Smithsonian Institution Archives, Accession 18-017, Smithsonian Institution, Calendars of Events

Descriptive Entry

This accession consists of event listings from across the Smithsonian Institution as they were published online. The entries have been exported in XML format from the same database which generates the online calendar of events. Due to limitations in the number of entries that may be exported, two types of XML files have been generated. The first type includes quarterly captures of one-time events only. The second includes all events - both one-time and recurring - up to 1,000 events, captured approximately twice per month. Not every instance of a recurring event may be documented in the files. Materials are in electronic format.
