Smithsonian Institution Archives, Accession 17-167, Smithsonian Institution, Website Records

Descriptive Entry

This accession consists of 20 Storify accounts maintained by units throughout the Smithsonian Institution (SI). Storify allows users to combine content from a variety of social media platforms to create a single story. Smithsonian units often use boards in Storify to document or summarize significant social media campaigns. The accounts were crawled in 2015, but much of the content is older. Due to technical issues, some photographic and video content is missing from this accession. Materials are in electronic format.
