Descriptive Entry

This accession consists of 48 Facebook accounts maintained by individual units throughout the Smithsonian Institution. Facebook is a third-party social networking site used for interaction with the general public. The accounts were captured between October 13, 2015, and January 29, 2016. Two accounts were captured again using a crawler on June 20 and 22, 2016. A few accounts were downloaded using Facebook's "archive" feature. Due to technical issues, the captures of many accounts are incomplete and may not function properly. Materials are in electronic format.
