Smithsonian Institution Archives, Accession 18-187, Smithsonian Institution, Website Records

Descriptive Entry

This accession consists of the server files for the "Smithsonian Wild" website as they existed in October 2016, shortly before the site was taken down. The website, launched in 2010, was jointly administered by the National Museum of Natural History and the National Zoological Park and allowed the public to browse and search camera trap photographs taken in nine locations around the world. Also included is general information about the project and each project site. Some files from the server may not have been current at the time of transfer. Materials are in electronic format.
