Descriptive Entry

This accession consists of the website of the Walter Reed Biosystematics Unit (WRBU) as it existed on November 15, 2016, shortly after it was redesigned. The WRBU performs collections management activities for the National Museum of Natural History (NMNH), Department of Entomology mosquito collection, comprising over 1.5 million specimens. The WRBU also provides assistance to staff and researchers in locating and examining specimens. In addition, the WRBU maintains a molecular entomology laboratory within the Smithsonian Institution, Museum Support Center. The website includes information about the unit, its research, and the services it provides. The content of some web pages was not fully developed prior to this web crawl. Materials are in electronic format.
