## Administrative Information

### Preferred Citation

Smithsonian Institution Archives, Accession 17-275, Smithsonian Facilities, Website Records

---

## Descriptive Entry

This accession consists of two websites maintained by Smithsonian Facilities, Office of Planning, Design, and Construction.

The Arts and Industries Building website includes information about the history, architecture, and revitalization of the Smithsonian Institution's second building which was completed in 1881. The website was crawled on November 30, 2016.

The "South Mall Campus Master Plan" website is provides an overview of a project to improve and expand visitor services and education; to create clear entrances and connections between the museums and gardens; and to replace aging building mechanical systems that have reached the end of their lifespan. The master plan addresses renovations to the Smithsonian Institution Building (better known as the Castle), the National Museum of African Art, the Arthur M. Sackler Gallery, the Hirshhorn Museum and Sculpture Garden, the S. Dillon Ripley Center, and the Enid A. Haupt Garden. The website, crawled March 13, 2017, also includes concept drawings, reports, and information about the planning and review process.

Materials are in electronic format.

---
