Collection Overview

Repository:	Smithsonian Institution Archives, Washington, D.C., osiaref@si.edu
Title:	Correspondence
Identifier:	Accession 18-100
Date:	1934-1939, 1956-2017
Extent:	26.99 cu. ft. (23 record storage boxes) (1 document box) (1 blueprint storage box) (4 16x20 boxes) (3 oversize folders)
Creator::	National Museum of Natural History. Division of Mammals
Language:	English

Administrative Information

Oversize

This collection contains oversize material.

Preferred Citation

Smithsonian Institution Archives, Accession 18-100, National Museum of Natural History. Division of Mammals, Correspondence

Descriptive Entry

This accession consists of the records of curator emeritus Richard W. Thorington (1937-2017), who specialized in systematics, evolution, anatomy, and functional morphology in mammals, especially of primates and squirrels. The records primarily document Thorington's curatorial activities in the Division of Mammals at the National Museum of Natural History in regard to field work, research, publications, professional societies, lecturing, committees, collections management and when he served as Chairman of the Department of Vertebrate Zoology (1987-1992) and as Director of the Smithsonian Primate Biology Program. Records that predate Thorington's career at the Smithsonian Institution pertain to his activities as primatologist at Harvard University's New England Regional Primate Research Center (NERPRC), 1964-1969; as Chairman of the NERPRC Division of Primatology, 1966-1969; as Associate in Mammalogy at Harvard University's Museum of Comparative Zoology, 1964-1970; and when he was an undergraduate student at Princeton University (1956-1959), followed by graduate studies in biology at Harvard University where he earned a doctorate degree in 1964. Also represented in these records is primatologist John Russell Napier, Director of the Smithsonian Primate Biology Program, who was succeeded by Thorington.

Materials include correspondence, memoranda, and notes; grant proposals; reports; contracts and agreements; research publications, data, and analyses; field work and laboratory notebooks; meeting agendas and minutes; book reviews; budget summaries; information about conferences, symposiums, committees, workshops, surveys, and conservation biology programs; visitor books; lecture papers and presentation material; photographs, slides, and negatives; awards; newsletters, articles, newspapers,

and clippings; exhibition and loan information; brochures; maps; scientific illustrations and drawings; floor plans; posters; videotapes; audiotapes; and supporting documentation. Some materials are in electronic format.

Names and Subject Terms

This collection is indexed in the online catalog of the Smithsonian Institution under the following terms:

Subjects:

- Committees
- Congresses and conventions
- Conservation biology
- Contracts
- Lectures and lecturing
- Mammalogy
- Museum curators
- Museum exhibits
- Museum loans
- Museums -- collections management
- Natural history museums
- Primates
- Professional associations
- Publications
- Research
- Research grants
- Squirrels
- Vertebrate Zoology
- Workshops

Types of Materials:

- Audiotapes
- Black-and-white negatives
- Black-and-white photographs
- Black-and-white transparencies
- Books
- Brochures
- Clippings
- Color photographs
- Color transparencies
- Compact discs
- Digital images
- Digital versatile discs
- Drawings
- Electronic records
- Field notes
- Floor plans
- Laboratory notebooks
- Manuscripts
- Maps
- Newsletters
- Newspapers

Posters
Scientific illustrations
Videotapes
