
Clippings  
Color photographs  
Color transparencies
